Dealing with Resistance in Psychotherapy Althea J. Horner,2005-07-14 Resistance is an unfortunate term for the manifestation of defense mechanisms in the treatment situation Use of the word to a psychoanalytically unsophisticated patient may evoke undesired consequences because to a patient it implies deliberate intent and thus blame From the patient s unconscious or at time conscious point of view these defenses protect the individual from a variety of intrapsychic or interpersonal dangers As long as these defenses are in play the process of exploration and discovery comes to a halt They must be understood and carefully analyzed for they are at the heart of the treatment impasse This book is written for the professional psychotherapist who may be puzzled why work with a particular patient or client is going nowhere It brings to the therapist s attention a wide variety of these defenses these resistances so that they can be addressed and resolved

Insight and Imagination Howard F. Stein,2007-06-15 Insight and Imagination explores the primacy of the self in organizational research consulting and management leadership Contesting the radical dichotomy between objective and subjective understanding and the devaluation of the latter Professor Howard F Stein argues that the imagination of the observer informed by his or her unconscious can lead to a greater

understanding of the psychological reality of the workplace and in turn to better informed problem solving Insight emerges from the disciplined use of the imagination rather than its repudiation The book brings countertransference to center stage as a tool for understanding the emotional experience of organizational life and for formulating interventions One often neglected use of the imagination is the capacity to not have to know beforehand what one needs to learn what poet John Keats called negative capability Insight and Imagination proposes the use of the humanities as a means of expanding and deepening one's access to the inner life of organizations The author draws from the art created by others and from his own poetry written and often used during an organizational consultation Among the specific contexts discussed in this book are the experience of organizational downsizing helping organizations to grieve after change and loss recognizing red herrings in organizational decision making the language of organizational change recognizing hidden agendas in meetings and reflective practice in organizational life
