It overturns narrow historical frameworks bounded artificially by national borders and instead portrays the issues facing our common ecosystems **Peasants, Rebels, Women, and Outcasts** Mikiso Hane, 2016-11-14 This compelling social history uses diaries memoirs fiction trial testimony personal recollections and eyewitness accounts to weave a fascinating tale of what ordinary Japanese endured throughout their country's era of economic growth Through vivid often wrenching accounts of peasants miners textile workers rebels and prostitutes Mikiso Hane forces us to see Japan's modern century from the beginnings of contact with the West to World War II through fresh eyes In doing so he mounts a formidable challenge to the success story of Japan's economic miracle Starting with the Meiji restoration of 1868 Hane vividly illustrates how modernization actually widened the gulf economically and socially between rich and poor between the *mo bo* and *mo ga* modern boy and modern girl of the cities and their rural counterparts He interlaces his scholarly narrative with sharply etched individual stories that allow us see Japan from the bottom up We feel the back-breaking labor of a typical farm family the anguish of poverty-stricken parents forced to send their daughters to Japan's new mills factories and brothels the hopelessness in rural areas scourged by famine the proud defiance of women battling against patriarchy and the desperation of being on strike in a company town in revolt in the countryside or conscripted into the army This updated edition is enhanced by a substantive new introduction by Samuel H Yamashita By allowing the underprivileged to speak for themselves Hane and Yamashita present us with a unique people's history of an often hidden world *A Global History of Literature and the Environment* John Parham, Louise Westling, 2016-12-01 In *A Global History of Literature and the Environment* an international group of scholars illustrate the immense riches of environmental writing from the earliest literary periods down to the present It addresses ancient writings about human animal plant relations from India classical Greece Chinese and Japanese literature the Maya Popol Vuh Islamic texts medieval European works eighteenth century and Romantic ecologies colonial postcolonial environmental interrelations responses to industrialization and the emerging literatures of the world in the present Anthropocene moment Essays range from Trinidad to New Zealand Estonia to Brazil Discussion of these texts indicates a variety of ways environmental criticism can fruitfully engage literary works and cultures from every continent and every historical period This is a uniquely varied and rich international history of environmental writing from ancient Mesopotamian and Asian works to the present It provides a compelling account of a topic that is crucial to twenty-first century global literary studies **Innovative CSR** Céline Louché, Samuel Idowu, Walter Filho, 2017-09-08 By and large corporations of the 21st century have come to realise that their obligations to societies in terms of corporate social responsibility are fourfold economic ethical altruistic and strategic Meeting these four responsibilities is crucial to their survival in their various markets and industries it also requires them to rewrite their previously less socially responsible business models in order to do so All indications continue to suggest that it is those organisations that are perceived to be socially responsible by stakeholders in modern markets that survive and prosper Corporations have equally realised that by

being innovative in all things including their CSR activities and initiatives they will add value to the so called bottom line to the positive contributions they make to society and to how they are perceived by their key stakeholders However many criticisms have been made of CSR in its current form often related to the lack of value that it generates within the enterprise and the fact that it offers only a partial and short term response to the full challenges of sustainable development The time has come to shift the CSR focus away from risk management towards a more progressive and entrepreneurial approach that seeks to create value and identify sustainable opportunities for strategic innovation This book aims to explore inspire and support creative innovative and strategic CSR Innovation in this book means new products services and technologies and in addition new organisational and institutional systems structures and new business models that empower the organisation to advance strategically in an ever more competitive business world Both research and practice show that CSR has mainly been approached in terms of value protection and risk management where the main objective has been to protect companies existing assets or avoid scandals Therefore in many cases where CSR remains at the forefront of business activity it does not lead to fundamental changes and is not yet integrated as a strategic component where it could create value generate new ideas and open new opportunities How do corporate entities shift their attention from risk management to value creation This is the key question that this book attempts to answer both theoretically and empirically as well as through real case studies and experiences With contributions from a cr me de la cr me of scholars from 12 countries Innovative CSR gathers together a cornucopia of innovative practices that will be essential reading for academics and practitioners alike
