Stephen J. Ball

Sentimental Education Schooling Popular Culture And The Regulation Of Liberty:

Sentimental Education James Donald, 1992-05-17 What sort of institution is education In this iconoclastic study James Donald restores the school to its proper place at the heart of post Enlightenment culture and politics He traces the emergence of education as an apparatus designed forlornly to shape the souls of citizens He also draws illuminating analogies between education and broadcasting showing how both conjure up publics and structure the everyday lives of individuals To balance this focus on the institution of cultural norms Donald emphasizes the dynamics of fantasy and desire in their negotiation He therefore juxtaposes the normative practices of education and broadcasting against more transgressive forms of popular culture pornography racist thrillers like Fu Manchu vampire films and what he calls the vulgar sublime Finally drawing on postmodern debates about community and democracy he sketches a context for reforms in broadcasting and presents a provocative alternative to orthodox progressive ideas about education from the primary school to the university

Foucault, Power, and Education Stephen J. Ball, 2013 Foucault Power and Education invites internationally renowned scholar Stephen J Ball to reflect on the importance and influence of Foucault on his work in educational policy By focusing on some of the ways Foucault has been placed in relation to educational questions or questions about education Ball highlights the relationships between Foucault's concepts and methods and educational research and analysis An introductory chapter offers a brief explanation of some of Foucault's key concerns while additional chapters explore ways in which Ball himself has sought to apply Foucault's ideas in addressing contemporary educational issues In this intensely personal and reflective text Ball offers an interpretation of his Foucault That is his own particular reading of the Foucauldian toolbox Ideal for courses in education policy and education studies this valuable teaching resource is essential reading for any education scholar looking for a starting point into the literature and ideas of Foucault

Governing Through Pedagogy Jessica Pykett, 2013-09-13 This edited collection brings together researchers from education human geography sociology social policy and political theory in order to consider the idea of the pedagogical state as a means of understanding the strategies employed to re educate citizens The book aims to critically interrogate the cultural practices of governing citizens in contemporary liberal societies Governing through pedagogy can be identified as an emerging tactic by which both state agencies and other non state actors manage administer discipline shape care for and enable liberal citizens Hence discourses of active citizenship participatory democracy community empowerment personalised responsibility behaviour change and community cohesion are productively viewed through the conceptual lens of the pedagogical state Chapters consider the spaces of schools universities the voluntary sector civil society organisations parenting initiatives the media government departments and state agencies as fruitful empirical sites through which pedagogy is worked and re worked This book was originally published as a special issue of

Citizenship Studies *Film Style and the World War II Combat Genre* Stuart Bender, 2014-08-11 *Film Style and the World War II Combat Genre* is a detailed examination of the stylistic means by which filmmakers depict stories of combat The work furthers contemporary discussions by analyzing a range of World War II combat films to a degree of detail which has previously escaped critical attention This substantial examination of cinematography sound editing and acting in a range of movies including *Saving Private Ryan* *Windtalkers* *Bataan* and *Objective Burma* demonstrates the importance of close attention to the textual construction of these films specifically as well as cinematic texts more generally The work advances the original analytic descriptions of controlled spontaneity and reported realism as theoretical concepts which explain why viewers regard certain stylistic techniques as realistic This notion of realism is then further understood through reference to a body of research in cognitive psychology to argue that the density of audio visual information in contemporary combat films is a significant factor in creating a sense of realism *The RoutledgeFalmer Reader in the History of Education* Gary McCulloch, 2020-11-25 This Reader brings together a wide range of material to present an international perspective on topical issues in history of education today Focusing on the enduring trends in this field this lively and informative Reader provides broad coverage of the subject and includes crucial topics such as higher education informal agencies of education schooling the state and local government education and social change and inequality curriculum teachers and pupils education work and the economy education and national identity With an emphasis on contemporary pieces that deal with issues relevant to the immediate real world this book represents the research and views of some of the most respected authors in the field today Gary McCulloch also includes a specially written introduction which provides a much needed context to the role of history in the current educational climate Students of history and history of education will find this Reader an important route map to further reading and understanding ***Lacan and Education Policy*** Matthew Clarke, 2019-06-13 *Lacan and Education Policy* draws on the rich conceptual resources of Lacanian psychoanalysis Using Lacan's four discourses Matthew Clarke offers a sophisticated critique of recent education policy and the neoliberal model of political economy within which it sits including the ways in which education has been diminished and trivialised through the economistic and depoliticising moves of policy Clarke articulates possibilities for thinking differently about education and education policy beyond the reductive narratives of neoliberalism He argues that psychoanalytic theory is valuable not so much for allowing us to see what education really is but for offering insights into what prevents education from being enabling us to shift our focus instead into the possibilities education offers as a space of becoming The book suggests possibilities for conceptualising and creating the other side of education ***Teach the Nation*** Anne-Elizabeth Murdy, 2018-10-24 *Is knowledge power* In *Teach the Nation* Anne Elizabeth Murdy explores the history and contradictions in the notion that education and literacy are vital means for improving social and political status in the US By closely examining the rapidly shifting social context of education and the emerging literature by and for African American women during the

1890s Murdy proves that the histories of education and literature are deeply connected and argues that their current lives must be regarded as mutually dependent Teach the Nation offers a new understanding of literacy and pedagogical study and identifies how literary history enhances current feminist and anti racist teachings By excavating notions about education in the 1890s as turbulent a time for American public education as today Murdy asks readers to step back from this historical moment to better understand the contexts and institutions within which we theorize learning and teaching In doing so she compels readers to reimagine the potential for gaining social power through education and literature *Imagining Teachers* Gustavo Fischman,2000 This book calls for a different understanding of the professional preparation of pre service teachers critically reflecting on issues of caring and gender and challenging the dominance of words only educational research methodologies Using conceptual tools from visual anthropology cultural studies feminism and critical pedagogy Fischman focuses on the educational dilemmas that students and professors in teacher education programs face within institutions that reinforce rather than challenge oppressive class racial ethnic and gender dynamics He pays special attention to the transmission of models of teaching that are invested of essential masculine and feminine patterns that potentially lead to two very distinctive professional careers one that is associated with dedication and care and a second that emphasizes order and command
