

Лексика русского политического дискурса

Английский язык, как язык глобального общения, является сегодня посредником в межкультурном общении во всех сферах его адаптивные возможности позволяют ему стать «голосом» иноязычных культур, в том числе и русской. Участники межкультурного политического дискурса стремятся к формированию положительного имиджа своей страны, что требует манипулирования общественным сознанием, которое, в свою очередь, актуализируется главным образом на лексическом уровне. Именно лексика способствует выражению идеологической оценочности и разрешению неоднозначности или, напротив, формированию двусмысленности. Эффективное межкультурное общение в сфере политики требует понимания вариативности лексики при контакте с иноязычной культурой, овладения механизмом образования англоязычных вариантов русского политического лексикона и способом разрешения неоднозначности. Именно эти аспекты анализируются в монографии, для чего привлекается значительный корпус англоязычных текстов, главным образом британских и американских авторов, словарей и справочных изданий. Издание адресовано политикам, журналистам, лингвистам и переводчикам, специалистам в области связей с общественностью и аспирантам.

Semiotika Politicheskogo Diskursa:

Israel from the Outside and Inside Nitza Davidovitch, Eyal Lewin, 2019-03-04 This book explores Israel's relations with its friends and foes in the present and the past by looking into news media outlets and their effect. There are several international political players involved in Israel's tough neighborhood of the Middle East and some of them are portrayed in this book through the dimension of media coverage. Along with this, the volume highlights some of Israel's leading challenges in the sphere of international relations and public diplomacy. Hence, it integrates research in various topics: international relations, politics, media, and Israel studies. With Israel at its center, the book brings together insights drawn from a wide range of scholarly inquiries into current global issues. Thus, a large scope and a uniquely wide perspective is established, enabling researchers to rely on this work. The book is bound to be of interest to specialists and to both advanced and undergraduate students in the field of Israel studies, Middle Eastern studies, scholars of international relations, and researchers of specific countries. However, though academic in nature, this book is also suitable for readers of popular social science who are interested in media and communication, Israel, or in the fascinating sociological forces that influence the regional geopolitics of the Middle East.

New Trends in Lexicography Olga Karpova, Faina Kartashkova, 2010-02-19 The present book contains a collection of works developing new trends in theoretical and practical lexicography devoted to manifold description of lexis. All papers are divided into two main sections. Part I, Systemic and Cross-cultural Relations of Words in the Dictionary, presents analysis of cultural issues and phraseology with special reference to English dictionaries for general and specific purposes. The main focus is given to the principles of lexicographic presentation of non-equivalent lexis, idioms, clichés, nominations of non-verbal behaviour, and proper names of people in bilingual and monolingual dictionaries. Part II, entitled Specialized Dictionaries: Traditions and Innovations, deals with peculiarities of Author Lexicography, Learners Lexicography, LSP dictionaries, dictionaries of English verbs, and varieties of the English language in its synchronic and diachronic aspects. This book is based on plenary presentations of the VIIIth school on Lexicography: Synchronic and Diachronic Lexicography: A New Age of Theory and Practice, Ivanovo State University, September 10-12, 2009, and continues the series of monographs devoted to theoretical and practical problems of modern and historical lexicography.
