King,2012-12-06 The Fifth International Rotifer Symposium was organized by Dr Claudia Ricci and held in the northern Italian town of Gargnano Brescia from September 12 17 1988 Through the generosity of the Rector of Milano University a beautiful villa on the shores of Lake Garda was made available to the 83 people from 20 countries who attended the symposium Ten of these rotifer workers had attended the four previous meetings Such symposia serve three major functions the results of which will be apparent in the papers contained in this volume First because of the heterogeneity of interests and absence of concurrent sessions the attendees are exposed to an unusually large variety of research problems approaches and modes of interpretation Bridges are thus built between one s own investigations and developments in the field as a whole Second the extensive informal interactions that occur outside of the meeting room during coffee breaks dinners and excursions provide remarkable opportunities for research planning and sharing of results of work in progress Third the acquaintances established at these meetings have facilitated interactions during the three year intervals between symposia The result has been that visits between laboratories acquisition of research materials from distant sources and coordination of related investigations have all been greatly enhanced A description of the week s events may serve to convey the ambience of the meeting **The Seasonal Distribution of the Crustacea of the Plankton in**
