Entrepreneurship and Local Economic Development Bruno Dallago, Ermanno Tortia, 2018-09-05 This book focuses on the nature and role of entrepreneurship in modern developed and emerging economies and societies its relation to governments and universities and its role in the often forgotten informal economy The aim is to position entrepreneurship in the post crisis context and explore how its relation to universities and governments contributes to explain the countries and territories growth performance and resilience or vulnerability to the crisis The accent is particularly on processes and patterns at local level and in small and medium sized enterprises in local economic systems and districts local systems of innovation and the types and configurations of innovation these give origin to With globalization entrepreneurship has become fundamental for the competitiveness of territories and countries for policy management and for development The local dimension is fundamental because of agglomeration economies and effects the advantages of proximity and the nature of knowledge and information Furthermore territories carry to the centre stage tacit knowledge localized social capital embeddedness and interpersonal relations as fundamental components of their endogenous socio economic development and competitiveness When local systems are connected in a horizontal network they contribute to the strength of national and international

systems To play a constructive role from this perspective entrepreneurship must avoid local entrenchment and support the local economy to upgrade and be competitive To do this the entrepreneurs interaction and alliance with universities and governments is a must for those countries and localities wanting to emerge This requires that enterprises universities and governments create synergies and spill overs to their mutual advantage

Growth Policy in the Age of High Technology Jurgen Schmandt, Robert Wilson, 2018-03-29 Originally published in 1990 this book provides an authoritative and detailed account of the initiatives of US state governments with science and technology programs designed to foster economic growth Two key questions are posed Do state governments have policy instruments that are sufficiently powerful to affect the levels and growth rates of their regional economies and Are national and global economic forces so powerful that they render state action ineffective Several subsidiary themes are discussed in this context namely the most commonly used policy instruments the impacts on federalism and on governance and how well the universities and other educational institutions serve the economic activities imposed on them

Greater Boston's Blizzard of 1978 Alan R. Earls, 2008 The great blizzard of 1978 is an event seared in the memory of anyone who lived through it Most of Greater Boston was quickly overwhelmed by the storm which shut down all forms of transit stranded thousands of cars and motorists along Route 128 and virtually shut down most of the state for a week But for many coastal communities the impact of the storm which brought record high tides and pounding surf was pure devastation The common thread shared by almost everyone in the region was positive memories of neighbors and strangers helping each other and finding new bonds of community Greater Boston's Blizzard of 1978 illustrated with approximately 200 photographs from government archives and private collections brings alive the fading experiences of February 1978 for those who were there and those who can only imagine

CIO, 1994-09-15 **Global America, 1915-2000** D. W. Meinig, 2006-09-01 This landmark book the concluding volume in a magisterial series presents the story of America's interwoven history and geography from 1915 to 2000 Discussing such developments as the automotive neotechnic and communications revolutions the world wars urban migration and regionalism D W Meinig offers unprecedented insights into the reshaping of the United States Meinig at his best he presents a masterly synthesis of the cultural complexity of America a compelling account of the dramatic but immensely complicated restructuring of its human geography during the twentieth century Graeme Wynn *Journal of Historical Geography* This work will shape the way many people view the United States for a long time to come Essential Choice This splendid work concludes the most ambitious writing project of any American geographer ever Global America meets and even exceeds the high standards set by the previous three volumes John C Hudson Northwestern University

The Migrants of the Information Age Rafael Guadalupe Alarcón, 1998 *Essays on Regional Economic Development* Greg Coombs, 2001 There is no doubt that globalisation is a major external influence on small regions These essays show how small regions need not be passive players swept away on the current of change that there are actions that can be taken to navigate a path and ride the currents to

prosperity *Immigration and Metropolitan Revitalization in the United States* Domenic Vitiello, Thomas J. Sugrue, 2017-04-25 After decades of urban crisis American cities and suburbs have revived thanks largely to immigration This is the first book to explore the phenomenon from big cities such as New York Chicago and Los Angeles to newer destinations such as Nashville and suburban Boston and New Jersey **The Transforming Spatial Organization in the Information Age** Dadao Lu, 2024-11-04 This book provides a critical account a state of the art review as well as novel research methods of information technology development and the corresponding changes of socio economic spatial organization in China With the rapid development of the Internet over the past three decades the development of information technology and its impact on social economy have become an important frontier issue of human and economic geography Actually the influence of information technology is complex and dynamic involving almost all aspects of socio economic activities and our daily life It is also influencing the methods and disciplines that we use to understand it In general industrial development and regional management and innovation are the core contents of socio economic spatial organization Therefore changes in industrial clusters transportation logistics regional development and innovation urban planning and management and rural development under the background of the information age were analysed to understand the relationship among information revolution socio economic spatial organization and human and economic geography Primarily intended for scholars and graduate students across a range of disciplines such as geography urban rural planning information science urban science economics and sociology and people engaged in regional planning urban management and information management this book proves to be an innovative and up to date resource *Regions, Globalization, and the Knowledge-Based Economy* John H. Dunning, 2000-09-21 What are the links between the impact of increasing globalization and the advent of the knowledge economy on the spatial distribution of economic activity How can we explain the paradox of growing trans nationalization of the production of goods and services and the tendency for certain kinds of activity particularly knowledge intensive activities to be concentrated or clustered in one place In this changing environment how do firms make decisions about location and the development and deployment of their distinctive capabilities These are some of the important questions addressed in this volume by a team of leading international scholars looking at these dynamics in broad scope The book presents different disciplinary approaches to the knowledge economy viewed from an international perspective and includes detailed case analysis of its impact in different parts of the world It moves between the supra national macro region and the micro cluster as well as looking at associated infrastructural and policy responses This is a rich and informative book that attempts to explain some of the key dynamics and characteristics of the new global economy It will be essential reading for academics in business economics geography and political science wanting to get to grips with current thinking and developments **Knowledge, Space, Economy** John Bryson, Peter Daniels, Nick Henry, Jane Pollard, 2002-01-04 We are now living through a period of knowledge capitalism in which as Castells put it the action of

knowledge upon knowledge is the main source of productivity In the face of such transformation the economic social and institutional contours of contemporary capitalism are being reshaped At the heart of this world are an emergent set of economies regions institutions and peoples central of the flows and translations of knowledge This book provides an interdisciplinary review of the triad of knowledge space economy on entering the twenty first century Drawing on a variety of disciplinary backgrounds the first part of the book comprises a set of statements by leading authors on the role of knowledge in capitalism Thereafter the remaining two parts of the book explore the landscape of knowledge capitalism through a series of analyses of knowledge in action within a range of economic political and cultural contexts Bringing together a set of authors from across the social sciences this book provides both a major theoretical statement on understanding the economic world and an empirical exemplification of the power of knowledge in shaping the spaces and places of today s society
