**Bondarchuk's War and Peace** Denise J. Youngblood, 2014-11-07 Sergei Bondarchuk's *War and Peace* one of the world's greatest film epics originated as a consequence of the Cold War. Conceived as a response to King Vidor's *War and Peace*, Bondarchuk's surpassed that film in every way, giving the USSR one small victory in the cultural Cold War for hearts and minds. This book, taking up Bondarchuk's masterpiece as a Cold War film, an epic, a literary adaptation, a historical drama, and a rival to Vidor's Hollywood version, recovers and expands a lost chapter in the cultural and political history of the twentieth century. Like many great works of literature, Tolstoy's epic tale proved a major challenge to filmmakers. After several early efforts to capture the story's grandeur, it was not until 1956 that King Vidor dared to bring *War and Peace* to the big screen. American critics were lukewarm about the film, but it was shown in the Soviet Union to popular acclaim. This book tells the story of how the Soviet government, military, and culture ministry all eager to reclaim this Russian masterpiece from their Cold War enemies pulled together to make Bondarchuk's *War and Peace* possible. Bondarchuk, an actor who had directed only one film, was an unlikely choice for director, and yet he produced one of the great works of Soviet cinema, a worthy homage to Tolstoy's masterpiece, an achievement only sweetened when Russia's Cold War adversary recognized it with the Academy Award's Oscar for Best Foreign Language Film of 1968. Denise Youngblood examines the film as an epic and, at seven hours long, released in four parts at a cost of nearly 700,000,000 in today's dollars, it was certainly that: a literary adaptation, a complex reflection on history, and a significant artifact of the cultural Cold War between the US and the USSR. From its various angles, the book shows us Bondarchuk's extraordinary film in its many dimensions: aesthetic, political, and historical, even as it reveals what the film tells us about how Soviet patriotism and historical memory were constructed during the Cold War.

*New Soviet Man* John Haynes, 2003 Cinema has long been recognised as the privileged bridge between Soviet ideologies and their mass public. Recent feminist-oriented work has drawn out the symbolic role of women in Soviet culture, but not surprisingly, men too were expected to play their part. In this first full-length study of masculinity in Stalinist Soviet cinema, John Haynes examines the New Soviet Man not only as an ideal of masculinity presented to Soviet cinemagoers but also precisely as a man in his specific and hotly debated social, cultural, and political context. A detailed analysis of Stalinist discourse sets the stage for an examination of the imagined relationship between the patriarch Stalin and his model sons in the key genre cycles of the era, from the capital to the collective farms and ultimately to the very borders of the Soviet state. Informed by contemporary and present-day debates over the social and cultural significance of cinema and masculinity, *New Soviet Man* draws on a range of theoretical and comparative material to produce engaging and accessible readings, accounting for both the appeal of and the inherent potential for subversion within films produced by the Stalinist culture industry. *New Soviet Man* will be widely read by students and specialists in the fields of film studies, Russian and Soviet studies, gender, and modern European history.
