ministry beautiful in his miracles beautiful in calling to life passion crucifixion burial resurrection beautiful in taking up his life again and glorious life in heaven Augustine never filled out this laconic summary by writing a work on Christ and his beauty The Beauty of Jesus Christ seems to be the first attempt in Christian history to write a comprehensive account of the beauty of Christ in the light of Augustine's list The work begins by offering a working description of what it understands by beauty as being perfect harmonious and radiant Beauty above all the divine beauty enjoys inexhaustible meaning and overlaps with the holy or the awesome and fascinating mystery of God Loving beauty opens the way to truth and helps us grasp and practise virtue The book needs to add some items to Augustine's list by recognizing Christ's beauty in his baptism transfiguration and post resurrection sending of the Holy Spirit It also goes beyond Augustine by showing how the imagery and language Jesus prepared in his hidden life and then used in his ministry witness to the beautiful sensibility that developed during his years at home in Nazareth Throughout this book draws on the Scriptures to illustrate and justify Augustine's brief claims about the beauty revealed in the whole story of Christ from his pre existence to his risen post existence Where appropriate it also cites the witness to Christ's beauty that has come from artists composers of sacred music the creators of icons and writers

The Age of Figurative Theo-humanism Franco Cirulli, 2015-05-11 This is a comprehensive integrated account of eighteenth and early nineteenth century German figurative aesthetics The author focuses on the theologically minded discourse on the visual arts that unfolded in Germany circa 1754-1828 to critique the assumption that German romanticism and idealism pursued a formalist worship of beauty and of unbridled artistic autonomy This book foregrounds what the author terms an Aesthetics of Figurative Theo humanism It begins with the sculptural aesthetics of Johann Joachim Winckelmann and Gottfried Herder before moving on to Karl Philipp Moritz Wilhelm Heinrich Wackenroder and Friedrich Schelling The reader will discover how this aesthetic tradition after an initial obsession with classical sculpture chose painting as the medium more suited to the modern self's exploration of transcendence This paradigm shift is traced in the aesthetic discourse of Friedrich Schlegel and Georg Wilhelm Friedrich Hegel In this work the widespread prejudice that such aesthetics initiated a so called Modern Grand Narrative of the Arts is deconstructed One accusation directed at 18th century aesthetics has been that it realised into Art what had previously been a living rich tissue of meaning this work shows how Figurative Theo humanism's attention to aesthetic values was never detached from deeper theological and humanistic considerations Furthermore it argues that this aesthetic discourse never forgot that it emerged from modern disenchantment far from occluding the dimension of secularization it draws poignant meaning from it Anyone with an interest in the current debates about the scope and nature of aesthetics philosophers of art theology or religion will find this book of great interest and assistance

Viladesau,1999-03-25 This book explores the role of aesthetic experience in our perception and understanding of the holy Richard Viladesau s goal is to articulate a theology of revelation examined in relation to three principal dimensions of the aesthetic realm feeling and imagination beauty or taste and the arts After briefly considering ways in which theology itself can be imaginative or beautiful Viladesau concentrates on the theological significance of aesthetic data provided by each of the three major spheres of aesthetic perception and response Throughout the work the underlying question is how each of these spheres serves as a source however ambiguous of revelation Although he frames much of his argument in terms of Catholic theology from the Church Fathers to Karl Rahner Hans urs von Balthasar Bernard Lonergan and David Tracy Viladesau also makes extensive use of ideas from the Protestant theologian of the arts Gerardus van der Leeuw and draws insights from such diverse thinkers as Hans Goerg Gadamer Wolfhart Pannenberg and Iris Murdoch His analysis is enlivened by the artistic examples he selects the music of Mozart as contemplated by Karl Barth Schoenbergs opera Moses und Aron the sculptures of Chartres Cathedral poems by Rilke and Michelangelo and many others What emerges from this study is what Viladeseau terms a transcendental theology of aesthetics In Thomistic terms he finds that beauty is not only a perfection but a transcendental That is any instance of beauty rightly perceived and rightly understood can be seen to imply divinely beautiful things as well In other words Viladesau argues God is the absolute and necessary condition for the possibility of beauty I. A. Richards (Routledge Revivals) John Paul Russo,2015-06-11 A pioneering critic educator and poet I A Richards 1893 1979 helped the English speaking world decide not only what to read but how to read it

Acknowledged father of New Criticism he produced the most systematic body of critical writing in the English language since Coleridge His method of close reading dominated the English speaking classroom for half a century John Paul Russo draws on close personal acquaintance with Richards as well as on unpublished materials correspondence and interviews to write the first biography originally published in 1989 of one of last century s most influential and many sided men of letters The Sense of Beauty George Santayana,1896 **Bookman's Manual** Bessie Graham,1924 *A Sense of Things* Bill

Brown,2010-12-28 In May 1906 the Atlantic Monthly commented that Americans live not merely in an age of things but under

the tyranny of them and that in our relentless effort to sell purchase and accumulate things we do not possess them as much as they possess us For Bill Brown the tale of that possession is something stranger than the history of a culture of consumption It is the story of Americans using things to think about themselves Brown s captivating new study explores the roots of modern America s fascination with things and the problem that objects posed for American literature at the turn of the century This was an era when the invention production distribution and consumption of things suddenly came to define a national culture Brown shows how crucial novels of the time made things not a solution to problems but problems in their own right Writers such as Mark Twain Frank Norris Sarah Orne Jewett and Henry James ask why and how we use objects to make meaning to make or remake ourselves to organize our anxieties and affections to sublimate our fears and to shape our wildest dreams Offering a remarkably new way to think about materialism *A Sense of Things* will be essential reading for anyone interested in American literature and culture

The Sense of Beauty George Santayana,2011-07-26 George Santayana is remembered mostly by his theory of aesthetics which is discussed in detail *The Sense of Beauty or Aesthetics* Santayana s aesthetic theory is basically subjective or psychological and if viewed from a contemporary standpoint somewhat at odds with current developments in neuroscience but closer than most schools of Western philosophy All philosophical theories of aesthetics are interesting to investigate from the standpoint of comparing them to what is said about the human aesthetic faculty in modern research in neuroscience As in ethics Santayana approaches aesthetics in three different ways namely as the exercise of the aesthetic faculty the history of art and the psychological The first two do not concern the author in *The Sense of Beauty or Aesthetics* His attention devoted entirely to the third His intention is to remove himself from the influence of the poets and of Plato and find the out how ideals are formed in the mind how objects may be compared with them what properties are shared in beautiful things and the process by which humans become sensitive to beauty and in turn value it George Santayana is after a definition of beauty that explains its origin in human experience and one that explains the human capacity to be sensible of beauty and the relation between a beautiful object and its ability to excite the human senses
