## **Serbs Russian Panslavism 1875 1878:**

*The Serbs and Russian Pan-Slavism, 1875-1878* David MacKenzie, 1967      *The Serbs and Russian Pan-Slavism, 1875-1878. [With Illustrations.]* David MACKENZIE (of Wells College.), 1967      *The Serbs and Russian Pan-Slavism, 1875-1878* David MacKenzie, 1967      *Pan-Slavism and Slavophilia in Contemporary Central and Eastern Europe* Mikhail Suslov, Marek Čejka, Vladimir Đorđević, 2023-02-13 This book explores origins manifestations and functions of Pan Slavism in contemporary Central and Eastern Europe arguing that despite the extinction of Pan Slavism as an articulated Romantic era geopolitical ideology a number of related discourses metaphors and emotions have spilled over into the mainstream debates and popular imagination Using the term Slavophilia to capture the range of representations the volume analyses how geopolitical discourses shape the identity and policies of a community providing a comparative analysis that covers a range of Slavic countries in order to understand how Pan Slavism works and resonates across geographic and political contexts

*Imperial Russian Foreign Policy* Hugh Ragsdale, V. N. Ponomarev, 1993-10-29 Imperial Russian Foreign Policy aims to demythologise a field hitherto dominated by suspicions of diabolical cunning inscrutable motives and international plots using unseen forces of the gigantic fear inspiring empire of the tsar The contributors leading historians from both Russia and the West examine Imperial foreign policy from its origins to the October Revolution revealing a policy that as in other countries had a complex of motives commerce nationalism the interests of various social groups but an unusual origin coming almost exclusively from the entourage of the tsar The work is based largely on original research in Soviet archives which only became possible after Soviet glasnost      **Russia in the Age of Reaction and Reform 1801-1881** David

Saunders, 2014-07-30 This eagerly awaited study of Russia under Alexander I Nicholas I and Alexander II the Russia of War and Peace and Anna Karenina brings the series near to completion David Saunders examines Russia's failure to adapt to the era of reform and democracy ushered into the rest of Europe by the French Revolution Why despite so much effort did it fail This is a superb book both as a portrait of an age and as a piece of sustained historical analysis      *An Introduction to Russian History* Robert Auty, Dimitri Obolensky, 1976      **Russian Nationalism Since 1856** Astrid S. Tuminez, 2000 This thoughtful book describes the range of nationalist ideas that have taken root in Russia since 1856 Drawing on a wide range of archival documents and unparalleled interview material from the post Soviet period Tuminez analyzes two cases Russian panslavism in 1856 1878 and great power nationalism in 1905 1914 when aggressive nationalist ideas clearly influenced Russian foreign policy and contributed to decisions to go to war Yet not all forms of nationalism have been malevolent and the author assesses competing nationalist ideologies in the post Soviet period to clarify the conditions under which a particularly belligerent nationalism could flourish and influence Russian international behavior      *The End of Ottoman Rule in Bosnia* Hannes Grandits, 2021-12-30 This book focuses on the end of four centuries of Ottoman rule in Bosnia and Herzegovina in the 1870s After an introduction to the region and the political zeitgeist of the late 1860s and early 1870s it

examines in detail the dramatic years beginning in the summer of 1875 when the outbreak of violent unrest in the eastern Herzegovinian region bordering Montenegro led to a massive refugee catastrophe. The study traces the surprising further political and social dynamics to the summer and fall of 1878 when a Habsburg army finally invaded the Bosnian Vilayet and took control of the province but only after months of fighting against massive local resistance throughout the province. This book cannot be viewed in isolation from larger political dynamics which are also constantly present in this study as they unfolded. However, as this book attempts to show, it is hardly possible to understand the often contradictory effects of these larger political dynamics without delving deeper into the complex local rationalities and constraints on the action of the actors involved in them. **The End of Ottoman Rule in Bosnia** will appeal to students, teachers, and researchers in late Ottoman and Bosnian history. **A History Of Russia Volume 2** Walter G. Moss, 2004-10-01. Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects. He has also brought the history up to date by revising the post-Soviet material which now covers events from the end of 1991 up to the present day. This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US, Canada, and around the world. **Taming Balkan Nationalism** Robin Okey, 2007-09-27. The first full-length history in English of the clash between the Habsburg occupiers of Bosnia, Herzegovina, and their Serb, Croat, and Muslim subjects from 1878 to the fateful assassination of Archduke Franz Ferdinand in 1914.

*Foundations of Modernity* Isa Blumi, 2017-06-16. Investigating how a number of modern empires transform over the long 19th century, 1789-1914, as a consequence of their struggle for ascendancy in the Eastern Mediterranean and Middle East. *Foundations of Modernity: Human Agency and the Imperial State* moves the study of the modern empire towards a comparative trans-regional analysis of events along the Ottoman frontiers, Western Balkans, the Persian Gulf, and Yemen. This interdisciplinary approach of studying events at different ends of the Ottoman Empire challenges previous emphasis on Europe as the only source of change and highlights the progression of modern imperial states. The book introduces an entirely new analytical approach to the study of modern state power and the social consequences to the interaction between long-ignored historical agents like pirates, smugglers, refugees, and the rural poor. In this respect, the roots of the most fundamental institutions and bureaucratic practices associated with the modern state prove to be the by-products of certain kinds of productive exchange long categorized in negative terms in post-colonial and mainstream scholarship. Such a challenge to conventional methods of historical and social scientific analysis is reinforced by the novel use of the work of Louis Althusser, Talal Asad, William Connolly, and Frederick Cooper, whose challenges to scholarly conventions will prove helpful in changing how we understand the origins of our modern world and thus talk about Modernity. This book offers a methodological and historiographic intervention meant to challenge conventional studies of the modern era. "Fear God and Walk Humbly" James Mallory, 1997-03-30. Mallory's journal spans three major periods of the South's history: the boom

years before the Civil War the rise and collapse of the Confederacy and the period of Reconstruction after the Civil War Mallory's interests were varied and wide ranging but weather and agriculture dominate his journal for agriculture was his passion A member of the Alabama Agricultural Society he encouraged efforts to improve His journal describes the vicissitudes of raising and marketing various crops and animals Concerns with cotton corn wheat other grains livestock orchards unusual farming methods fertilizers and experiments all receive comment *Encyclopedia of the Age of Imperialism, 1800-1914* Carl C. Hodge, 2007-11-30 In 1800 Europeans governed about one third of the world's land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism *Nationalism and Territory* George W. White, 2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation's identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war *The Cambridge History of Russia: Volume 2, Imperial Russia, 1689-1917* Maureen Perrie, D.
