Separatist Christianity Spirit And Matter In The Early Church Fathers:

Separatist Christianity David A. Lopez, 2004-10 By establishing the coherence and ubiquity of this separatist philosophy Lopez offers a fresh new interpretation of the history of the early church Rediscovering the Church Fathers Michael A. G. Haykin, 2011-03-02 While the church today looks quite different than it did two thousand years ago Christians share the same faith with the church fathers Although separated by time and culture we have much to learn from their lives and teaching This book is an organized and convenient introduction to how to read the church fathers from AD 100 to 500 Michael Haykin surveys the lives and teachings of seven of the Fathers looking at their role in such issues as baptism martyrdom and the relationship between church and state Ignatius Cyprian Basil of Caesarea and Ambrose and others were foundational in the growth and purity of early Christianity and their impact continues to shape the church today Evangelical readers interested in the historical roots of Christianity will find this to be a helpful introductory volume *The Theological Anthropology of Eustathius of Antioch* Sophie Cartwright, 2015-10-01 This authoritative study explores Eustathius of Antioch's theological anthropology offering insight into one of the most important thinkers of the early Arian controversy Sophie Cartwright situates Eustathius' thought in relation to the early Arian controversy the Constantinian Revolution the theological legacies of Irenaeus and Origen and the philosophical commentary tradition She also locates Eustathius within his historical context and provides a detailed overview of the sources for his complex and fragmented corpus Eustathius' anthropology is indebted to a tradition shaped by the theology of Irenaeus that had already come into conversation with Origen Dr Cartwright suggests that Origen's own thought was indebted to Irenaeus but that he had a radically different cosmology this shaped subsequent engagement with both thinkers Eustathius' theology of embodiment draws on Irenaeus in opposition to what he perceives as the Origenist and Platonist anthropology which in his anti Arian works he associates with Eusebius of Caesarea However he is deeply indebted to Origen for his doctrine of Christ's human soul and consequently his wider psychology He places humanity at a great distance from God and seeks to give humanity autonomous value especially in his discourse on God's image This represents one logical negotiation of the rejection of Origen's eternal intelligible world Eustathius' divisive Christology offers a picture of Christ as the perfect human being that echoes Irenaeus' Adam Christ typology fleshed out by an Origenian discourse on Christ's human soul and infused with a keen awareness of the chasm between God and humankind He proffers a doctrine of inherited sinfulness as an alternative to Origen's doctrine of the fall and looks to a corporeal eschatological kingdom ruled over by the human Christ this eschatology probably reflects discomfiture with Constantine's role in the church *The Wiley Blackwell Companion to Christian Martyrdom* Paul Middleton, 2020-01-27 A unique wide ranging volume exploring the historical religious cultural political and social aspects of Christian martyrdom Although a well studied and researched topic in early Christianity martyrdom had become a relatively neglected subject of scholarship by the latter half of the 20th century However in the years following the attack on the Twin Towers on September 11 2001 the study

of martyrdom has experienced a remarkable resurgence Heightened cultural religious and political debates about Islamic martyrdom have in a large part prompted increased interest in the role of martyrdom in the Christian tradition The Wiley Blackwell Companion to Christian Martyrdom is a comprehensive examination of the phenomenon from its beginnings to its role in the present day This timely volume presents essays written by 30 prominent scholars that explore the fundamental concepts key questions and contemporary debates surrounding martyrdom in Christianity Broad in scope this volume explores topics ranging from the origins influences and theology of martyrdom in the early church with particular emphasis placed on the Martyr Acts to contemporary issues of gender identity construction and the place of martyrdom in the modern church Essays address the role of martyrdom after the establishment of Christendom especially its crucial contribution during and after the Reformation period in the development of Christian and European national building as well as its role in forming Christian identities in Asia Africa and the Americas This important contribution to Christian scholarship Offers the first comprehensive reference work to examine the topic of martyrdom throughout Christian history Includes an exploration of martyrdom and its links to traditions in Judaism and Islam Covers extensive geographical zones time periods and perspectives Provides topical commentary on Islamic martyrdom and its parallels to the Christian church Discusses hotly debated topics such as the extent of the Roman persecution of early Christians The Wiley Blackwell Companion to Christian Martyrdom is an invaluable resource for scholars and students of religious studies theology and Christian history as well as readers with interest in the topic of Christian martyrdom

Universal Salvation in Late Antiquity Archbishop Michael Bland Simmons, 2015-05-26 This study offers an in depth examination of Porphyrian soteriology or the concept of the salvation of the soul in the thought of Porphyry of Tyre whose significance for late antique thought is immense Porphyry's concept of salvation is important for an understanding of those cataclysmic forces not always theological that helped convert the Roman

Empire from paganism to Christianity Porphyry a disciple of Plotinus was the last and greatest anti Christian writer to vehemently attack the Church before the Constantinian revolution His contribution to the pagan Christian debate on universalism can thus shed light on the failure of paganism and the triumph of Christianity in late antiquity In a broader historical and cultural context this study will address some of the issues central to the debate on universalism in which Porphyry was passionately involved and which was becoming increasingly significant during the unprecedented series of economic cultural political and military crises of the third century As the author will argue Porphyry may have failed to find one way of salvation for all humanity he nonetheless arrived a hierarchical soteriology something natural for a Neoplatonist which resulted in an integrative religious and philosophical system His system is examined in the context of other developing ideologies of universalism during a period of unprecedented imperial crises which were used by the emperors as an agent of political and religious unification Christianity finally triumphed over its competitors owing to its being perceived to be the only universal salvation cult that was capable of bringing about this unification In short it won due to its unique universalist soteriology By examining a rival to Christianity s concept of universal salvation this book will be valuable to students and scholars of ancient philosophy patristics church history and late antiquity *Specters of Paul* Benjamin H.

Dunning,2011-02-07 The first Christians operated with a hierarchical model of sexual difference common to the ancient Mediterranean with women considered to be lesser versions of men Yet sexual difference was not completely stable as a conceptual category across the spectrum of formative Christian thinking Rather early Christians found ways to exercise theological creativity and to think differently from one another as they probed the enigma of sexually differentiated bodies In *Specters of Paul* Benjamin H Dunning explores this variety in second and third century Christian thought with particular attention to the ways the legacy of the apostle Paul fueled shaped and also constrained approaches to the issue Paul articulates his vision of what it means to be human primarily by situating human beings between two poles creation Adam and resurrection Christ But within this framework where does one place the figure of Eve and the difference that her female body represents Dunning demonstrates that this dilemma impacted a range of Christian thinkers in the centuries immediately following the apostle including Clement of Alexandria Irenaeus of Lyons Tertullian of Carthage and authors from the Nag Hammadi corpus While each of these thinkers attempts to give the difference of the feminine a coherent place within a Pauline typological framework Dunning shows that they all fail to deliver fully on the coherence that they promise Instead sexual difference haunts the Pauline discourse of identity and sameness as the difference that can be neither fully assimilated nor fully ejected a conclusion with important implications not only for early Christian history but also for feminist and queer philosophy and theology [The Shepherd as Leader](#) John MacArthur,2016-03-01 The very best training a pastor can receive comes from proven leaders with proven track records leaders like John MacArthur John Piper Steven Lawson RC Sproul and Al Mohler You ll find all of them and more in *The Shepherd as Leader* a collection of the all time best ever messages on
