Counterterrorism Silvia D'Amato,2019-02-21 This book investigates counterterrorism responses from a strategic culturalist perspective focusing on France and Italy in the post 9 11 era Terrorism occupies a predominant space within contemporary political debate across all European countries Recent attacks in Europe have raised many questions about the status of counterterrorism structures within European countries revealing a wide range of practical as well as discursive security implications This work provides an original contribution to the understanding of counterterrorism by asking how values norms and a shared sense of identity matter in policy dynamics It explores and assesses which cultural elements are relevant for the fight against terrorism and investigates the impact which these elements can have on practical approaches to terrorism Despite the current attention to terrorist attacks in Europe the cases of France and Italy in counterterrorism affairs

are particularly overlooked by the existing literature this book analyses questions and examines the strategy of these two countries through the instruments offered by the culturalist approaches to strategy This book will be of much interest to students of terrorism studies discourse analysis European politics security studies and international relations in general
