Ruben's Ruse Ben Coady, 2002 Published by arrangement with Robert Hale Limited London T p verso **St. Jacob's Antwerp Art and Counter Reformation in Rubens's Parish Church** Jeffrey Muller, 2016-05-23 Of more than forty churches that fortified Antwerp as the bulwark of the Counter Reformation in the Netherlands only St Jacob s stands now with its art and archives intact Parish church of the city s elite it is filled with masterpieces including the altarpiece that Rubens painted for his own burial chapel Works of architecture painting sculpture and hundreds of sacred objects documented by the archives enable a reconstruction of the integral role that art played in the transformation of a whole society over the span of two centuries from 1585 to the 1790s It is a history of real people and organizations who used art for religion politics and social purpose joined together in a church that embodied a diverse community *The English flower garden* William Robinson, 1913 *From Criminal to Courtier* David Kunzle, 2021-10-11 The art of the Netherlands Dutch and Flemish is unique in Early Modern Europe in its concern for military cruelty against civilians principally the peasantry Decimated by time and changes in taste this popular iconography proves varied and extensive stretching from Bruegel to and past Rubens Massacres of the Innocents continue to be a favourite subject through the Eighty Years War in contrast to ruling class glorifications of war Dutch patriotic siege prints lay claim to scientific precision in landscapes free of military terror while the idea of military conquest is presented as generous rather than cruel in the ever popular figure of Scipio Africanus Most of the pictorial material is unfamiliar some of it even to specialists and never before published new light is shed on the more familiar phenomena of the civic guard groups and Ter Borch courtier officers good soldiers overcoming a bad image

The Edison Kinetogram , 1915 *Explaining Evil* W. Paul Franks, 2019-01-10 In Explaining Evil four prominent philosophers two theists and two non theists present their arguments for why evil exists Taking a position and response format in which one philosopher offers an account of evil and three others respond this book guides readers through the advantages and limitations of various philosophical positions on evil making it ideal for classroom use as well as individual study Divided into four chapters Explaining Evil covers Theistic Libertarianism Theistic Compatibilism Atheistic Moral Realism and Atheistic Moral Non realism It features topics including free will theism atheism goodness Calvinism evolutionary ethics and pain and demonstrates some of the dominant models of thinking within contemporary philosophy of religion and ethics Written in accessible prose and with an approachable structure this book provides a clear and useful overview of the central issues of the philosophy of evil **California and the Politics of Disability, 1850-1970** Eileen V. Wallis, 2023-03-31 This book explores the political legal medical and social battles that led to the widespread institutionalization of Californians with disabilities from the gold rush to the 1970s By the early twentieth century most American states had specialized facilities dedicated to both the care and the control of individuals with disabilities Institutions reflect the lived historical experience of many Americans with disabilities in this era Yet we know relatively little

about how such state institutions fit into specific regional state or local contexts west of the Mississippi River how those contexts shaped how institutions evolved over time or how regional institutions fit into the USA's contentious history of care and control of Americans with mental and developmental disabilities This book examines how medical social and political arguments that individuals with disabilities needed to be institutionalized became enshrined in state law in California through the creation of a bureaucracy of disability Using Los Angeles County as a case study the book also considers how the friction between state and county policy in turn influenced the treatment of individuals within such facilities Furthermore the book tracks how the mission and methods of such institutions evolved over time culminating in the 1960s with the birth of the disability rights movement and the complete rewriting of California's laws on the treatment and rights of Californians with disabilities This book is a must read for those interested in the history of California and the American West and for anyone interested in how the intersections of disability politics and activism shaped our historical understanding of life for Americans with disabilities

Scientism and Secularism J. P. Moreland, 2018-09-20 Rigid adherence to scientism as opposed to a healthy respect for science is all too prevalent in our world today Rather than leading to a deeper understanding of our universe this worldview actually undermines real science and marginalizes morality and religion In this book celebrated philosopher J P Moreland exposes the selfdefeating nature of scientism and equips us to recognize scientism's harmful presence in different aspects of culture emboldening our witness to biblical Christianity and arming us with strategies for the integration of faith and science the only feasible path to genuine knowledge

Speaking With the Dead Jurgen Pieters, 2019-08-06 This book deals with the special power of literary texts to put us in contact with the past A large number of authors coming from different ages have described this power in terms of the conversation with the dead when we read these texts we somehow find ourselves conducting a special kind of dialogue with dead authors The book covers a number of texts and authors that make use of this metaphor Petrarch Machiavelli Sidney Flaubert Michelet Barthes In connecting these texts and authors in novel ways Jurgen Pieters tackles the all important question of why we remain fascinated with literature in general and with the specific texts that to us are still its backbone Situated in the aftermath of New Historicism the book challenges the idea that literary history as a reading practice stems from a desire to speak with the dead

Key Features Offers a broad survey a combination of classical literature Renaissance literature and modern theory and history Issues a plea for the importance of reading literary texts and the power of literature Discusses key figures from the Western canon Homer Virgil Dante Machiavelli in light of the idea that we can learn from the past by talking to the dead Combines theoretical
