

Bob wants to send Alice the message, "DOG," which he plans to encrypt using Alice's RSA cypher with public key  $(pq, e) = (55, 3)$ . To encrypt the message, Bob uses the method described in Example 8.4.9. He encodes one letter at a time using  $A = 01, B = 02, C = 03, \dots, Z = 26$ . Next, he applies the encrypting formula

$$C = M^e \bmod pq,$$

where  $M$  is a plaintext letter and  $C$  is a block of ciphertext. Because 55 is a two-digit integer, each block of ciphertext is a two-digit integer with 0, 1, 2, ..., 9 represented as 01, 02, 03, ..., 09. (Enter your answers using a fixed number of digits: 01 for 1, 02 for 2, ..., 09 for 9, 10, 11, etc.)

(a) When the first letter of the message is encoded, the result is   . Bob then applies the encrypting formula to find that the first two-digit block of the encrypted message is    $^3 \bmod 55 =$    .

(b) The second two-digit block of Bob's encrypted message is    $^3 \bmod 55 =$    .

(c) What is the fully encrypted message that Alice receives? (Enter the message as a sequence of integer doubles separated by a single space, where each double is written using a fixed number of digits: 01 for 1, 02 for 2, ..., 09 for 9, 10, 11, etc.)

*The Mathematical Neighborhoods of School Mathematics* Hyman Bass, 2023-07-27 The Mathematical Neighborhoods of School Mathematics visits regions beyond but proximal to and accessible from school mathematics Its aim is to give readers a glimpse of not just the rich diversity and adaptability of mathematics but most importantly its interconnections and overall coherence a perspective not easily available from the school curriculum This aim entailed assembling a variety of substantial mathematical domains that do not typically cohabit the same volume The book begins with an in depth treatment of topics in the school curriculum often with novel approaches and connections A unifying thread is the group theoretic study of addition and multiplication in the various number systems of school mathematics The exposition is mathematically rigorous including proofs of many fundamental theorems not otherwise easily available in mathematically accessible form The Mathematical Neighborhoods of School Mathematics is intended to be a conceptual

contribution to mathematics education It will be a valuable resource in professional development of mathematics teachers and in mathematical enrichment programs for both students and teachers In this regard many of the chapters are relatively self contained It could also serve as a text for undergraduate mathematics majors with an interest in teaching The exceptional Chapter 11 presents some novel instructional designs for problem solving activities meant to cultivate connection oriented mathematical thinking Hyman Bass is the Samuel Eilenberg Distinguished University Professor of Mathematics and Mathematics Education at the University of Michigan He is a member of the National Academy of Sciences and of the National Academy of Education Jason Brasel a former high school mathematics teacher is a mathematics educator and researcher in secondary mathematics who works at TeachingWorks University of Michigan His Lady's Response E. M. Akers-Douglas,1915 Journal of the Telegraph Anonymous,2023-11-16 Reprint of the original first published in 1874

**Erotic Performance and Spectatorship** Katy Pilcher,2016-11-10 Erotic dance is one of the most contentious issues in feminist debates today and a source of fascination in media and popular cultural representations Yet why is it that we currently know so little about those who perform erotic dance for female customers or the experiences of these spectators themselves The result of a unique investigation within two of the UK s leisure venues *Erotic Performance and Spectatorship* seeks to rectify the aforementioned lack of insight Through vivid ethnographies of a lesbian leisure venue and a male strip show Pilcher s research advances key debates about the gender and sexual politics of erotic dance whilst simultaneously relating these to debates about the sex industry more widely This book also subverts previous assumptions that only women perform erotic dance and only men spectate Thus this book stands out amongst other academic accounts developing the debate beyond the established focus on erotic dance as either empowering or degrading This new contribution to the study of erotic dance which provides a fresh theoretical perspective combining queer and feminist theorising in addition to rich empirical evidence will appeal to academic researchers and both undergraduate and postgraduate students within the fields of sociology gender studies sexuality studies gay lesbian studies feminism and other neighbouring disciplines It will also be of interest to feminist and sex work activists policy makers and practitioners Digital Literacies Mark Pegrum,Nicky Hockly,Gavin Dudeney,2014-06-03 Dramatic shifts in our communication landscape have made it crucial for language teaching to go beyond print literacy and encompass the digital literacies which are increasingly central to learners personal social educational and professional lives By situating these digital literacies within a clear theoretical framework this book provides educators and students alike with not just the background for a deeper understanding of these key 21st century skills but also the rationale for integrating these skills into classroom practice This is the first methodology book to address not just why but also how to teach digital literacies in the English language classroom This book provides A theoretical framework through which to categorise and prioritise digital literacies Practical classroom activities to help learners and teachers develop digital literacies in tandem with key language skills A thorough analysis of the pedagogical implications of

developing digital literacies in teaching practice A consideration of exactly how to integrate digital literacies into the English language syllabus Suggestions for teachers on how to continue their own professional development through PLNs Personal Learning Networks and how to access teacher development opportunities online This book is ideal for English language teachers and learners of all age groups and levels academics and students researching digital literacies and anyone looking to expand their understanding of digital literacies within a teaching framework Me 'n' Mine Pullout Worksheet Dr M M Sharma, Me n Mine Pullout Worksheets English is a complete practice material for students in the form of worksheets through which they can revise concepts and identify the areas of improvement Assessment of all the topics can be comprehensively done through these sets The series also comprises solved and unsolved practice papers as per latest CBSE syllabus and guidelines Along with the basic exercises the series also comprises various elements of the formative assessment like puzzles crosswords projects etc **InfoWorld** ,1996-04-15 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects How to Succeed in Business Using LinkedIn Eric BUTOW,Kathleen TAYLOR,2008-04-27 Hailed as the MySpace for professionals LinkedIn has taken the Internet by storm It is now estimated that 19 million business professionals log in to this site every day to look for job opportunities search for potential clients get recommendations from colleagues and reconnect with former coworkers LinkedIn allows users to create a profile detailing their professional experience and accomplishments which will help them connect with literally thousands of qualified professionals in their field How to Succeed in Business Using LinkedIn takes users through every aspect of the site from getting registered and building their network to posing questions and creating groups Readers will learn how to create their home page so other users can find them give and receive references search for experts in their field find leads market their business look for and become a service provider find and recruit for jobs conduct business research discover people outside their networks Unique and practical this is the only book available that shows users how to make the most of LinkedIn and the powerful networking opportunities it offers *Online Dispute Resolution* Gabrielle Kaufmann-Kohler,Thomas Schultz,2004-01-01 In a world governed by speed the Internet plays a growing role in many of today s innovations and the resolution of disputes using electronic means of communication may soon be part of everyday legal practice This book offers a survey of the current state of play in online dispute resolution from the methods and information technology currently in use to the range of regulatory solutions proposed by shareholders Taking their analysis a step further the authors also address this new field s most pressing issues including possible amendments of existing legislation treaties and arbitration and other ADR rules Online Dispute Resolution Challenges for Contemporary Justice is an in depth study of online dispute resolution today discussing among other topics the different methods of ODR fields of use ways to bring parties to online dispute resolution validity and effects of clauses entered into online and providing for online mediation or arbitration issues surrounding electronic communications and evidence in
