Serf Seigneur And Sovereign Agrarian Reform In Eighteenth Century Bohemia:

Serf, Seigneur, and Sovereign William E. Wright, 1966-12-30 *Serf Seigneur and Sovereign* was first published in 1966 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This is a detailed history of the agrarian reforms which took place in Bohemia during the reigns of the Habsburg rulers Maria Theresa 1740 1780 and Joseph II 1780 1790 The enactment of the land reforms had far reaching social economic and political effects and the subject constitutes an important chapter in the history of the nation we now know as Czechoslovakia The topic has been hardly touched in English however and has only recently been properly treated by the Marxist historians of post World War II Czechoslovakia Much of Professor Wright's account is based on documents not previously used by historians particularly materials in the Hofkammerarchiv in Vienna The author provides a background by describing the development of serfdom in Bohemia over approximately two hundred years prior to the accession of Maria Theresa to the throne of Austria in 1740 In major sections of the book Professor Wright traces the causes events and effects of the program of agrarian reform which Maria Theresa and Joseph II carried out He shows how the changes in the land system profoundly affected the relationships of the serf seigneur and sovereign and how they paved the way for the much greater social revolution which was to come with the emancipation of 1848 In addition to providing a wealth of factual information the account gives a dramatic picture of the plight of the peasant along with valid glimpses of the personalities of the rulers and their ministers Specialists in European history social history or agrarian history will find the book particularly rewarding *Serf, Seigneur and Sovereign* William Edward Wright, 1966

Serf, Seigneur, and Sovereign; Agrarian Reform in Eighteenth-Century Bohemia, by William E. Wright William F. Wright, 1966 *Eastern Europe 1740-1985* Robin Okey, 2003-09-02 A fascinating book readable and illuminating Times Literary Supplement Creating A World Economy Alan K. Smith, 2019-04-02 This is an exploration in world history that examines complex and intriguing questions concerning the origins of the first truly global economy centered in Europe which served in turn as a solid basis for the later emergence of the modern world system Professor Smith first examines the remarkable progress achieved by many cultures around the world achievements that for some time far exceeded anything then found in Europe The study then probes beyond traditionalism as a sufficient explanation of the inability of these societies to maintain the economic momentum that had begun so auspiciously and carefully examines the experience of European societies by way of comparison finding that remarkably similar processes tended to unfold at first regions of Europe that made the earliest gains in material progress were like other parts of the world unable to sustain these advances Still in some parts of Europe particularly the Netherlands and England a new alignment of social forces was yielding the social system that would eventually evolve into capitalism This breakthrough allowed for continued dynamic material progress particularly for the English Able to establish an unprecedented commercial dominance in vast reaches of the world

the British found themselves at the hub of a new world economy much more complex than any earlier intercultural commercial system The book delineates the systemic roles assumed by the various regions of the world and by European merchant capital and explains the tensions within this system that ensured its continued dynamism and eventual transformation into the current world economic system Creating a World Economy combines an epic sweep with a mastery of historical detail and is sure to stimulate discussion among sociologists and historians interested in questions of a global nature

The Sinews of Habsburg Power William D. Godsey, 2018 The Sinews of Habsburg Power explores the domestic foundations of the immense growth of central European Habsburg power from the rise of a permanent standing army after the Thirty Years War to the end of the Napoleonic wars With a force that grew irregularly in size from around 25 000 soldiers to as many as half a million in the War of the Sixth Coalition the Habsburg monarchy participated in shifting international constellations of rivalry from western Europe to the Near East and in some two dozen partly overlapping armed conflicts Raising forces of such magnitude constituted a central task of Habsburg government one that ultimately required the cooperation of society and its elites The monarchy's composite territorial structures in the guise of the Lower Austrian Estates a leading representative body and privileged corps formed a vital if changing element underlying Habsburg international success and resilience With its capital at Vienna the archduchy below the river Enns the historic designation of Lower Austria was geographically politically and financially a key Habsburg possession Fiscal military exigency induced the Estates to take part in new and evolving arrangements of power that served the purposes of government in turn the Estates were able in previously little understood ways and within narrowing boundaries to preserve vital interests in a changing world The Estates survived because they were necessary not only thanks to their increasing financial potency but also because they offered a politically viable way of exacting ever larger quantities of money men and other resources from local society These circumstances would persist as ruling became more regularized formalized and homogenized and as the very understanding of the Estates as a social and political phenomenon was evolving

