*Sémiotique et philosophie du langage* Umberto Eco,1988

*Semiotique et philosophie du langage* Umberto Eco,1984

*Semiotique et philosophie du langage* Umberto Eco,1993

*Les Idéologues* Winfried Busse,Jürgen Trabant,1986-01-01

Le présent volume réunit les contributions d'un colloque sur la pensée sémiotique et linguistique des Idéologues qui s'est tenu Berlin du 3 au 5 octobre 1983. Ce recueil d'articles fait suite à un fascicule de la revue *Histoire Epistémologie Langage* qui leur a consacré au même sujet et dont il complète et amplifie les perspectives en ce qui concerne la portée européenne de la discussion. Le volume manifeste l'intérêt que beaucoup d'entre nous portent surtout dans les sciences du langage ces philosophes

longtemps négligés par l'histoire de la pensée. *Sémiotique et philosophie* Georges Kalinowski,1985. La réflexion sur le droit et la morale a conduit Georges Kalinowski à la logique et la philosophie. Au début des années cinquante il crée avec G. H. von Wright et O. Becker la logique des normes. Sémiotique et philosophie prolonge ses différentes études de logique métalogique. Sémiotique et philosophie. Kalinowski y discute les idées sur le langage d'une part et certaines notions sémiotiques d'autre part issues des anciens Aristote, les Stoïciens, les scolastiques et des modernes Carnap, Frege, Husserl, Lesniewski, Quine, Russell, Saussure, von Wright, Zinov'ev. Il propose *Essai de logique ternaire sémiotique et philosophique* Eugen Cosinschi, Micheline Cosinschi-Meunier,2009. La démarche tient d'une science de l'entre-deux, la recherche de l'intervalle qui permettra de

chiffrer l'opposition de termes contraires et faire résonner leur fonction corrélatrice. Le moyen terme participe ainsi de deux contraires et devient une condition du transfert opératoire d'un à l'autre par le passage médiateur de la voie oblique du tiers inclus dans un mouvement perpétuel qui les lie. Distance. Il est la clé de voûte de la logique ternaire et au titre de tiers inclus, organisateur épistémologique. Ceux qui veulent aborder la sémiotique, la philosophie, mais aussi d'autres disciplines trouveront dans l'ouvrage une entrée pédagogique, heuristique qui exprime explicitement comment la logique conceptuelle ternaire communique l'organisation de son sens. La diversité des triades est telle qu'aucun domaine du discours ne peut en faire l'économie. La triade ordonnée, hiérarchisée, organisation, par exemple, se met en place comme toute triade, mais comme archétype de toutes les triades, comme méta-modèle, la logique ternaire elle permet de s'affirmer ouvertement dans l'interdisciplinarité et d'entrouvrir la porte de la transdisciplinarité.

This collection presents perspectives into the pristine field of phenomenology, philosophy of life, conceived by Tymieniecka, initiated in the *Analecta Husserliana* and unfolding with each volume. This new and original philosophy reaches to the inner workings of Nature as well as to the innermost recesses of the Human Creative Condition, opening a basic starting point for all philosophy. *History of Semiotics* Achim Eschbach, Jürgen Trabant, 1983-01-01 This volume brings together a collection of papers on the general theoretical and methodological problems in the historiography of semiotics It is not a history in the conventional sense even though the main periods and figures in the development of semiotics are given due prominence Nevertheless it should offer the reader stimulation and food for thought in the critical approach to even the least questioned facts of semiotic history and the emphasis given to hitherto neglected problems and persons **De l'histoire de l'art à la sémiotique**

**Perec** Jean Peytard, 2001 *Semiotics and Pragmatics* Gérard Deledalle, 1989-01-01 This collective volume contains carefully selected papers presented at the international semiotics conference Semiotique et pragmatique that took place in Perpignan on 17 to 19 November 1983 The volume starts of with four debate papers by Searle Apel Greimas and Landowski and is followed then by the main section which is subdivided by a historical a theoretical and a practical section The

Empire of Signs Yoshihiko Ikegami, 1991-04-19 Like Roland Barthes well known book *L'Empire des signes* from which the title of the present collection is taken this volume contains essays dealing with certain aspects of Japanese culture **On the Medieval Theory of Signs** Umberto Eco, Costantino Marmo, 1989-01-01 In the course of the long debate on the nature and the classification of signs from Boethius to Ockham there are at least three lines of thought the Stoic heritage that influences Augustine Abelard Francis Bacon the Aristotelian tradition stemming from the commentaries on *De Interpretatione* the discussion of the grammarians from Priscian to the Modistae Modern interpreters are frequently misled

by the fact that the various authors regularly used the same terms. Such a homogeneous terminology however covers profound theoretical differences. The aim of these essays is to show that the medieval theory of signs does not represent a unique body of semiotic notions; there are diverse and frequently alternative semiotic theories. This book thus represents an attempt to encourage further research on the still unrecognized variety of the semiotic approaches offered by the medieval philosophies of language.

**Seduction, Community, Speech** Frank Brisard, Michael Meeuwis, Bart Vandenabeele, 2004

This volume unites various contributions reflecting the intellectual interests exhibited by Professor Herman Parret, Institute of Philosophy, Leuven, who has continued to observe and often critically assess ongoing developments in pragmatics throughout his career. In fact, Parret's contributions to philosophical and empirical linguistic pragmatics present substantive proposals in the epistemics of communication while simultaneously offering meta-comments on the ideological premises of extant pragmatic analyses. In a lengthy introduction, an overview is provided of his achievements in promoting an integrated, maximalist pragmatics as well as of the links between his own work in philosophy of language and in semiotics and aesthetics. The remaining 12 essays address relevant pragmatic themes or look into the relation between pragmatics and neighboring disciplines. They deal with grammatical deixis (Brisard), Ikegami and mood (van der Auwera), Schalley's performativity (Harnish), Holdcroft's speech act types and their praxeological dimensions (Roulet), Van Overbeke's Wittgensteinian language games (Marques), Parisi's cultural and intercultural identities (Vandenabeele), Verschueren and the visual arts (Wildgen).
