Dangerous Liaisons Kevin Casas-Zamora,2013-09-19 The relationship between criminal syndicates and politicians has a long history including episodes even from the earliest years of America s colonies But while organized crime may not get the headlines it once did in North America the resurgence of such criminal activity in Latin America and in some European nations has grabbed the public s attention In *Dangerous Liaisons* noted scholars describe and analyze the role of organized crime in the financing of politics in selected democracies in Latin America Argentina Brazil Colombia Costa Rica and Mexico

and in Europe Bulgaria and Italy The book seeks to unravel the myths that have developed around crime in these locales while providing facts and informing the debate on how organized crime corrupts democratic institutions especially in relation to the funding of political parties and their activities Among the subjects studied in detail are the role of organized crime in political finance through the lens of Argentina s presidential campaigns of 1999 and 2007 Brazil s elected officeholders and their role in corruption the weakness of Colombia s democracy the growing role of money in Costa Rica s politics the destructive effects of drug money on Mexican institutions the link between organized crime narrowly and broadly understood and political financing in Bulgaria and crime and political finance in Italy The work of the scholars corrects what volume editor Kevin Casas Zamora calls a glaring gap in the literature on the role of organized crime in the corruption of democratic institutions That is the funding of political parties and their activities which in these cases are mostly election campaigns The chapters not only present the evidence but also can be regarded as a call to action Contributors include Leonardo Curzio CISAN UNAM Donatella della Porta European University Institute Delia Ferreira Rubio a member of the international board of directors of Transparency International Mauricio Rubio a researcher at the External University of Colombia Daniel Smilov Center for Liberal Strategies Sofia Bruno Wilhelm Speck University of Campinas and Alberto Vannucci University of Pisa

cop doc helps decode the bigger picture of conflict resolution and compromise in the disparate worlds of policing and organized crime This unique look at the costs and successes of tracking infiltrating arresting and convicting those involved in organized crime is a groundbreaking read for law enforcement personnel criminal justice homeland security law students police psychologists as well as anyone fascinated by the world of organized crime *Deep Space Nine Companion* Terry J. Block, 2000 Lavishly illustrated with a wealth of rare photos and drawings this is the first and only fully authorized comprehensive companion to seven seasons of the television show TV Guide called the best acted written produced and altogether finest of the four Trek series *The Power of Fewer Words* Conrad Riker, 101-01-01 Are you tired of feeling like you re constantly talking but not being heard Are your words drowned out in the noise of a never ending conversation Do you feel like an underappreciated genius stuck in a world that rewards the loudest voices This book is your answer The Power of Fewer Words Why Talking Less Makes You More Attractive Confident and Wise explores The wisdom of silence Discover the ancient philosophies that promote quietness as a sign of intelligence and understanding The power of listening Learn why successful people choose to listen more and talk less helping them understand others better Attractiveness of quiet men Unearth the psychology behind why women are attracted to tall dark and quiet men a real advantage for you How over talking harms your image Understand why speaking too much can sabotage your social and professional life So if you want to empower yourself embrace the power of fewer words and embark on a journey of self discovery and growth then buy this book today *The Sociocultural Context of Psychosocial Interventions* Francisco José Eiroa-Orosa, Tim Lomas, Michael Rowe, 2018-12-06 Across diverse academic fields scholars and practitioners are engaged in developing interventions to promote outcomes like health and quality of life Indeed such is the apparent efficacy of such interventions that there are many policy led initiatives to implement these at national and international scales However few scholars or practitioners have thought in any systematic and critical way about the importance of contextualizing these interventions i e considering how the impact of such interventions may be affected and mediated by specific sociocultural factors from gender to ethnicity and socio economics The aim of the Research Topic The Sociocultural Context of Psychosocial Interventions was to address this lacuna As such we tried to help bringing a more contextual mindset to the implementation of health and wellbeing interventions This may help to shift the way such interventions are designed and implemented both at a granular local level i e influencing individual practitioners and at a large scale macro level e g influencing policy makers Themes within this Research Topic have concerned both macro sociocultural as well as meso and micro layers and the peculiarities of implementing real world research based on these levels There has been room for physical and mental health for family relationships for educational contexts and even for the effects of crime Some works have included interesting methodological discussions on the integration of different ecological layers or the modal distribution of our interests For us it has been very important to work giving a greater diffusion to these issues since

considering psychosocial interventions in the context in which they occur goes beyond an epistemological or methodological discussion. Rather, these considerations seriously affect the ability of practitioners to really reach the people who need their interventions: listening to their needs and respecting their preferences. For the editors of this book, then, the contextualization of interventions means considering the people who receive them as full citizens immersed in complex societies where factors such as social justice and health or well-being do not float apart in space but affect each other dialectically. We therefore think that the duty of both academics and practitioners is not to forget that it is as important to evaluate the direct effect of our interventions as the influence we have in the society as a whole when we carry them out. We hope you enjoy reading these works and that their dissemination stimulates new lines of research committed to both good practice and social transformation.

Terrorizing Women Rosa-Linda Fregoso, Cynthia L. Bejarano, 2010-06-18. More than 600 women and girls have been murdered and more than 1,000 have disappeared in the Mexican state of Chihuahua since 1993. Violence against women has increased throughout Mexico and in other countries including Argentina, Costa Rica, Guatemala, and Peru. Law enforcement officials have often failed or refused to undertake investigations and prosecutions, creating a climate of impunity for perpetrators and denying truth and justice to survivors of violence and victims' relatives. *Terrorizing Women* is an impassioned yet rigorously analytical response to the escalation in violence against women in Latin America during the past two decades. It is part of a feminist effort to categorize violence rooted in gendered power structures as a violation of human rights. The analytical framework of femicide is crucial to that effort, as the editors explain in their introduction. They define femicide as gender-based violence that implicates both the state directly or indirectly and individual perpetrators. It is structural violence rooted in social, political, economic, and cultural inequalities. *Terrorizing Women* brings together essays by feminist and human rights activists, attorneys, and scholars from Latin America and the United States, as well as testimonios by relatives of women who were disappeared or murdered. In addition to investigating egregious violations of women's human rights, the contributors consider femicide in relation to neoliberal economic policies, the violent legacies of military regimes, and the sexual fetishization of women's bodies. They suggest strategies for confronting femicide, propose legal, political, and social routes for redressing injustices, and track alternative remedies generated by the communities affected by gender-based violence. In a photo essay portraying the justice movement in Chihuahua, relatives of disappeared and murdered women bear witness to femicide and demand accountability.
