Gerhard Hauptmann and the Naturalist Drama John Osborne,2005-06-27

What was German Naturalism What were its achievements How does it compare with its counterparts in other European countries These are some of the difficult questions addressed by John Osborne in Gerhart Hauptmann and the Naturalist Drama a revised and updated version of his *The Naturalist Drama in Germany* now widely acknowledged as the standard introduction to the subject The debates to which he contributed and in some cases initiated on Naturalism in the German theatre Naturalist theory in Germany and the development of the Naturalist movement to the contemporary Social Democrat movement have remained central issues This revised edition preserves the structure and approach of the original including its emphasis on the early dramas of Hauptmann while taking full account of subsequent scholarship which provides the context in which this Naturalist playwright's work can be placed     *Spatial Turns* Jaimey Fisher, Barbara Caroline Mennel, 2010 The phrase spatial turns signals the growing importance of space as an analytical as well as representational category for culture The volume addresses such emerging modes of inquiry by bringing together for the first time essays that engage with spatial turns spatiality and the theoretical implications of both in the context of German culture history and theory Migrating from fields like geography urban studies and architecture the new centrality of space has transformed social science fields as diverse as sociology philosophy and psychology In cultural studies productive analyses of space increasingly cut across the studies of literature film popular culture and the visual arts Spatial Turns brings together essays that apply a spatial analysis to German literature and other media and engages with specifically German theorizations of space by such figures as Siegfried Kracauer and Walter Benjamin The volume is organized in four sections Mapping Spaces addresses cartography in all forms and in its intersection with culture Spaces of the Urban takes up one of the key sites of spatial studies the city Spaces of Encounter considers how Germany has become a contact zone for multiple ethnicities and Visualized Spaces concerns the theorization of space in film and new media studies     The Nature Background in the Dramas of Gerhart Hauptmann Mary Agnes Quimby, 1918     Die deutsche Literatur des 20.
