Reconciliation after Terrorism Judith Renner, Alexander Spencer, 2012-03-12 Reconciliation after Terrorism brings together scholars from the hitherto disparate fields of terrorism and reconciliation studies in order to examine whether reconciliation is a possible strategy for dealing with and ending a terrorist conflict Although terrorist activities often play a role in situations of conflict and transition terrorists are generally not taken into consideration as active participants by researchers and practitioners In some cases the terrorists turn into political actors during the reconciliation process and their past is not an issue anymore as it was the case with the ANC in South Africa This book examines the notion of reconciliation with terrorists from a theoretical and empirical perspective The notion of engagement and reconciliation with terrorist groups is generally seen as problematic if not impossible This is somewhat surprising given that the idea of societal reconciliation has become a common response to state terror although not usually in situations of conflict with sub state terrorist actors Similar to state terror sub state terrorism is a sign of a deep societal rift which reconciliation measures may help to overcome The text investigates the reconciliatory process further raising the central questions a what constitutes reconciliation as a process and an outcome and b how can reconciliation be facilitated in a situation of social conflict This book will be of much interest to students of terrorism studies transitional justice conflict resolution peace and conflict studies and IR in general Reconciliation after Terrorism was featured in the Terrorism Bookshelf Top 150 Books on Terrorism and Counterterrorism selected and reviewed by Joshua Sinai Perspectives on Terrorism Vol 6 No 2 2012

The Dialectics of Exile Sophia A. McClennen, 2004 The history of exile literature is as old as the history of writing itself. Despite this vast and varied literary tradition, criticism of exile writing has tended to analyze these works according to a binary logic where exile either produces creative freedom or it traps the writer in restrictive nostalgia. *The Dialectics of Exile: Nation, Time, Language, and Space in Hispanic Literatures* offers a theory of exile writing that accounts for the persistence of these dual impulses and for the ways that they often co-exist within the same literary works. Focusing on writers working in the latter part of the twentieth century who were exiled during a historical moment of increasing globalization, transnational economics, and the theoretical shifts of postmodernism, Sophia A. McClennen proposes that exile literature is best understood as a series of dialectic tensions about cultural identity. Through comparative analysis of Juan Goytisolo (Spain), Ariel Dorfman (Chile), and Cristina Peri Rossi (Uruguay), this book explores how these writers represent exile identity. Each chapter addresses dilemmas central to debates over cultural identity, such as nationalism versus globalization, time as historical or cyclical, language as representationally accurate or disconnected from reality, and social space as utopic or dystopic. McClennen demonstrates how the complex writing of these three authors

functions as an alternative discourse of cultural identity that not only challenges official versions imposed by authoritarian regimes but also tests the limits of much cultural criticism

The New Politics of Inequality in Latin America Douglas A. Chalmers, 1997-01-30 Against a broader backdrop of globalization and worldwide moves toward political democracy The New Politics of Inequality in Latin America examines the unfolding relationships among social change equity and the democratic representation of the poor in Latin America Recent Latin American governments have turned away from redistributive policies at the same time popular political and social organizations have been generally weakened inequality has increased and the gap between rich and poor has grown Hanging in the balance is the consolidation and the quality of new or would be democracies this volume suggests that governments must find not just short term programmes to alleviate poverty but long term means to ensure the effective integration of the poor into political life The New Politics of Inequality in Latin America bridges the intellectual chasm between on the one hand studies of grassroots politics and on the other explorations of elite politics and formal institution building It will be of interest to students and scholars of contemporary Latin American politics and society and more generally in the vicissitudes of democracy and citizenship in the late twentieth century global system
