Novelist critic Leopoldo Alas s reputation suffered neglect and silent reproval during much of the twentieth century especially under the Franco regime but his reputation has now achieved classic status in Spain Clearly relatedto this is the great increase in the number of translations Julian Barnes called La Regenta the foreign classic tardily discovered This bibliography picks up where the first one left off in 1984 It is divided into primary material and secondary material Primary material includes Anthologies and Selections Criticism Novels Short Story Collections Plays Correspondence Prologues Reprints Translations and Miscellaneous with two new categories autograph manuscripts and iconography     **Modernity's Metonyms** Geraldine Lawless,2011-05-31 Modernity s Metonyms considers the representation of temporal frameworks in stories by the nineteenth century Spanish authors Leopoldo Alas and Antonio Ros de Olano Adopting a metonymic approach

exploring the reiteration of specific associations across a range of disciplines from literature philosophy historiography to natural history Modernity's Metonyms moves beyond the consideration of nineteenth century Spanish literary modernity in terms of the problem of representation Through an exploration of the associations prompted by three themes the railway food and suicide it argues that literary modernity can be considered as the expression of the perception that a linear model of time bringing together the past the present and the future was fragmenting into a proliferation of simultaneous moments It draws French German American and British writers into discussion of stories by the canonical author Alas and Ros de Olano an author who is receiving increasing attention from scholars of nineteenth century Spanish literature Recent scholarship in the field of nineteenth century Spanish literature and culture has challenged the thesis of retraso the thesis that Spain lagged far behind its European neighbors Building on this scholarship this monograph incorporates shorter works of experimental prose fiction into discussions of nineteenth century literary modernity in Spain It further expands the field by combining analysis of the writing of the canonical author Leopoldo Alas with stories by Antonio Ros de Olano whose work has been receiving increasing attention from scholars in the field Rather than thinking of these works in terms of the ways they conform to established models provided by either contemporaneous French and British works or by fin de siglo and early twentieth century Spanish literature Modernity's Metonyms works inductively    Ten Tales Leopoldo Alas, 2000 The short stories explore themes that concern the interior person the inner being A Day Laborer tells of a liberal intellectual who can identify with exploited laborers because he himself has been exploited Change of Light describes the spiritual peace that comes to a writer as a result of physical blindness The Golden Rose shows through a series of contrasts good and evil heaven and earth light and darkness that virtue and sacrifice are rewarded Queen Margaret chronicles the misery of failed opera singers who find happiness after leaving the short lived glory of the theater Torso relates the faithfulness of a servant who is rejected by a young master The Burial of the Sardine with echoes of Francisco de Goya represents the ephemeral nature of joy as experienced during Shrovetide in a city dominated by the clergy and Two Scholars recounts how envy and vanity affect a personal relationship
