**The Separation of Church and State in Italian Thought from Cavour to Mussolini** Samuel William Halperin, 1971

*A History of Italian Unity* Bolton King, 1924      **Nineteenth-Century European Catholicism** Eric C.

Hansen, 2017-09-07 Included in this bibliography originally published in 1989 are books pamphlets dissertations and articles from periodicals and collections published for the most part since 1900 which present Catholic development in the nineteenth century as its major theme Each entry is annotated with the major idea or theme of the work as expressed by its author or editor This title will be of interest to students of European History and Religious Studies      Italy from Liberalism to Fascism Christopher Seton-Watson, 2024-03-08

First published in 1967 Italy from Liberalism to Fascism is essentially the political history of Italy concerned with both domestic and foreign policy and their interaction Designed in chronological order the book is divided into four parts the consolidation of Italy after its unification the stresses and strains the country went through the expansion of liberalism and the onset and development of fascism This seminal book on the history of Italy will be of interest to students of history and political science      The Oxford Handbook of Italian Politics Erik

Jones, Gianfranco Pasquino, 2015 The Oxford Handbook of Italian Politics provides a comprehensive look at the political life of one of Europe's most exciting and turbulent democracies Under the hegemonic influence of Christian Democracy in the early post World War II decades Italy went through a period of rapid growth and political transformation In part this resulted in tumult and a crisis of governability however it also gave rise to innovation in the form of Eurocommunism and new forms of political accommodation The great strength of Italy lay in its constitution its great weakness lay in certain legacies of the past Organized crime popularly but not exclusively associated with the mafia is one example A self contained and well entrenched caste of political and economic elites is another These weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s This ushered in a combination of populist political mobilization and experimentation with electoral systems design and the result has been more evolutionary than transformative Italian politics today is different from what it was during the immediate post World War II period but it still shows many of the influences of the past      Routledge Library Editions: 19th Century Religion Various Authors, 2021-07-09

**Religion in the European Constitutional Landscape** Lorenzo Zucca,2012-10-11 How to accommodate diverse religious practices and laws within a secular framework is one of the most pressing and controversial problems facing contemporary European public order In this provocative contribution to the subject Lorenzo Zucca argues that traditional models of secularism focusing on the relationship of state and church are out dated and that only by embracing a new picture of what secularism means can Europe move forward in the public reconciliation of its religious diversity The book develops a new model of secularism suitable for Europe as a whole The new model of secularism is concerned with the way in which modern secular states deal with the presence of diversity in the society This new conception of secularism is more suited to the European Union whose overall aim is to promote a stable peaceful and unified economic and political space starting from a wide range of different national experiences and perspectives The new conception of secularism is also more suited for the Council of Europe at large and in particular the European Court of Human Rights which faces growing demands for the recognition of freedom of religion in European states The new model does not defend secularism as an ideological position but aims to present secularism as our common constitutional tradition as well as the basis for our common constitutional future     **Romantic Europe and the Ghost of Italy** Joseph Luzzi,2008-11-24 This groundbreaking study considers Italian Romanticism and the modern myth of Italy Ranging across European and international borders he examines the metaphors facts and fictions about Italy that were born in the Romantic age and continue to haunt the global literary imagination

*Appletons' Annual Cyclopædia and Register of Important Events ...* ,1887     *The Risorgimento and the Unification of Italy* Derek Beales,Eugenio F. Biagini,2014-06-06 This book introduces the reader to the relationship between the Italian national movement achieved by the Risorgimento and the Italian unification in 1860 These themes are discussed in detail and related to the broader European theatre Covering the literary cultural religious and political history of the period Beales and Biagini show Italy struggled towards nation state status on all fronts The new edition has been thoroughly rewritten It also contains a number of new documents In addition all the most up to date research of the last 20 years has been incorporated

The Risorgimento and the Unification of Italy remains the major text on nineteenth century Italy The long introduction and useful footnotes will be of real assistance to those interested in Italian unification      **Civilization** Orestes Augustus Brownson,1884      **The Works of Orestes A. Brownson: Civilization** Orestes Augustus Brownson,1884      The Legal Treatment of Muslim Minorities in Italy Andrea Pin,2017-05-15 Islam is a growing presence practically everywhere in Europe In Italy however Islam has met a unique model of state neutrality religious freedom and church and state collaboration This book gives a detailed description of the legal treatment of Muslims in Italy contrasting it with other European states and jurisprudence and with wider global tendencies that characterize the treatment of Islam Through focusing on a series of case studies the author argues that the relationship between church and state in Italy and more broadly in Europe should be reconsidered both to secure religious freedom and general welfare Working on the concepts of religious freedom state neutrality and relationship between church and state Andrea Pin develops a theoretical framework that combines the state level with the supranational level in the form of the European Convention of Human Rights which ultimately shapes a unitary but flexible understanding of pluralism This approach should better accommodate not just Muslims needs but religious needs in general in Italy and elsewhere      **The Christian World** ,1871      **Ordaining Women** Mark Chaves,1999 Why does a denomination prohibiting women clergy support parishes run by women Why does a denomination opt to ordain women when there are few women seeking to join that clergy And why have some denominations ordained women so much earlier than others In a revealing examination of the complex relationship among religion social forces and organizational structure Ordaining Women draws examples and data from over 100 Christian denominations to explore the meaning of institutional rules about women s ordination Combining historical and sociological perspectives Mark Chaves deftly shows that formal institutional rules about ordination often diverge from the actual roles of women and are best understood as symbolic gestures in favor of or in opposition to gender equality Ordaining Women concludes that external pressures from the women s movement and ecumenical pressure expressed through interdenominational organizations such as the National Council of Churches influence ordination practices At the same time internal factors such as having a source of religious authority that is considered superior to modern principles of equal rights also explain why some denominations ordain women much earlier than others Surprisingly the Bible forbids it does not account for policies even among fundamentalists and other biblical inerrantists Chaves historical and comparative approach offers a revealing analysis of how the internal denominational debates have changed over time becoming more frequent more politicized and more contentious The skillful delineation of forces affecting debates and policies about women s ordination makes this book an important contribution to our understanding of religious organizations and of gender equality      Mass Culture and Italian Society from Fascism to the Cold War David A. Forgacs,Stephen Gundle,2007 From the 1930s to the 50s in Italy commercial cultural products were transformed by new reproductive technologies and ways of marketing and distribution and the appetite for radio films music

and magazines boomed This book uses new evidence to explore possible continuities between the uses of mass culture before and after World War II
