XIX Cortés Guerrero, José David, 2025-05-30 A partir de la literatura de viajes diarios memorias y correspondencia escrita por viajeros extranjeros que recorrieron Colombia entre 1819 y 1899 el libro aborda dos temas la religión y la religiosidad profesadas ambas por los colombianos Para ello la literatura de viajes deja de ser una fuente y se convierte además en el mecanismo de interpretación de esos dos temas teniendo en cuenta el contexto en el que se produjo así como el lugar de enunciación de los viajeros autores De esta forma la metodología no consiste en una mera aproximación a la fuente sino en un camino para interpretar cómo en la literatura de viajes los extranjeros aparentemente ajenos a la realidad colombiana descifraron de múltiples formas la religión y la religiosidad colombianas construidas ellas a lo largo de una tradición estructural proveniente por lo menos desde el siglo XVI *Después del Bicentenario: políticas de la conmemoración, temporalidad y nación* Vargas Álvarez, Sebastián, 2018-04-30 Esta obra presenta un estudio comparado de la conmemoración del bicentenario de Independencia en México y Colombia celebraciones que tuvieron lugar durante el año 2010 Particularmente desentraña las políticas de conmemoración que hicieron de los bicentenarios objetos de disputa entre diferentes actores sociales Estado sociedad civil academia movimientos sociales etc con sus propias lecturas apropiaciones y representaciones de la historia la temporalidad y la nación Para ello se exploran diferentes ámbitos en donde operó el bicentenario la festividad pública festejos actos conmemorativos desfiles etc las exposiciones históricas en museos la construcción de monumentos y la comercialización de la historia a través de la implementación de rutas de turismo histórico y cultural y de la circulación de piezas publicitarias que apelaban a lo histórico o patriótico en la prensa Para cada uno de estos ámbitos entendidos como registros de la memoria social y formas discursivas diferenciadas se analizan y contrastan ejemplos correspondientes a cada uno de los dos países a fin de poder establecer las tendencias generales de la conmemoración del bicentenario en nuestra región así como la especificidad de cada caso Además de la introducción y de un primer capítulo en donde se ofrece el marco histórico y contextual de la investigación la obra consta de otros cuatro capítulos dedicados a cada uno de estos registros La escritura de la historia prehispánica en Colombia Calderón Patiño, Sol Alejandra, 2023-04-30 A través del análisis de la obra de Ernesto Restrepo Tirado esta investigación se enfoca en entender cómo se escribió la historia prehistórica en Colombia a finales del siglo XIX y principios del XX Este texto examina el contexto intelectual en el que Restrepo Tirado produjo su obra historiográfica y para ello se determinó su itinerario biográfico se describió y reflexionó acerca del proceso de elaboración de sus obras y se analizó su representación sobre los grupos prehistóricos colombianos y su relación con el debate del momento sobre raza, civilización y barbarie Esta es la primera investigación que aborda con profundidad a este autor su obra y el momento de su escritura cuando en diferentes países de América Latina se planteó la necesidad de dar un peso temporal a la historia nacional mediante el reconocimiento de la historia prehistórica para lo cual en el desarrollo del ejercicio histórico se comenzaron a usar las antiguas edades como fuentes arqueológicas prácticas que terminaron dando pie a la formalización de la antropología y la arqueología como campos científicos **Regeneration through Sport** Andrew

McFarland,2022-12-01 This book examines how and why sport in general and football in particular entered the country and developed successfully between 1890 and the 1920s while placing that growth within the context of Spain's larger historical experience. The introduction of sport in the late 19th century permanently changed the day to day lives of thousands of Spaniards. Initially the country's growing urban middle classes embraced the new activity as they built community identities and were introduced to it through economic and educational connections to foreigners. To justify this these proponents argued that the adoption of physical education and sport would physically regenerate the nation. In response well rounded sporting communities grew developed medical arguments and even debated the activity's appropriateness for different groups like women. As sport spread it produced the first football clubs around the turn of the century. Subsequently in the 1910s and early 1920s football established the structural institutions like stadiums stars regulatory bodies and a press that enabled its rapid expansion as a mass consumer activity in the late 1920s. Regeneration through Sport looks at how this process embedded the sport within the national culture and established itself as a politically neutral activity before the Spanish Second Republic allowing it to become almost ubiquitous today. This book will appeal to researchers students and scholars alike who are interested in the history of sport Spain and European history.

Construir

y habitar la escuela Guillermo Marini,Hugo Mondragón,2023-06-19 La Academia de Platón que fue la primera escuela en Occidente era un parque ubicado en la periferia de Atenas. Habrá sido impensable para Socrates Platón o Aristóteles imaginar un espacio cerrado donde se pudiera aprender algo significativo. La anécdota de Tales de Mileto que habrá caído a un pozo de tanto mirar al cielo es el reflejo elocuente de esta disposición de aprender caminando y en modo peripatético. El libro *Construir y habitar la escuela* pone en relieve el olvido de esta experiencia vivida del espacio y lugar como acciones originarias del saber y habitar humano en el mundo. La entrada a este restablecimiento es guiada desde dos verbos que en el texto se articulan de forma correlacionada construir y habitar. Al mismo tiempo se formula la idea de que la escuela es ella misma un verbo una acción y no simplemente el lugar vacío de una estructura protocolizada por normativas de ejecución. El edificio de la escuela habitualmente concebido como objeto externo en donde ocurren simplemente las cosas es desplazado por la idea de su propia arquitectura y del arte y texto. Por tanto la arquitectura se reinterpreta más cerca del arte manual que de la ingeniería proyectiva. Evidentemente este desplazamiento no es solo un asunto técnico sino una decisión estratégica que consiste en poner en ruta la relación fundante entre la acción pedagógica y el lugar vivido de la escuela desde sus configuraciones y sentidos y de sus propias articulaciones. Además se indaga en otras posibilidades para la escuela generando alternativas transformadoras del edificio escolar. Se requiere volver a percibir sentir escuchar y movernos de otra forma frente a las escaleras taxonómicas de las disciplinas predefinidas por el sistema educativo. Se necesita literalmente caer en otra gravedad y sobre todo en otro espacio y transitar varias veces del lado inverso de las cosas. La clásica sala de clases con bancos en línea no solo no facilita esa experiencia sino que el sistema educativo en su conjunto clausura ese movimiento y las
