**Sheltering in the Backrush** Jeanette Taylor,2023-04-22 Coastal historian Jeanette Taylor unveils the unique past of Twin Islands Twin Islands form part of the lacey fringe at the southern edge of the Discovery Islands archipelago where it meets the north Salish Sea This is the interface between wilderness and urban settlement To the north heavily treed slopes rise vertically from the sea and fast tides churn through the constricted passages of a maze of islands and inlets Navigating these waters is a white knuckle challenge many recreational boaters avoid ending their travels to the east in Desolation Sound Marine Park To the south the topography relaxes into a more habitable environment of open waters villages towns and highways Those who do find their way to Twin are richly rewarded by a beautiful and tranquil destination with a fascinating past Discovery of a trove of sepia toned pictures of Twin Islands from the late 1930s drew Jeanette Taylor to research and document the history of the islands She found a live wire cast of characters typical of remote places including a one legged sheep farmer an aristocratic Irish priest who was the victim of an unsolved murder American tycoons fleeing Japan on the cusp of World War II German royalty and an anonymous

heiress who rescued the islands from logging Through it all Taylor found a thread among Twin s people passed from one generation to the next like an invisible torch handed over with the deed a love of nature and the place Illustrated with historical photos and engagingly written Sheltering in the Back Rush is an important addition to Harbour Publishing s catalogue of coastal BC history **British Record** ,1976 British Record British Information Services,1976 *British Economic Record* ,1976 **Flying Through Life** Richard Moody,2021-11-05 Flying Through Life From Fighter Pilot to Peace Activist By Richard Moody Towards the end of his career as a fighter pilot with the Royal Navy Richard Moody became an ardent Peace Activist and Quaker This book is the story of his conversion In today s world of militarization and slaughter Richard s diametric experiences have made him a uniquely compelling voice in the fight for peace Through his story Richard hopes readers will learn that peace through diplomacy is vital for the survival of societies worldwide Her Majesty Robert Hardman,2021-11-15 The hotly anticipated American edition of Robert Hardman s biography of Queen Elizabeth formerly Our Queen in the U K An intimate portrait of England s soon to be longest reigning queen in celebration of her diamond jubilee and the first ever book interview with her grandson Prince William History has known no monarch like her She has traveled farther than all her predecessors put together and lived longer than any of them She has known more historic figures than anyone alive from Churchill to Mandela de Gaulle to Obama Now the distinguished royal writer Robert Hardman has been granted special access to the world of Queen Elizabeth II to produce this enthralling new portrait of one of the most popular public figures on earth Not only has Elizabeth II reigned through Britain s transformation from an imperial power to a multi cultural nation but she has also steered the monarchy through more reforms in the last twenty five years than in the previous century Queen Elizabeth II sits at the head of an ancient institution that remains simultaneously popular regal inclusive and relevant in a twenty first century world It is down to neither luck nor longevity it is down to the shrewd judgment of a thoroughly modern monarchy with no small assistance from the longest serving consort in history Here is the inside story **Q** Craig Brown,2024-10-01 With equal measures of wit and wisdom the author of 99 Glimpses of Princess Margaret draws a deeply original hilarious and telling portrait of the Queen herself She was the most famous person on earth she first appeared on the cover of Time magazine at the age of three When she died few people were old enough to recall a time when she was not alive Her likeness has been reproduced in photographs on stamps on the notes and coins of thirty different currencies more than any since Jesus It is probable that over the course of her ninety six years she was introduced to a greater number of different people than anyone else who has ever lived likely well over half a million Yet this most closely observed of all women rarely left any real impression on those she encountered beyond vague notions of her radiance and sense of duty A high proportion of those she met can remember what they said to her but not a word of what she said to them Up until now the curious tactic employed by biographers of the Queen has been to ignore what is interesting and to concentrate on what is not Craig Brown the author of 150 Glimpses of the Beatles and Hello Goodbye Hello rejects this

formula bringing his kaleidoscopic approach to the most famous and most guarded woman on earth examining the Queen through a succession of interlocking prisms With Q this fantastically funny marvelously insightful journalist gives us an unforgettable portrait of the omnipresent elusive Queen Elizabeth II
