Gertler, Sebastian Martinez, Patrick Premand, Laura B. Rawlings, Christel M. J. Vermeersch, 2011-06-13 This book offers an accessible introduction to the topic of impact evaluation and its practice in development While the book is geared principally towards development practitioners and policymakers designing prospective impact evaluations we trust that it will be a valuable resource for students and others interested in using impact evaluation Prospective impact evaluations

should be used selectively to assess whether or not a program has achieved its intended results or to test alternatives for achieving those results. We consider that more and better impact evaluation will help strengthen the evidence base for development policies and programs around the world. If governments and development practitioners can make policy decisions based on evidence including evidence generated through impact evaluation, our hope is that development resources will be spent more effectively and ultimately have a greater impact on reducing poverty and improving people's lives. The three chapters in this handbook provide a non-technical introduction to impact evaluations including Why Evaluate in Chapter 1, How to Evaluate in Chapter 2, and How to Implement Impact Evaluations in Chapter 3. These elements are the basic tools needed in order to successfully carry out an impact evaluation. From a methodological standpoint, our approach to impact evaluation is largely pragmatic; we think that the most appropriate methods should be identified to fit the operational context and not the other way around. This is best achieved at the outset of the program through the design of prospective impact evaluation that can be built into the project's implementation. We argue that gaining consensus between key stakeholders and identifying an evaluation design that fits the political and operational context is as important as the method itself. We also believe strongly that impact evaluations should be upfront about their limitations and caveats. Finally, we strongly encourage policymakers and program managers to consider impact evaluations in a logical framework that clearly sets out the causal pathways by which the program works to produce outputs and influence final outcomes and to combine impact evaluations with monitoring and selected complementary evaluation approaches to gain a full picture of performance. This book builds on a core set of teaching materials developed for the Turning Promises to Evidence workshops organized by the office of the Chief Economist for Human Development HDNCE in partnership with regional units and the Development Economics Research Group DECRG at the World Bank.

El Hijo Del Candidato Ernesto Morales Alpízar, Ernesto Morales Alp Zar, 2012-03. El senador Bertrand Sullivan es un político de cuna viudo rico, carismático, inteligente y sobre todo aspirante a la presidencia de Estados Unidos. Su hijo Chris, a través de una adolescencia desordenada y el Senador, quemó algunas naves para limpiar sus antecedentes. A los diecisiete años el joven decide embarcarse en un crucero por las Islas Griegas días antes de las elecciones donde su padre se juega el futuro. Una de las noches a bordo el septuagenario doctor retirado Thomas Duncan lee un libro en cubierta y cree ver cómo cae una persona por la borda. El inspector ateniense Marcus Aritaki se hace cargo de la investigación: asesinato, suicidio, accidente. Con prosa ligera, dinamismo y suspicacias, *El Hijo del Candidato* promete entretener sin agotar, instruir sin afectar, deleitar sin aburrir.
