RSFSR, Russian Soviet Federated Socialist Republic Thomas Fitzsimmons,1957 RSFSR Thomas Fitzsimmons,1957

RSFSR Thomas Fitzsimmons,1957 **RSFSR, Russian Soviet Federated Socialist Republic. Contributors** Thomas Fitzsimmons (ed),1957 *Constitution (fundamental Law) of the Russian Soviet Federated Socialist Republic of January 21, 1937 as Amended Through May 27, 1949* Russian S.F.S.R.,1950 The Russian Soviet Federated Socialist Republic Eugene Nicholas Hardy,1955 *Iskusstvo RSFSR* ,1972 *Directory of Soviet Officials* ,1981 **The Soviet System In Crisis** Alexander Dallin,Gail W Lapidus,2019-07-18 This reader is intended to fill the urgent need for up to date materials on the Gorbachev era and to provide scholars and students with source materials and interpretations not available in standard texts In addition the book will be regularly revised and updated to take account of rapidly changing events Alexander Dallin and Gail Lapidus have brought together outstanding Western analyses as well as Soviet documents and commentary dealing with developments in the USSR s politics economy society culture and foreign policy since 1985 The collection covers the full spectrum of views skeptical and enthusiastic ideological and pragmatic offered by journalists politicians observers and participants Introductory and concluding material by the editors provides the essential context to help students understand the myriad opinions put forth on the vast changes in the USSR and where its future may lie Background Information on the Soviet Union Air University (U.S.). Air Command and Staff College,Kenneth R. Whiting,1959 **World Directory of Minorities** Bridget Anderson, James Chin,John Connell,Patrick Costello,Lindsey Crickmay,Chris Dammers,James Ferguson,David Hawk,David McDowall,Anna Matveeva,Julia Maxted,Neil Melvin,Peter O'Neill,Suzanne Pattle,Martyn Rady,Javaid Rehman,Alex Roslin,Nikhil Roy,David Sogge, Bogdan Szajkowski,Carl Wilson,Abebe Zegeye,1997-01-01 This publication is the first version of the World Directory of Minorities and Indigenous Peoples published in 1997 The full Directory is now available and continually updated on our website The large majority of violent conflicts in the world today are conflicts within states with groups polarized across ethnic and religious divides and not across borders Ethnic religious and linguistic minorities are often among the poorest of the poor suffer discrimination and are frequently the victims of human rights abuses Time and time again in the past the United Nations system governments and even non governmental organizations NGOs working in the field of conflict prevention have failed to promote the human rights of minorities or to take early action to promote cooperation between communities Early action may have prevented the loss of millions of lives in many countries ranging from Rwanda to the former Yugoslavia and from Sri Lanka to Guatemala It is also significant that the Nobel Peace Prize was awarded to the Dalai Lama in 1989 and to Jose Ramos Horta and Bishop Carlos Belo in1996 as a result of their peaceful campaigns to promote the rights of their people The situation of minorities is then a matter of major concern and it is essential that accurate objective and up to date information is made available This Directory contributes to that process It is difficult to assess accurately what proportion of the world s population identify themselves as belonging to

minority communities Conservative estimates place this above 10 per cent and some suggest that more than 20 per cent of the world's population belongs to several thousand different minority groups and subgroups National statistics are often skewed for political reasons and there is no universally accepted definition of minorities The word has different interpretations in different societies throughout the world while the United Nations General Assembly has not sought to reach a definition beyond that implied in the title of the UN Declaration on the Rights of Persons belonging to National or Ethnic Religious and Linguistic Minorities adopted in December 1992 Minority Rights Group focuses its work on non dominant ethnic religious and linguistic communities whether or not they are numerical minorities The concept thus relates to any self identified community that is marginalized without power unable to take decisions over its destiny and often experiencing high levels of illiteracy under education and overt or covert discrimination The basic rights of such communities need protection and promotion There is however a danger of generalizing about minorities and forgetting the complexity of their social composition including the rural poor urban migrants older people women and children These groups may be considered as doubly vulnerable What makes their situation particularly problematic is that there is often a deliberate political policy on the part of majorities and states not to give due regard to the legitimate interests of minorities while members of minorities see their identity as central to their social and economic situation They are often excluded from political power and decision making in the development process without equal opportunities to secure a better quality of life One further danger may lie in regarding ethnicities as fixed rather than as the potentially fluid phenomena that they often are Situational ethnicity does occur and individuals and groups do modify their self identifications depending on circumstances Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Why Are We Socialists? Joseph Goebbels, Ian Tinny, Dead Writers Club, 2020-07-17 Why are we socialists was written by Dr Joseph Goebbels in 1929 Goebbels was the Minister of Propaganda under Adolf Hitler from 1933-1945 Goebbels has been described in various ways in documentaries that critique Nazism and Fascism But what did Goebbels actually say when he talked To find out come inside his mouth See what he said This book examines the actual words of a man who came close to destroying the planet If we are to discover the minds of Goebbels and Hitler we must penetrate behind the thick curtains of superficial evidence which conceal them and the unreliable media intermediaries who have distorted their speeches and writings For example Why are we socialists is merely a small section of a larger article authored by Goebbels that is usually titled Those Damned Nazis However that is not the title that Goebbels gave his larger publication In the German language the title was Die verfluchten Hakenkreuzler or Those Damned

