Henry Brooke

Seriously A Novel:

Benignity, or the Ways of happiness. A serious novel, selected, with additional conversations, from the works of H. Brooke ... By a Lady Henry Brooke, 1818 **The Russian Revolutionary Novel** Richard Freeborn, 1985-02-28

Professor Freeborn's book is an attempt to identify and define the evolution of a particular kind of novel in Russian and Soviet literature the revolutionary novel This genre is a uniquely Russian phenomenon and one that is of central importance in Russian literature The study begins with a consideration of Turgenev's masterpiece *Fathers and Children* and traces the evolution of the revolutionary novel through to its most important development a century later in Pasternak's *Doctor Zhivago* and the emergence of a dissident literature in the Soviet Union Professor Freeborn examines the particular phases of the genre's development and in particular the development after 1917 the early fiction which explored the relationship between revolution and instinct such as Pilnyak's *The Naked Year* the first attempts at mythmaking in Leonov's *The Badgers* and Furmanov's *Chapayev* the next phase in which novelists turned to the investigation of ideas exemplified most notably by Zamyatin's *We* the resumption of the classical approach in such works as Olesha's *Envy* which explore the interaction between the individual and society and finally the appearance of the revolutionary epic in Gorky's *The Life of Klim Samgin* Sholokhov's *Quiet Flows the Don* and Alexey Tolstoy's *The Road to Calvary* Professor Freeborn also examines the way this kind of novel has undergone change in response to revolutionary change and he shows how an important feature of this process has been the implicit assumption that the revolutionary novel is distinguished by its right to pass an objective independent judgement on revolution and the revolutionary image of man This is a comprehensive and challenging study of a uniquely Russian tradition of writing which draws on a great range of novels many of them little known in the West As with other titles in this series all quotations have been translated **The Social Lives of Books** Edward Frederick Finn, 2011

This project explores how changing models of literary production are blurring or erasing the divisions between authors critics and readers Millions of cultural consumers are participating in previously closed literary conversations and expressing forms of mass distinction through their purchases and reviews of books These traces of popular reading choices constitute a fresh perspective on elusive audience reactions to literature and reveal evolving networks of conversation Employing network analysis methodologies and distant reading of book reviews recommendations and other digital traces of cultural distinction I develop a new model for literary culture in America today Through readings of the fiction and reception of Thomas Pynchon Toni Morrison David Foster Wallace and Junot Diaz this model outlines the fundamental requirements for contemporary literary fame My introduction outlines methodological tools I developed and situates them in the critical traditions of literary reception cultural sociology and media theory before describing the digital ecologies that have emerged around literature online and their value Chapter 1 explores the nature of literary fame through a case study of Thomas Pynchon whose carefully guarded anonymity and ironic distance from capitalism are reflected in the networks his readers

construct around his long challenging books In stark contrast Toni Morrison the subject of Chapter 2 has succeeded critically and commercially tirelessly seeking out readers to form literary communities around her writing most prominently through her collaboration with Oprah's Book Club Chapter 3 considers David Foster Wallace and Junot Diaz and sets out a model for contemporary literary culture a reading society that demands new forms of authorial reflexivity to mirror the collaborative iterative nature of digital literary conversations I conclude with a brief consideration of the exciting prospects and challenges for fiction in a world that reads more than ever but is growing disaffected with the material realities of literary production

The Anatomy of the Novel (Routledge Revivals) Marjorie Boulton, 2014-05-01 First published in 1975 this title provides an introduction to the study of the novel Marjorie Boulton deals systematically with the major elements of plot character authorial conventions narrative structure and dialogue and distinguishes different types of fiction The emphasis is on the mainstream novel with examples and arguments illustrated by quotations from five classics Of particular value to students of English Literature this reissue aims to help the reader not only to read novels more discerningly and to discuss them more profitably but also to relish the reading more Terrorism in the Late Victorian Novel Barbara Arnett Melchiori, 2016-07-28

First published in 1985 this book looks at the ways in which the spate of terrorist activity in the 1880s was reflected in the novels of the time Oscar Wilde George Gissing Henry James and George Bernard Shaw among others gave the terrorist venture a position in one or more of their novels This book examines what these novelists made of terrorism and the way they presented it to their readers Not all of these novels are high literature or take a committed line on the outrages they describe nevertheless they accept the assumption that terrorism and social protest were synonymous This book aims to explain how such a view could be held in the context of Victorian society The Cooperstown Symposium on Baseball and American Culture, 1997 (Jackie Robinson) Peter M. Rutkoff, 2000-05-15 This is an anthology of 14 papers that were presented at the

