Edwards,Miroslava Lhotsky,Judy Turner,2011-05-18 After Peggy Edwards Miroslava Lhotsky and Judy Turner published their highly successful first book *The Healthy Boomer A No Nonsense Guide to Midlife Health for Women and Men* they embarked on a series of workshops with health professionals and men and women in midlife Like them the participants often found it almost impossible to juggle the responsibilities of midlife and still find time and energy for themselves Translating the principles of balance and good health into daily action is difficult and the authors knew from their seminars that participants were always pleased to hear stories of struggle and success from others It made sense they concluded to ask Boomers themselves the best ways to manage midlife To get a sense of common issues in midlife and possible coping strategies they sent out a questionnaire and conducted telephone interviews to draw out more in depth ideas The results are found in this book a collection of anecdotes quotes and wisdom from Boomers themselves In midlife we start to get in touch with the fact that our time on earth will not last forever and is precious This book provides a variety of ways of looking at this fact and of thinking about the choices ahead There are motivating stories from Boomers some such as Pamela Wallin known to many

feel as if you simply don't have the time required to lose the fat and get into shape. Imagine if you could have the blueprint for the most efficient form of exercise to keep your body healthy and fit and an eating plan to satisfy hunger, taste, and health. Well, now you can. The best part: It will only require 15 minutes of exercise twice a week paired with a controlled carb diet and on the average you will lose 10 pounds of fat within five weeks. It's hard to believe, but it works. And 15 Minutes to Fitness, Dr. Ben's SMaRT plan for total fitness, will not only show you how to do it but also explain why it works. If this sounds like just another new exercise secret, please be assured that it is most certainly not. The foundation of this program is based on years of study, observation, and practice, and it has delivered real, measurable results in the overwhelming majority of those who have tried it. Dr. Vincent Ben Bocchicchio has spent the last 40 years in the fitness and health field, and as he approaches 70, people are still shocked to hear that he only spends 14 minutes twice a week on working out. But it's true. With only 7 percent body fat, he is often asked what the secret is, and if there's a magic bullet. The answer would be that the magic bullet is knowledge. And now, with this book, you will understand why genetically our bodies require simple and limited exercise exposure and how you can follow this optimal pattern yourself. The fact is that as humans, we are hard-wired to exercise our bodies in very specific ways to reap the highest level of health benefits. I will provide the simple scientific argument for why my combination of high-intensity exercise and controlled carbohydrate eating is the most effective means for burning fat so that you can better understand exactly why this works. Exercise and diet are the two most powerful tools available for attaining high levels of health and function, and 15 Minutes to Fitness will show you just how little it actually takes to achieve a maximum response.      **Hygeia**, 1936
