Yana,2008-04-10 Some scholars have doubted or denied the continuity of the Assyrian people from the times of empire to the present time This work based on a scientific analysis sheds light on the subject and demonstrates the continuous existence of the Assyrian people Assyria northern Iraq was a state grouped about the heavily fortified city of Ashur on the middle of the Tigris River Assyrians had become civilized in the third millennium BC under the impetus of Mesopotamian development They created the first empire known to history that was run by an empire administration The empire created by Sargon Sharukin much earlier in the third millennium did not have an administration to hold it together Toward the close of the Bronze Age 1700 1200 BC Assyria had expanded westward to the middle of the Euphrates River and in the south they held Babylon temporarily Tiglat Pileser I 1114 1076 extended Assyrian rule to the Mediterranean But Adadnirari II 911 891 BC may be called the father of Assyrian imperial administration Empire building was a necessity of economic development which was based on the technological advances caused by the introduction of iron and the alphabet International trade was necessary for the growth of industry and manufacture and the Assyrians became the tools to carry out this historic economic necessity The Assyrian army was the first army to use iron arms The Assyrian Empire was defeated in 612 BC by an alliance of Medes an Iranian people Persians Iran Babylonians and Cythians Since then Assyria has been governed by Persians Greeks Arabs and Turks The Assyrians were the first non Jewish people to accept Christianity and since then Christianity has become their identity They burned all their ancient books that reminded them of their pagan kings Thus with time a dark cloud was cast over their memories that

separated them from their glorious past But now and then there were sparks from the remote past that testified to the persistence of memory Only recently has the full national awareness been restored There are still scholars who doubt or deny any link between the ancient and the Modern Assyrians They argue that the Assyrians were all massacred during the destruction of their empire This book sets out to demonstrate that the Assyrians were not all massacred during the destruction of their country in 612 BC and that they emerged as a Christian people in Assyria northern Iraq and the neighboring countries Mortals, Deities and Divine Symbols: Rethinking Ancient Images from the Levant to Mesopotamia Benjamin Sass, Laura Battini, 2025-05-29 Dedicated to Tallay Ornan a scholar distinguished in ancient Western Asian iconographic studies It is divided into her major themes New Discoveries and Approaches The Human World The Divine World This discusses iconological and textual problems in a chronological span from the third to first millennia BCE *The Ancient Engineers* L.
