This reference work offers comprehensive perspectives on servant leadership. Featuring a cadre of leading world class scholars, practitioners and contributing authors from diverse fields of inquiry, it aims to collate research on servant leadership with a particular focus on its moral and spiritual dimensions. It is divided into sections that center on topics such as character, philosophical influences, diversity and inclusion, critiques of servant leadership as well as examples of servant leaders. Though first introduced in the 1970 by Robert Greenleaf, the field of servant leadership is still lacking consensus on a definition and a theoretical framework. The goal of this reference work is to begin to fill this gap by assembling the scholarship of the top scholars in this field and providing a go to source for information on the theory and practice of servant leadership. This handbook will serve as an essential resource for researchers, scholars and students of organizational behavior, human resource management and business ethics as well as consultants and business leaders interested in discovering the best leadership models to suit contemporary organizations.

Youth Development and Physical Activity Donald R. Hellison, 2000

Professionals in educational and recreational settings work hard to understand and address the problems faced by underserved youth. Yet the dedicated people in these institutions are often limited in what they can achieve because they tend to remain within the confines of their own work environment rather than sharing their expertise and resources. Instead of accepting this as an unfortunate fact of life, the coauthors of this book see the situation as an opportunity to develop an approach in which the whole is far greater than the sum of its parts. In *Youth Development and Physical Activity: Linking Universities and Communities*, they draw on their considerable teaching experience to present innovative new ways to serve underserved youth. The book describes practical strategies for breaking down the walls between universities and communities so they can combine their strengths to improve young people's lives. You'll find a wealth of guidelines for creating physical activity programs that instill a sense of social and personal responsibility, including numerous real life examples of successful programs. *Youth Development and Physical Activity: Linking Universities and Communities* is divided into four parts, each enriched with the colorful voices and stories of real kids and youth leaders who have put these ideas into practice. Part I provides a sobering look at the challenges today's young people face and introduces positive ways to improve physical activity youth programs so they're meaningful in today's world. In Part II, you'll learn how to move from how it is to how it could be using a breakthrough model for working with kids and building programs. Here, the book provides a road map that shows the way for university students and faculty to connect with youth in their communities through service learning, internships and other outreach programs. Part III spells out how to develop a variety of proven youth physical activity programs from adventure experiences and Coaching Clubs to mentoring and teen parent programs. You'll find many great ideas that work in virtually any setting, including public schools, alternative schools, recreation programs, youth service groups and social agencies. Part IV provides a variety of helpful tools for evaluating programs and improving outcomes as well as

Building Healthy Communities for Positive Youth Development Michael J. Nakkula,Karen C. Foster,Marc

Mannes, Shenita Bolstrom, 2010-07-23 It is a great pleasure to offer this volume from Michael J Nakkula Karen C Foster Marc Mannes and Shenita Bolstrom as the latest in the Search Institute Series on Developmentally Attentive Community and Society Its importance to the series and this eld of inquiry and practice is readily evident in its title Building Healthy Communities for Positive Youth Development Since the early 1990s Search Institute has invited and encouraged communities of all shapes and sizes to use its framework of Developmental Assets and principles of asset building to create strong vibrant and welcoming communities for children and youth We have operated largely at the grassroots level encouraging innovation and adaptation around a shared vision rather than proposing a program or model for replication We seek to learn as much from the communities as they learn from us This book offers in depth case studies of what happened in eight diverse communities that took up our invitation In them we see a wide array of strategies and approaches that on the surface seem to have little coherence But as Nakkula and colleagues found underlying each of these distinct efforts was a deep commitment to transforming the social norms of community life to more effectively attend to young people s healthy development throughout the rst two decades of life There have been many ambitious efforts aimed at comprehensive community change on behalf of young people
