*Sermons for the New Life, 7th Edition* Horace Bushnell, 2015-06-10 Horace Bushnell was an American Congregational minister and theologian As a preacher Dr Bushnell was very effective Though not a dramatic orator he was original thoughtful and impressive in the pulpit His theological position may be said to have been one of qualified revolt against the Calvinistic orthodoxy of his day He criticized prevailing conceptions of the Trinity the atonement conversion and the relations of the natural and the supernatural Above all he broke with the prevalent view which regarded theology as essentially intellectual in its appeal and demonstrable by processes of exact logical deduction To his thinking its proper basis is to be found in the feelings and intuitions of humankind s spiritual nature He had a marked influence upon theology in America an influence not so much possibly in the direction of the modification of specific doctrines as in the impulse and tendency and general spirit which he imparted to theological thought Dr Munger s estimate was that He was a theologian as Copernicus was an astronomer he changed the point of view and thus not only changed everything but pointed the way toward unity in theological thought He was not exact but he put God and humanity and the world into a relation that thought can accept while it goes on to state it more fully with ever growing knowledge Other thinkers were moving in the same direction he led the movement in New England and wrought out a great deliverance It was a work of extraordinary courage Hardly a

theologian in his denomination stood by him and nearly all pronounced against him
