*Achieving Consistency in Sentencing* Lyndon Harris, 2022-08-29 The Sentencing Council of England and Wales has as its core aim to promote consistency in sentencing with a developed system of appellate guidance at sentencing in addition to a narrative guidelines system which is now two decades old As such there is much to analyse and many lessons to be learned for England and Wales and other jurisdictions Consistency in sentencing is widely regarded to be an essential component of a fair sentencing system but what does consistency mean exactly In *Achieving Consistency in Sentencing* the author maintains that consistency incorporates both substantive and procedural elements focussing upon the proper application of principle The notion of comparing like cases is rejected as simplistic impractical and unprincipled Lyndon Harris argues that a more principled approach reconciles the tension between consistency and individualised justice which has been suggested to exist The author uses clear empirical evidence of inconsistency in sentencing to emphasize the crucial need for discretion during the sentencing exercise which he argues should be structured in a way that encourages sentences to be imposed in accordance with the principles underpinning the scheme while maintaining the ability to individualise sentences Using England and Wales as a case study this work analyses various methods of structuring discretion The latter part of the book

examines the interplay between the primary givers of guidance Parliament the Court of Appeal Criminal Division and the Sentencing Council and draws conclusions good and bad as to ways in which consistency can be achieved Lyndon Harris identifies lessons to be learned while pointing out the strengths and deficiencies in the various devices used to guide sentencing judges when they are required to exercise their discretion The book draws attention to the need for greater flexibility and structure while emphasising the work that needs to be done to address racial and gender inconsistencies in sentencing Thus while providing a theoretically sound critique of the concept this monograph is of direct practical relevance to those studying or practising in sentencing systems worldwide *Criminal Procedure and Sentencing* Peter Hungerford-Welch,2024-04-04 Criminal Procedure and Sentencing provides a comprehensive and up to date guide to each step of criminal procedure from the arrest of the suspect through to trial sentencing and appeals Taking a strong practical focus throughout it covers all aspects of the process of the criminal courts The tenth edition has been fully revised and significantly expanded with updates including key recent case law new legislation including the Sentencing Act 2020 the Judicial Review and Courts Act 2022 and the Police Crime and Sentencing Act 2022 as well as the latest Criminal Procedure Rules and the new Criminal Practice Directions Online support material will offer readers access to regular updates to the law and a comprehensive set of web links as well as advice on additional reading and research for those seeking to engage in critical evaluation of the criminal justice system The author's authoritative yet engaging writing style brings the subject to life and helps to explain complex issues in an easy to understand way This is an ideal text for anyone studying the criminal justice system at a professional or academic level *Sentencing Rape* Graeme Brown,2020-05-14 This book presents an in depth comparative study of sentencing practice for rape in six common law jurisdictions England and Wales Scotland Ireland Canada New Zealand and South Africa It provides a thorough review of the medical literature on the physical and psychological effects of rape the legal and philosophical literature on the seriousness of the offence and the victim's role in sentencing Given the increasingly common practice of perpetrators using mobile and online technologies to film or photograph the commission of sexual offences the book examines recent socio legal research on technology facilitated sexual violence and considers the implications for sentencing By building on recent scholarship on judicial decision making in sentencing and case law comprising over 250 decisions of the relevant appellate courts the book explores and critically analyses judicial approaches to rape sentencing The analysis is undertaken with a view to suggesting possible reforms to rape sentencing in non guideline jurisdictions In so doing this book seeks to establish general principles for sentencing rape assisting in the imposition of proportionate sentences This book will be of interest to judges and practising lawyers to those researching criminal law criminal justice criminology and gender studies and to policy makers including sentencing councils and commissions in common law jurisdictions worldwide **Methamphetamine Use** Sandra B. Hutchison,2009 *Exercising Discretion* Loraine

Gelsthorpe,Nicola Padfield,2012-12-06 The exercise of discretion in the criminal justice system and related agencies often plays a key part in decisions which are made but definitions of discretion are not clear and despite widespread recognition of its importance there is much controversy on its nature and legitimacy This book seeks to explore the importance of discretion to an understanding of the nature of the making of justice in theory and practice taking as its starting point the wide discretionary powers wielded by many of the key players in the criminal justice and related systems It focuses on the core elements and contexts of discretion looking at the power ability authority and duties of individuals officials and organisations to decide select or interpret vague standards requirements or statutory uncertainties **Race and Ethnicity in the**
