Women and War in the 21st Century Margaret D.

Sankey,2018-08-17 Twenty three countries currently allow women to serve in front line combat positions and others with a high likelihood of direct enemy contact This book examines how these decisions did or did not evolve in 47 countries This timely and fascinating book explores how different countries have determined to allow women in the military to take on combat roles whether out of a need for personnel a desire for the military to reflect the values of the society or the opinion that women improve military effectiveness or in contrast have disallowed such a move on behalf of the state In addition many countries have insurgent or dissident factions in that have led armed resistance to state authority in which women have been present requiring national militaries and peacekeepers to engage them incorporate them or disarm and deradicalize them This country by country analysis of the role of women in conflicts includes insightful essays on such countries as Afghanistan China Germany Iraq Israel Russia and the United States Each essay provides important background information to help readers to understand the cultural and political contexts in which women have been integrated into their countries militaries have engaged in combat during the course of conflict and have come to positions of political power that affect military decisions

The European Court's Political Power Karen Alter,2010-06-17 Karen Alter s work on the European Court of Justice heralded a new level of sophistication in the political analysis of the controversial institution through its combination of legal understanding and active engagement with theoretical questions The European Court s Political Power assembles the most important of Alter s articles written over a fourteen year span adding an original new introduction and a conclusion that takes an overview of the Court s development and current concerns Together the articles provide insight into the historical and political contours of the ECJ s influence on European politics explaining how and why the impact of an institution can vary so greatly over time and access different issues The book starts with the European Coal and Steel Community where the ECJ was largely unable to facilitate greater member state respect for ECSC rules Alter then shows how legal actors orchestrated an activist transformation of the European legal system with the critical aid of jurist advocacy movements and via the co optation of national courts The transformation of the European legal system wrested control from member states over the meaning of European law but the ECJ continues to have varying influence across different issues Alter explains that the differing influence of the ECJ comes from the varied extent to which sub and supra national actors turn to it to achieve political objectives Looking beyond the European experience the book includes four chapters that put the ECJ into a comparative perspective examining the extent to which the ECJ experience is a unique harbinger of the future role international courts may play in international and comparative politics

Germond,2015-05-19 In an age of uncertainties influenced by information technologies and the networking of societies the maritime domain remains the main global lane of communication vital for trade and security The European Union has become a maritime actor carrying out counter piracy and maritime capacity building operations and actively dealing with maritime safety fisheries protection port security maritime surveillance and counter immigration at sea The Union's policies mechanisms and activities related to the maritime domain are now backed by a Maritime Security Strategy adopted by the Council in June 2014 This cutting edge book accounts for the trends in maritime strategy and seapower politics as well as the recent developments in the field both at the conceptual and practical level It discusses the significance of the maritime domain for European security in general and for the EU in particular Readers are provided with the necessary tools to critically assess the EU's potential as a global maritime actor and evaluate why Europe's prosperity and security rests on its capacity to shape events at sea **Popular Mechanics** ,2000-01 Popular Mechanics inspires instructs and influences

readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle Our Friends Beneath the Sands Martin Windrow,2010-04-29 The gripping true story of the French Foreign Legion in the Sahara Ever since the 1920s the popular legend of the French Foreign Legion has been formed by P C Wren's novel BEAU GESTE a world of remote forts warrior tribes and desperate men of all nationalities enlisting under pseudonyms to fight and die under the desert sun As with all clichés the reality is far richer and more surprising than this In this book Martin Windrow describes desert battles and famous last stands in gripping detail but he also shows exactly what the Foreign Legion were doing in North Africa in the first place He explains how French colonial methods there actually had their roots in the jungles of Vietnam and how the political pressures that kept the empire expanding can be traced to battles on the streets of Paris itself His description of the Berber tribesmen of Morocco also reveals some disturbing modern parallels the formidable guerrillas of the 1920s were inspired by an Islamic fundamentalist who was adept at using the world's media to further his cause Martin Windrow's previous book THE LAST VALLEY received fabulous reviews across the

English speaking world This unique book which is the first to examine the golden age of the Foreign Legion has followed suit
Japan's Civil-Military Diplomacy Dennis T. Yasutomo, 2014-05-09 Since the early 1990s there has been a clear evolution in the military dimension of Japanese diplomacy From Gulf War I in 1991 to the present day an incremental but unmistakable acceptance of and resort to military dispatches has taken place and yet crucially Japan has not morphed into a traditional military power Exploring Japan's involvement in both Afghanistan and Iraq this book examines the evolution and nature of the new civil military dimension in Japanese foreign policy It shows how foreign aid Japan's traditional non military diplomatic tool was merged with the operations of the Japanese Self Defense Force in Iraq and the activities of NATO ISAF forces in Afghanistan and emphasises the centrality of civilian power to Japanese foreign policy and diplomacy However Dennis Yasutomo argues that while a new civil military security culture is replacing the old merchant state culture of pacifism and anti militarism Japan does not yet qualify as a military normal nation Further the book's exploration of the increased utilization of military power within the context of civilian objectives and non military diplomatic instruments sheds light on the current build up of Japanese military power in East and Southeast Asia amid territorial disputes and nuclear threats and highlights the impact that Japan's new civil military diplomacy may have on wider international affairs in the 21st Century Drawing on interviews with key actors in Tokyo as well as with practitioners who have served on the ground in Iraq and Afghanistan this book will have broad appeal to students and scholars working on Japanese politics and diplomacy military and security studies and international relations *The Times Index*, 2005 Indexes the Times and its supplements

Commandos John Parker, 2013-02-28 The Commandos were Britain's first ever special forces formed in 1940 using volunteers from all three services After the war Commando units of the Royal Marines engaged in virtually every military scenario involving British troops from 1945 to the present day They became the elite of the British ready to go forces capable of deploying at a moment's notice to any trouble spot in the world In this latest book in John Parker's acclaimed series on British military activity dramatically recalled in their own words by men who were there he recounts the major events in the 60 year history of British Commando forces Gardeners' Chronicle and Agricultural Gazette, 1861 **The World**
