Sericulture The Proper Employment Of Women In 19th Century China:

Sericulture Grace Wright, 2006-01-01 Through their labor in the production of silk women had an important place in the economy of China The government encouraged this as a legitimate female occupation from the Shang dynasty into the 19th century It gave women a position in society outside of the family structure wherein they could support themselves

Making and Growing Elizabeth Hallam, Tim Ingold, 2016-05-13 Making and Growing brings together the latest work in the fields of anthropology and material culture studies to explore the differences and the relation between making things and growing things and between things that are made and things that grow Though the former are often regarded as artefacts and the latter as organisms the book calls this distinction into question examining the implications for our understanding of materials design and creativity Grounding their arguments in case studies from different regions and historical periods the contributors to this volume show how making and growing give rise to co produced and mutually modifying organisms and artefacts including human persons They attend to the properties of materials and to the forms of knowledge and sensory experience involved in these processes and explore the dynamics of making and undoing growing and decomposition The book will be of broad interest to scholars in the fields of anthropology archaeology material culture studies history and sociology

Threads of globalization Melia Belli Bose, 2024-02-06 Threads of globalization is an interdisciplinary volume that brings fashion specific garments motifs materials and methods of production into dialogue with gender and identity in various cultures throughout Asia during the long twentieth century It examines how the shift from artisanal production to fast fashion over the past 150 years has devalued women s textile labour and how skilled textile garment makers and the organizations that support them are preserving and reviving heritage traditions It also offers examples of how socially engaged artists in Asia and the diaspora use their work to criticize labour and environmental abuses in the global fashion industry

The Oxford Handbook of Agricultural History Jeannie M. Whayne, 2024 Agricultural history has enjoyed a rebirth in recent years in part because the agricultural enterprise promotes economic and cultural connections in an era that has become ever more globally focused but also because of agriculture s potential to lead to conflicts over precious resources The Oxford Handbook of Agricultural History reflects this rebirth and examines the wide reaching implications of agricultural issues featuring essays that touch on the green revolution the development of the Atlantic slave plantation the agricultural impact of the American Civil War the rise of scientific and corporate agriculture and modern exploitation of agricultural labor

A Fashionable Century Rachel Silberstein, 2020-06-30 Honorable Mention for the 2023 Bei Shan Tang Monograph Prize sponsored by the Association for Asian Studies An innovative look at late Qing cultural and fashion history Clothing and accessories from nineteenth century China reveal much about women s participation in the commercialization of textile handicrafts and the flourishing of urban popular culture Focusing on women s work and fashion A Fashionable Century presents an array of visually compelling clothing and accessories neglected by traditional histories of Chinese dress

examining these products potential to illuminate issues of gender and identity In the late Qing the expansion of production systems and market economies transformed the Chinese fashion system widening access to fashionable techniques materials and imagery Challenging the conventional production model in which women embroidered items at home Silberstein sets fashion within a process of commercialization that created networks of urban guilds commercial workshops and subcontracted female workers These networks gave rise to new trends influenced by performance and prints and they offered women opportunities to participate in fashion and contribute to local economies and cultures Rachel Silberstein draws on vernacular and commercial sources rather than on the official and imperial texts prevalent in Chinese dress history to demonstrate that in these fascinating objects regulated by market desires rather than imperial edict fashion formed at the intersection of commerce and culture A Fashionable Century is the winner of the Costume Society of America's Millia Davenport Publication Award and was long listed for the Textile Society of America's R L Shep Award The judges described the book as an extraordinary achievement in scholarship working with source materials that are little known outside of China and not otherwise available in English

Women in Asia Barbara N. Ramusack, Sharon L. Sievers, 1999-06-22 Barbara N Ramusack writes on South and Southeast Asia surveying both the prescriptive roles and the lived experiences of women as well as the construction of gender from early states to the 1990s Although both regions are home to Hindu Buddhist and Muslim religious traditions and had extended trade relations they reveal striking differences in the status and roles of women and the processes of cultural adaptation Sharon Sievers presents an overview of women's participation in the histories of China Japan and Korea from prehistory to the modern period that provides a framework for incorporating women into world history classrooms It offers analyses on major issues derived from recent research and discusses such stereotypical cultural practices as footbinding long seen as exotic in the West in the context of women's lives Book jacket