Agricultural Enlightenment Peter M. Jones, 2016-01-07 Agricultural Enlightenment explores the modernization of the rural economy in Europe through the lens of the Enlightenment It focuses on the second half of the eighteenth century and emphasises the role of useful knowledge in the process of agrarian change and agricultural development As such it invites economic historians to respond to the challenge issued by Joel Mokyr to look beyond quantitative data and to take seriously the argument that cultural factors broadly understood may have aided or hindered the evolution of agriculture in the early modern period what people knew and believed had a direct bearing on their economic behaviour Mokyr The Enlightened Economy Evidence in support of the idea that a readily accessible supply of agricultural knowledge helps to explain the trajectory of the rural economy is drawn from all of the countries of Europe The book includes two cases studies of rapid rural modernization in Scotland and Denmark where Agricultural Enlightenment was swiftly followed by full scale

Agricultural Revolution *Passages from Antiquity to Feudalism* Perry Anderson, 1996 The rise of the modern absolutist monarchies in Europe constitutes in many ways the birth of the modern historical epoch *Passages from Antiquity to Feudalism* the companion volume to Perry Anderson's highly acclaimed and influential *Lineages of the Absolutist State* is a sustained exercise in historical sociology to root the development of absolutism in the diverse routes taken from the slave based societies of Ancient Greece and Rome to fully fledged feudalism In the course of this study Anderson vindicates and refines the explanatory power of a Marxist conception of history whilst casting a fascinating light on Greece Rome the Germanic invasion nomadic society and the different patterns of the evolution of feudalism in Northern Mediterranean Eastern and Western Europe **German History, 1770-1866** James J. Sheehan, 1989 Now available in paperback this is a uniquely authoritative study of Germany from the mid eighteenth century to the formation of the Bismarckian Reich James J Sheehan gives an extensive account of social and cultural as well as political developments and shows that the creation of a Prussian led nation state should not be seen as natural or inevitable He shows how German history in this period was shaped by three separable yet closely linked developments the rise of sovereign territorial states the expansion of economic activity and social mobility and the emergence of a literary culture **Kaunitz and Enlightened Absolutism 1753-1780** Franz A. J. Szabo, 1994-03-31 Author of the diplomatic revolution of 1756 and brilliant foreign minister of the Austrian Empire Wenzel Anton Kaunitz State Chancellor of the Habsburg Monarchy 1753-1792 emerges from this study as the key figure in the development of enlightened absolutism and the guiding spirit behind the modernization of the state **A History of Habsburg Jews, 1670-1918** William O. McCagg, 1992-09-22 William McCagg has done a great service for scholarship and for Habsburg scholarship in particular through his book *Scholars are in his debt History of European Ideas* strongly recommended to those interested in either Jewish or Habsburg history *American Historical Review* McCagg tells a fascinating story with expert knowledge with the sure eye and sound judgment of the experienced historian *Midstream* exceptionally fine research and the time frame of the study which make it quite remarkable and original *German Politics Society* William McCagg brings out the extent to which Jews were divided not only as Jews but also as citizens of Austro Hungary McCagg writes perceptively of Kafka's predicament as a German speaking Jew in Prague living through the Czech nationalist revival *New York Review of Books* Drawing on a wide variety of European sources McCagg has produced the first history of this important but often forgotten community to be written since the nineteenth century **Joseph II** Walter W. Davis, 2012-12-06 It has been said that never has a monarch so narrowly missed greatness as did the Holy Roman Emperor Joseph II An idealistic sincere and hardworking monarch whose utilitarian bent humanitarian instincts and ambitious programs of reform in every area of public concern have prompted historians to term him an enlightened despot revolutionary Emperor philosopher on a throne and a ruler ahead of his time Joseph has also been condemned for being insensitive to the phobias and follies of his subjects essentially unrealistic almost utopian in establishing his goals and

dogmatic and overly precipitous in trying to achieve them Efforts to analyze and explain the actions of this complex and controversial personality have involved a number of savants in investigations of Josephinism or as I prefer to call it Josephism dealing in great detail with the motivations substance and influence of his innovations The roots of Josephism run deep but can be observed emerging here and there from the intellectual and political soil that nourished them before joining the central trunk of the system formulated during the latter years of Maria Theresa's reign to grow to an ephemeral and stunted maturity under Joseph II