Ninth Cooperstown Symposium on Baseball and American Culture held in June 1997 and co sponsored by the State University of New York at Oneonta and the National Baseball Hall of Fame and Museum To mark the 50th anniversary of Jackie Robinson's breaking the color barrier in major league baseball the 1997 Symposium was dedicated to Robinson These papers focus on Robinson baseball and race relations and are divided into three parts Before Robinson Robinson and Social Change and The Legacy of Robinson The preface is by series editor Alvin L Hall and an introduction is provided by the editor of the volume Peter M Rutkoff **J.M. Coetzee and the Novel** Patrick Hayes, 2010-08-12 This book argues that the

significance of Coetzee's complex and finely nuanced fiction lies in the acuity with which it both explores and develops the tradition of the novel ranging from Cervantes Defoe and Richardson to Dostoevsky Kafka and Beckett as part of a sustained attempt to rethink the relationship between writing and politics *The Cambridge Companion to British Fiction: 1980-2018*

Peter Boxall, 2019-06-27 From 1980 to the present huge transformations have occurred in every area of British cultural life. The election of Margaret Thatcher in 1979 ushered in a new neoliberal era in politics and economics that dramatically reshaped the British landscape. Alongside this political shift we have seen transformations to the public sphere caused by the arrival of the internet and of social media and changes in the global balance of power brought about by 9/11, the emergence of China and India as superpowers and latterly the British vote to leave the European Union. British fiction of the period is intimately interwoven with these historical shifts. This collection brings together some of the most penetrating critics of the contemporary to explore the role that the British novel has had in shaping the cultural landscape of our time at a moment in the wake of the EU referendum of 2016 when the question of what it means to be British has become newly urgent. **The Historical Novel in Nineteenth-Century Europe**

Brian Hammett, 2011-11-24 Even at the height of its popularity in the early nineteenth century the historical novel faced criticism at many levels. After its predominance in the 1810s and 1820s writers and historians shunned it as a travesty of their respective disciplines. Even so the historical novel has frequently attracted a wide ranging public right up to the present day. Brian Hammett examines key novels by authors including Scott, Balzac, Manzoni, Dickens, Eliot, Flaubert, Fontane, Gald s and Tolstoy revealing the contradictions inherent in this form of fiction and exposing the challenges writers faced in attempting to represent a reality that linked past and present. He argues that the historical novel in the nineteenth century was a common European phenomenon with considerable interconnection of themes and periods. Accordingly the book ranges from the British Isles and France through the Germanic territories, Italy and Spain to the Russian Empire identifying the different objectives and phases of the historical novel. Although historical novels did appear in the two previous centuries the form came to maturity in the nineteenth century a consequence of the developing nature of history as a discipline distinct from literature and philosophy and the increasing primacy of the novel for writers and the reading public. Yet the frontiers between history and literature remained blurred and the two disciplines continued to influence one another as each sought a faithful representation of human experience. [The Seven Deadly Sins in the Work of Dorothy L. Sayers](#)

Janice Brown, 1998 An examination of the work of Dorothy L. Sayers beginning with her early poetry and moving through her fiction to her dramas, essays and lectures. It illustrates how Sayers used popular genres to teach about sin and redemption and how she redefined the seven deadly sins for the 20th century. **Mordecai Richler**

Ada Craniford, 2005 Richler Revealed Wickedly amusing and deceptively familiar. Mordecai Richler has been praised, reviled and many times misunderstood. Intrigued by Richler's defiant denial that his personal history plays any part in his fiction we unveil the life altering events he semi discloses. Amazed at his brazen plundering of past and present literary works we watch as he reworks the stories and poems of other writers for purposes of his own. Carefully researched and entertainingly presented these revelations will forever alter the way you read Richler's novels and think about his life. *The Life of the Author: Graham Greene*

Handbook of the American Novel of the Twentieth and Twenty-First Centuries Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James's *The Ambassadors* to McCarthy's *The Road* These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon-free language accessible to readers on all levels of qualification Bestsellers (Routledge Revivals) John Sutherland, 2010-10-04 First published in 1981 this book offers a study of British and American popular fiction in the 1970s a decade in which the quest for the superseller came to dominate the lives of publishers on both sides of the Atlantic Illustrated