The Visual Culture of Meiji Japan Ayelet Zohar, Alison J. Miller, 2021-11-29 This volume examines the visual culture of Japan's transition to modernity from 1868 to the first decades of the twentieth century Through this important moment in Japanese history contributors reflect on Japan's transcultural artistic imagination vis a vis the discernment negotiation assimilation and assemblage of diverse aesthetic concepts and visual pursuits The collected chapters show how new cultural notions were partially modified and integrated to become the artistic methods of modern Japan based on the hybridization of major ideologies visualities technologies productions formulations and modes of representation The book presents case studies of creative transformation demonstrating how new concepts and methods were perceived and altered to match views and theories prevalent in Meiji Japan and by what means different practitioners negotiated between their existing skills and the knowledge generated from incoming ideas to create innovative modes of practice and representation that reflected the specificity of modern Japanese artistic circumstances The book will be of interest to scholars working in art history Japanese studies Asian studies and Japanese history as well as those who use approaches and methods related to globalization cross

The Great Divergence Kenneth

Pomeranz, 2021-04-13 A landmark comparative history of Europe and China that examines why the Industrial Revolution emerged in the West The Great Divergence sheds light on one of the great questions of history Why did sustained industrial growth begin in Northwest Europe Historian Kenneth Pomeranz shows that as recently as 1750 life expectancy consumption and product and factor markets were comparable in Europe and East Asia Moreover key regions in China and Japan were no worse off ecologically than those in Western Europe with each region facing corresponding shortages of land intensive products Pomeranz's comparative lens reveals the two critical factors resulting in Europe's nineteenth century divergence the fortunate location of coal and access to trade with the New World As East Asia's economy stagnated Europe narrowly escaped the same fate largely due to favorable resource stocks from underground and overseas This Princeton Classics edition includes a preface from the author and makes a powerful historical work available to new readers **Sediments of**

Time Mark Elvin, Cuirong Liu, 1998-01-13 This collection of essays is the first relatively comprehensive survey of the environmental history of China **Rethinking the Decline of China's Qing Dynasty** Daniel McMahon, 2014-08-21 The many instances of regional insurgency and unrest that erupted on China's borderlands at the turn of the nineteenth century are often regarded by scholars as evidence of government disability and the incipient decline of the imperial Qing dynasty This book based on extensive original research argues that on the contrary the response of the imperial government went well beyond pacification and reconstruction and demonstrates that the imperial political culture was dynamic innovative and capable of confronting contemporary challenges The author highlights in particular the Jiaqing Reforms of 1799 which enabled national reformist ideology activist oriented administrative education the development of specialised frontier officials comprehensive borderland rehabilitation and the sharing of borderland administration best practice between different regions Overall the book shows that the Qing regime had sustained vigour albeit in difficult and changing circumstances

Agriculture Christopher Isett, Stephen Miller, 2016-11-09 This innovative text provides a compelling narrative world history through the lens of food and farmers Tracing the history of agriculture from earliest times to the present Christopher Isett and Stephen Miller argue that people rather than markets have been the primary agents of agricultural change Exploring the actions taken by individuals and groups over time and analyzing their activities in the wider contexts of markets states wars the environment population increase and similar factors the authors emphasize how larger social and political forces inform decisions and lead to different technological outcomes Both farmers and elites responded in ways that impeded economic development Farmers when able to trade with towns used the revenue to gain more land and security Elites used commercial opportunities to accumulate military power and slaves The book explores these tendencies through rich case studies of ancient China precolonial South America early modern France England and Japan New World slavery colonial Taiwan socialist Cuba and many other periods and places Readers will understand how the promises and problems of contemporary agriculture are not simply technologically derived but are the outcomes of decisions and choices people have made and continue to make

Mabiki Fabian Drixler, 2013-05-29 This book tells the story of a society reversing deeply held worldviews and revolutionizing its demography In parts of eighteenth century Japan couples raised only two or three children As villages shrank and domain headcounts dwindled posters of child murdering she devils began to appear and governments offered to pay their subjects to have more children In these pages the long conflict over the meaning of infanticide comes to life once again Those who killed babies saw themselves as responsible parents to their chosen children Those who opposed infanticide redrew the boundaries of humanity so as to encompass newborn infants and exclude those who would not raise them In Eastern Japan the focus of this book population growth resumed in the nineteenth century According to its village registers more and more parents reared all their children Others persisted in the old ways leaving traces of hundreds of thousands of infanticides in the statistics of the modern Japanese state Nonetheless by 1925 total fertility rates approached six children per woman in the very lands where raising four had once been considered profligate This reverse fertility transition suggests that the demographic history of the world is more interesting than paradigms of unidirectional change would have us believe and that the future of fertility and population growth may yet hold many surprises