Eastern Europe Richard Frucht, 2004-12-22 A contemporary analysis of the people cultures and society within the regions that make up Eastern Europe Eastern Europe An Introduction to the People Lands and Culture sheds light on modern day life in the 16 nations comprising Eastern Europe Going beyond the history and politics already well documented in other works this unique three volume series explores the social and cultural aspects of a region often ignored in books and curricula on Western civilization The volumes are organized by geographic proximity and commonality in historical development allowing the countries to be both studied individually and juxtaposed against others in the region The first volume covers the northern tier of states the second looks at lands that were once part of the Hapsburg empire and the third examines the Balkan states Each chapter profiles a single country its geography history political development economy and culture and gives readers a glimpse of the challenges that lie ahead Vignettes on various topics of interest illuminate the unique character of each country

The Making of Modern Europe, 1648-1780 Geoffrey Treasure, 2003-12-16 This reissue of a classic textbook has been revised and updated with a new introduction by the author Geoffrey Treasure provides a thoroughly comprehensive account of the European experience at a time when so much of what is today identified as modern began to take shape Discussing key issues of the period The Making of Modern Europe 1647 1980 examines the evolution of the developing society detailed studies of the people their environment attitudes and beliefs economic aspects the growth of the states politics war and diplomacy religion intellectualism and science This work provides an excellent grounding for the study of seventeenth and eighteenth century European history

Encyclopedia of Emancipation and Abolition in the Transatlantic World Junius P. Rodriguez, 2015-03-26 The struggle to abolish slavery is one of the grandest quests and central themes of modern history These movements for freedom have taken many forms from individual escapes violent rebellions and official proclamations to mass organizations decisive social actions and major wars Every emancipation movement whether in Europe Africa or the Americas has profoundly transformed the country and society in which it existed This unique A Z encyclopedia examines every effort to end slavery in the United States and the transatlantic world It focuses on massive broad based movements as well as specific incidents events and developments and pulls together in one place information previously available only in a wide variety of sources While it centers on the United States the set also includes authoritative accounts of emancipation and abolition in Europe Africa the Caribbean and Latin America The Encyclopedia of Emancipation and Abolition provides definitive coverage of one of the most significant

experiences in human history It features primary source documents maps illustrations cross references a comprehensive chronology and bibliography and specialized indexes in each volume and covers a wide range of individuals and the major themes and ideas that motivated them to confront and abolish slavery *Natural Resources in European History* William N. Parker,Antoni Maczak,2021-04-14 *Natural Resources in European History* pulls together several papers from the Bellagio Conference on Natural Resources and Economic Development which took place in 1977 Originally published in 1978 this report focuses on papers exploring the history of natural resources in Continental Europe presenting research on how resources were traded collected and depleted between the fifteenth and nineteenth century This title will be of interest to students of Environmental Studies or with an interest in Environmental History *Democratic Crisis and Global Constitutional Law* Christopher Thornhill,2021-01-28 Explains the current weakness of democratic polities by addressing paradoxes in constitutional democracy and its theoretical foundations *Germany under the Old Regime 1600-1790* John G. Gagliardo,2014-01-21 German history in the seventeenth and eighteenth centuries is notoriously inaccessible to non specialists When other European countries were well on the way to becoming nation states Germany remained frozen as a territorially fragmented politically and religiously divided society The achievement of this major contribution to the new History of Germany is to do justice to the variety and multiplicity of the period without foundering under the wealth of information it conveys **Revolution and the Rebirth of Inequality** Jonathan Kelley,Herbert S. Klein,2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981
