Crash at Corona Don Berliner, Stanton T. Friedman, 2010-04-01. IF UFOS DON'T EXIST THEN THEY CAN'T CRASH. But something did crash near Corona, a tiny town not far from Roswell, New Mexico, in 1947. And that crash has been dissected and debated ever since. Aviation science writer Don Berliner and nuclear physicist Stanton Friedman, the original civilian investigator of the so-called Roswell incident, have delved into the controversy to find the truth. They sifted through once-classified government documents, interviewed military and civilian witnesses, pieced together evidence, considered alternative theories and concluded that a UFO crashed near Corona and the U.S. government knew it and covered it up. *Crash at Corona* proves that what was found in the New Mexico desert wasn't a weather balloon or a secret weapon; it was a UFO. One of the more credible books arguing the existence of UFOs. Most arresting of all is the testimony of those who handled the debris, who had no opportunity to compare notes yet have described the materials in almost identical language. Publishers Weekly. DON BERLINER has written more than 300 magazine articles and 25 books on aviation history and space and was also a staff writer for the National Investigations Committee on Aerial Phenomena (NICAP). He is board chairman of the non-profit Fund for UFO Research Inc. and is a delegate to the UFO Research Coalition. STANTON T. FRIEDMAN is a nuclear physicist who has worked for General Electric, General Motors, Westinghouse and other corporations. He is also the author of *TOP SECRET MAJIC* and has appeared on *Larry King Unsolved Mysteries* and *Nightline* and was involved with the documentaries *UFOs Are Real* and *Flying Saucers Are Real*. He was the final speaker at the fiftieth anniversary conference at the International UFO Museum and Research Center at Roswell and has given more than 700 lectures on the subject of UFOs. *How to Talk to an Alien* Nancy du Tertre, 2015-10-19. Even for nonbelievers, the author's palpable excitement over the subject matter is endearing and entertaining. Ufologists won't want to miss this work. Foreword Reviews. In 1972, American astronomer and ufologist J. Allen

Hynek first coined the term close encounter. He also identified three types of close encounters with UFOs. Since then several more types of encounters have been proposed. A close encounter of the fourth kind is an alien abduction. A closer encounter of the fifth kind is voluntary bilateral contact with an alien species. We are no longer just looking at strange flying objects in the skies; now we are beginning to interact with the actual pilots, crew, and passengers. Do aliens exist? In 2013, one poll showed that nearly half of all Americans (48 percent) believe UFOs may be a sign of extraterrestrial visitation; another found that 10 percent of Americans claim to have actually witnessed an actual UFO; and yet another showed that 2.9 million Americans believe they had actually been abducted by aliens. If aliens exist and are visiting us, we need to talk. Who will speak to them on behalf of planet Earth? Who can translate their intentions, good or evil, toward the human race? How can we learn about their advanced technologies? Can aliens speak human languages? These and even more fascinating questions are all addressed in *How to Talk to an Alien*. Nancy du Tertre covers the various considerations involved with extraterrestrial communication, including the use of alien technology, ET linguistics, and the possibility of using telepathy and dreams. Her handbook for the future should be on every thinking person's bookshelf. Jim Marrs, New York Times bestselling author.
