Borderland Narratives Andrew K. Frank,A. Glenn Crothers,2019-04-16 Broadening the idea of borderlands beyond its traditional geographic meaning this volume features new ways of characterizing the political cultural religious and racial fluidity of early America It extends the concept to regions not typically seen as borderlands and demonstrates how the term has been used in recent years to describe unstable spaces where people cultures and viewpoints collide The essays include an exploration of the diplomacy and motives that led colonial and Native leaders in the Ohio Valley including those from the Shawnee and Cherokee to cooperate and form coalitions a contextualized look at the relationship between African Americans and Seminole Indians on the Florida borderlands and an assessment of the role that animal husbandry played in the economies of southeastern Indians An essay on the experiences of those who disappeared in the early colonial southwest highlights the magnitude of destruction on these emergent borderlands and features a fresh perspective on Cabeza de Vaca Yet another essay examines the experiences of French missionary priests in the trans

Appalachian West adding a new layer of understanding to places ordinarily associated with the evangelical Protestant revivals of the Second Great Awakening Collectively these essays focus on marginalized peoples and reveal how their experiences and decisions lie at the center of the history of borderlands They also look at the process of cultural mixing and the crossing of religious and racial boundaries A timely assessment of the dynamic field of borderland studies *Borderland Narratives* argues that the interpretive model of borders is essential to understanding the history of colonial North America A volume in the series *Contested Boundaries* edited by Gene Allen Smith Contributors Andrew Frank A Glenn Crothers Rob Harper Tyler Boulware Carla Gerona Rebekah M K Mergenthal Michael Pasquier Philip Mulder Julie Winch *The Threshold of Manifest Destiny* Laurel Clark Shire, 2016-07-28 In *The Threshold of Manifest Destiny* Laurel Clark Shire illuminates the vital role women played in national expansion and shows how gender ideology was a key mechanism in U S settler colonialism Among the many contentious frontier zones in nineteenth century North America Florida was an early and important borderland where the United States worked out how it would colonize new territories From 1821 when it acquired Florida from Spain through the Second Seminole War and into the 1850s the federal government relied on women s physical labor to create homes farms families and communities It also capitalized on the symbolism of white women s presence on the frontier images of imperiled women presented settlement as the spread of domesticity and civilization and rationalized the violence of territorial expansion as the protection of women and families Through careful parsing of previously unexplored military court and land records as well as popular culture sources and native oral tradition Shire tracks the diverse effects of settler colonialism on free and enslaved blacks and Seminole families She demonstrates that land grant policies and innovations in women s property law implemented in Florida had long lasting effects on American expansion Ideologically the frontier in Florida laid the groundwork for Manifest Destiny while practically the Armed Occupation Act of 1842 presaged the Homestead Act
