Sentencing In A Rational Society:

Sentencing in a Rational Society Nigel Walker, 1969

D'Ascoli, 2011-04-01 This book deals with sentencing in international criminal law focusing on the approach of the UN ad hoc Tribunals for the former Yugoslavia ICTY and Rwanda ICTR. In contrast to sentencing in domestic jurisdictions and in spite of its growing importance, sentencing law is a part of international criminal law that is still under construction and is unregulated in many aspects. International sentencing law and practice is not yet defined by exact norms and principles and as yet there is no body of international principles concerning the determination of sentence notwithstanding the huge volume of sentencing research and the extensive modern debate about sentencing principles. Moreover, international judges receive very little guidance in sentencing matters; this contributes to inconsistencies and may increase the risk that similar cases will be sentenced in different ways. One purpose of this book is to investigate and evaluate the process of international sentencing especially as interpreted by the ICTY and the ICTR and to suggest a more comprehensive and coherent system of guiding principles which will foster the development of a law of sentencing for international criminal justice. The book discusses the law and jurisprudence of the ad hoc Tribunals and also presents an empirical analysis of influential factors and other data from ICTY and ICTR sentencing practice thus offering quantitative support for the doctrinal analysis. This publication is one of the first to be entirely devoted to the process of sentencing in international criminal justice. The book will thus be of great interest to practitioners, academics and students of the subject.

Sentencing Policy and Social Justice Ralph

Henham, 2018-02-22 Sentencing Policy and Social Justice argues that the promotion of social justice should become a key objective of sentencing policy, advancing the argument that the legitimacy of sentencing ultimately depends upon the strength of the relationship between social morality and penal ideology. It sheds light on how shared moral values can influence sentencing policy at a time when relationships of community appear increasingly fragmented, arguing that sentencing will be better placed to make a positive contribution to social justice if it becomes more sensitive to the commonly accepted moral boundaries that underpin adherence to the rule of law. The need to reflect public opinion in sentencing has received significant attention more recently with renewed interest in jury sentencing, stakeholder sentencing and the involvement of community views when regulating policy. The author however advocates a different approach combining a new theoretical focus with practical suggestions for reform and arguing that the contribution sentencing can make to social justice necessitates a fundamental change in the way shared values about the advantages of punishment are reflected in penal ideology and sentencing policy. Using examples from international comparative and domestic contexts to advance the moral and ethical case for challenging the existing theories of sentencing, the book develops the author's previous theoretical ideas and outlines how these changes could be given practical shape within the context of sentencing in England and Wales. It assesses the consequences for penal governance due to increased state regulation of discretionary sentencing power and

examines the prospects for achieving the kind of moral transformation regarded as necessary to reverse such a move To illustrate these issues each chapter focuses on a particularly problematic area for contemporary sentencing policy namely the sentencing of women the sentencing of irregular migrants sentencing for offences of serious public disorder and sentencing for financial crime Sentencing and Society Cyrus Tata,Neil Hutton,2017-03-02 Combining the latest work of leading sentencing and punishment scholars from twelve different countries this major new international volume answers key questions in the study of sentencing and society It presents not only a rigorous examination of the latest legal and empirical research from around the world but also reveals the workings of sentencing within society and as a social practice Traditionally work in the field of sentencing has been dominated by legal and philosophical approaches Distinctively this volume provides a more sociological approach to sentencing so allowing previously unanswered questions to be addressed and new questions to be opened This extensive collection is drawn from around one third of the papers presented at the First International Conference on Sentencing and Society Almost without exception the chapters have been revised cross referenced and updated The overall themes and findings of the international volume are set out by the opening Introduction and the closing Reflections chapters Research findings on particular penal policy questions are balanced with an analysis of fundamental conceptual issues making this international volume essential reading for sentencing and punishment scholars criminal justice policy makers and graduate students Punishment & Sentencing Mirko Bageric,2001-07 Sentencing is the most important area of law yet ironically it is also arguably the least coherent This book suggests a way of introducing principle into sentencing by bridging the gap between the philosophical justification for punishment and sentencing law and practice *Gambling in America* United States. World Criminal Justice Systems

Richard J. Terrill, 2010-04-07 This comparative text provides an understanding of major foreign criminal justice systems by discussing and comparing the systems of six of the world's more industrialized countries: England, France, Sweden, Russia, China, and Japan, each representative of a different type of legal system, as well as a chapter on Islamic law that uses Saudi Arabia, Iran, and Turkey as main examples. Political, historical, organizational, procedural, and critical issues confronting the justice systems are explained and analyzed. Each chapter contains material on government, police, judiciary, law, corrections, juvenile justice, and other critical issues. Each chapter introduces a country and then covers concepts to know: government, police, judiciary, law, corrections, and juvenile justice.

Aggravation, Mitigation, and Mercy in English Criminal Justice

Nigel Walker, 1999 Offering a comment on the justification for sentences, this work refutes jurisprudential attacks on the propriety of mercy and discusses the shortcomings of the Court of Appeal's approaches to consistency and other principles of sentencing. The appendices list guideline cases and definitions of seriousness for the purpose of different statutes.

Justice for Victims and Offenders

Martin Wright, 1996-05-31 This work charts issues and developments affecting victims of crime from the earliest times to the modern day, including in particular reparation, compensation, and the evolution of restorative justice. It takes account of the changes in the 1990s.

The Phantom Capitalists Michael Levi, 2016-12-05 This book analyzes in detail how and why people become involved in long-firm-planned bankruptcy fraud, the similarities and differences between long-firm fraud and other crimes, the links between bankruptcy fraudsters and other professional and organized criminals, the techniques that fraudsters use, and the social and commercial relationships that exist within the operational world of the long-firm fraudster. Extensively researched, the study uses interviews with and documentation from businesspeople, credit controllers, lawyers, judges, police, fraud investigators, as well as fraudsters themselves. It also makes use of extensive documentary material from contemporary and historical police and court records. Originally published in the 1980s, the revised edition of this seminal work provides a substantial new introduction written by the author to highlight the changing and unchanging relevance of the findings for a contemporary audience and the ways in which fraud opportunities and the organization of frauds have modified in the intervening years.

Crime and Economics

Kevin Albertson, Chris Fox, 2011-10-05 Crime and Economics provides the first comprehensive and accessible text to address the economics of crime within the study of crime and criminology. The economics of crime is an area of growing activity and concern, increasingly influential both to the study of crime and criminal justice and to the formulation of crime reduction and criminal justice policy. As well as providing an overview of the relationship between economics and crime, this book poses key questions such as: What is the impact of the labour market and poverty on crime? Can society decrease criminal activity from a basis of economic disincentives? What forms of crime reduction and methods of reducing re-offending are most cost beneficial? Can illicit

organised crime and illicit drug markets be understood better through the application of economic analysis For those interested in economic methods but without previous economic training this book also provides an accessible overview of key areas such as cost benefit analysis econometrics and the debate around how to estimate the costs of crime This book will be key reading for undergraduate and postgraduate students of criminology and economics and those working in the criminal justice system including practitioners managers and policy makers
