American Pacific and East Asia, 1941-1972 Hal M. Friedman, 2019-02-22 Before 1940 the Japanese empire stood as the greatest single threat to the American presence in the Pacific and East Asia To a lesser degree the formerly hegemonic colonial powers of Britain France and the Netherlands still controlled portions of the region At the same time subjugated peoples in East Asia and Southeast Asia struggled to throw off colonialism By the late 1930s the competition exploded into armed conflict Japan looked like the early victor but the United States eventually established itself as the hegemonic power in the Pacific Basin by 1945 Yet when it comes to the American movement out into the Pacific there is more to the story that has yet to be revealed In *War in the American Pacific and East Asia 1941 1972* editor Hal Friedman brings together nine essays that explore lesser known aspects and consequences of America s military expansion into the Pacific during and after World War II This study explores how the United States won the Pacific War against Japan and how it sought to secure that victory in the decades that followed ensure it never endured another Pearl Harbor style defeat and saw the Pacific fulfill a Manifest Destiny like role as an American frontier projected toward East Asia The collection explores the role of the US military in the Pacific Basin in different ways by presenting essays on interservice rivalry and military advising as well as unique topics that are new to military history such as the investigations of strategic communications military public relations institutional cultures of elite forces foodways and the military s interaction with the press Together these essays provide a path for historians to pursue groundbreaking areas of research about the Pacific and establish the Pacific War as the pivotal point in

 century to the early Cold War the United States has a long history with China and that interaction has not always been
 positive or productive This brief history of foreign intervention in China viewed through the experiences of the United States
 Marines examines how the occupying powers dealt with a fellow sovereign nation In many cases this involved the partition or
 outright absorption of Chinese territory through naked aggression Clark contends that considering the past two centuries the
 Chinese have good reason to distrust all foreigners and he urges the pursuit of a badly needed rapprochement This is
 however also the story of the evolution of the Marine Corps as a separate service Although an occupying force the Marines
 did make considerable efforts to earn the friendship of the Chinese people Always on the brink of extinction due to budgetary
 cuts and the enmity of the army and navy the Marines managed to perform an onerous and difficult duty in a foreign land
 With a resurgent China constantly testing the United States a fellow Pacific Rim nation every policymaker should be well
 aware of the often difficult history that we share and the mistakes that have been made in the past Manuals Combined:
AMPHIBIOUS WARFARE & NAVAL SCIENCE FOR THE MERCHANT MARINE OFFICER , AMPHIBIOUS WARFARE LETTER
 OF PROMULGATION This curriculum guide builds upon the work of many contributors Intellectual rigor and academic
 standards demand that the full scope of amphibious warfare be encompassed rather than the tracing of Marine Corps History
 emphasizing the landings of the Great Pacific War which had forged our modern Corps The present course structure and
 content reflect the determination that 1 the history of amphibious warfare remains a valid intellectual endeavor 2 its scope
 greatly exceeds the study of the U S Marine Corps and 3 a historical survey of amphibious warfare is best approached from a
 Maneuver Warfare perspective exploring the various levels of war and their impact on each battle The levels of war would
 include the political strategic operational and tactical technical This construct of classes will also prepare students to become
 critical thinkers of warfare and thus better prepare them for future commissioned service to the Marine Corps Instructors
 are cautioned to observe that this manual contains lesson guides not lesson plans Instructors must devote time for serious
 background reading in recommended literature course texts and contemplation of a conceptual approach that will capture
 the imagination of their students Another important objective of this course must be to stimulate original thought and
 persistent interest on the part of the student PROFESSIONAL CORE COMPETENCY OBJECTIVES The primary objectives of
 this course are to provide prospective merchant marine officers a basic understanding of their role in our national security
 and to familiarize them with the basic principles and procedures for operating a merchant ship as a naval or military auxiliary