Hakenkreuzlers Goebbels did not use the word Nazi in the title nor anywhere within the pamphlet The revelations in this paragraph were uncovered in the historian Dr Rex Curry s work Those Damned Nazis is a deceitful translation that was intended to cover up what Goebbels actually said This book reproduces the entire text of Why are we socialists As a free bonus specific examination of Mein Kampf is made for many comparisons This book is a useful study guide to Hitler s Mein Kampf whereby what had been a vague plan suddenly was reality almost to the disbelief of Goebbels and other supporters Goebbels supported schools so that his deadly dogma could be spread throughout Germany s educational system This book is a startling expose of the origin of Goebbels goals This book reveals that many of Goebbels shocking ideas were borrowed from the USA

Russia and the West Karl Kaiser,Robert Legvold,1999 This comprehensive exploration of the new international environment examines not only traditional political military concerns but also economic ethnic and other factors in the security environment of Russia and its neighbors to the west Vol 1 south Vol 2 and east Vol 3 This dynamic approach takes account of both internal and external aspects of security problems and their interplay International authors participate in considering each problem from all relevant points of view

Russian Lawyers and the Soviet State Eugene Huskey,2014-07-14 This study traces the development of the Soviet Bar through periods of legal nihilism and legal revival to its final integration into the Soviet order at the end of the 1930s a story of uncertainty and conflict in the Bolshevik ranks over the role of the lawyer under socialism and one of resistance to Soviet power by a profession jealous of its own autonomy Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Building Hegemonic Order Russia's Way Michael O. Slobodchikoff,2014-10-24 This book examines Russia s emergence after the collapse of the Soviet Union and its creation of a security architecture in the post Soviet space Many scholars argue that Russia is a coercive power in the region that forces states to act in only its own interests While acknowledging Russia s power this author argues that it is not able to merely force states to behave as it wants them to Instead Russia must use bilateral and multilateral cooperation to develop a security architecture that provides order stability and predictable behavior for both Russia as the hegemon and the weaker powers in the region By building this security architecture Russia and the other states in the post Soviet space are better able to achieve their strategic goals and provide for their own security To achieve this weaker states are able to press for certain concessions from Russia regarding how to structure bilateral relations as well as multilateral organizations While Western politicians have argued that Russia has tried to reestablish the Soviet Union through coercive means the reality is much more of a nuanced interaction among all of the states in the region which ensures state sovereignty while allowing the weaker

states to pursue their own interests Using network analysis this author shows how the regional structural architecture of cooperation was built and indicate how Russia is able to achieve order This book also shows that there is a lack of order where states have refused to cooperate in building the structural architecture which has led to conflict and territorial disputes *Language Policy in the Soviet Union* L.A. Grenoble, 2006-04-11 Soviet language policy provides rich material for the study of the impact of policy on language use Moreover it offers a unique vantage point on the tie between language and culture While linguists and ethnographers grapple with defining the relationship of language to culture or of language and culture to identity the Soviets knew that language is an integral and inalienable part of culture The former Soviet Union provides an ideal case study for examining these relationships in that it had one of the most deliberate language policies of any nation state This is not to say that it was constant or well conceived in fact it was marked by contradictions illogical decisions and inconsistencies Yet it represented a conscious effort on the part of the Communist leadership to shape both ethnic identity and national consciousness through language As a totalitarian state the USSR represents a country where language policy however radical could be implemented at the will of the government Furthermore measures such as forced migrations were undertaken that resulted in changing population demographics having a direct impact on what is a central issue here the very nature of the Soviet population That said it is important to keep in mind that in the Soviet Union there was a difference between stated policy and actual practice There was no guarantee that any given policy would be implemented even when it had been officially legislated **Transitional Justice** Neil J. Kritz, 1995 Includes over 100 laws regulations and decrees constitutional provisions judicial decisions reports of official commissions of inquiry and treaty excerpts from 28 countries and from international organizations Belorussia Ivan S. Lubachko, 2021-10-21 Few European nations are so little known to the world at large as Belorussia For centuries this Eastern European country has served as a pawn in the power plays of predatory neighbors In this the first detailed study of Belorussia's recent history the author depicts the successive invasions of German Polish and Russian armies in two world wars and the upheavals stemming from the Russian Revolution The Belorussian Soviet Socialist Republic established in 1919 progressed culturally educationally and economically during Lenin's lifetime Under Stalin however her leaders were liquidated in a series of purges and hundreds of thousands of her people were shot or exiled to Siberia Thousands more died in the famine that followed the forced collectivization of agriculture Although Stalin gained the admission of Belorussia to the United Nations the author concludes that Russian hegemony over Belorussia is as complete today under the Communists as it was for a century under the tsars **Russia Political Parties and Organizations Directory Volume 1 Strategic Information, Regulations, Contacts** IBP USA, Executive Power and Soviet Politics Eugene Huskey, 2016-06-16 Ever since the behavioral revolution reached Communist studies more than 2 decades ago Western scholarship has tended to ignore the powerful and unwieldy institutional structure of the Soviet government Today suddenly it is clear that the dramatic political and legislative reforms

of the Gorbachev years will remain incomplete as long as the issues of state bureaucratic power and executive prerogative are unresolved This volume brings together original studies of the Soviet executive under Gorbachev by specialists including Barbara Chotiner Stephen Fortescue Brnda Horrigan Ellen Jones Wayne Limberg T H Rigby and Louise Shelley Among the topics covered are the major economic national security and law enforcement ministries the presidency the cabinet and questions of presidential ministerial presidential presidential legislative executive and party state relations
