Servant Of The Country:

The Domestic Servant in Eighteenth-Century England J. Jean Hecht, 2024-11-01 Although the importance of domestic servants in eighteenth century England has long been recognized *The Domestic Servant in Eighteenth Century England* first published in 1956 reviving the 1980 edition here is the first attempt to investigate comprehensively what was the largest occupational group at that time A wide variety of source material has been used the diaries memoirs letters magazines newspapers and literary works as well as pamphlets and treatises on social and economic problems of the day A wealth of data has also been drawn from contemporary works on service servants and household management The study is thus able to reconstruct the principal lineaments of the servant class and to demonstrate the significance of the group in relation to the society of which it formed a part Such aspects of the group as its composition size and structure the means by which it was recruited the hopes and ambitions of its members the nature of their social status and the conditions under which they lived and laboured are all fully treated The result of this thorough examination is a cogent work of sociological history **Convict**

Carchemish in Context
Edgar Peltenburg, T. J. Wilkinson, Eleanor Barbanes Wilkinson, 2016-05-31 The city of Carchemish in the valley of the Euphrates river can be regarded as one of the iconic sites in the Middle East a mound complex known both for its own intrinsic qualities as the seat of later Hittite power and Neo Hittite kings but also because its history of excavations included well known historical figures such as Leonard Woolley and T E Lawrence However because of its location within the military zone of the Turkish Syrian border the site itself has been inaccessible to archaeologists for more than 90 years *Carchemish in Context* summarises the results of regional investigations conducted within the Land of Carchemish Project in Syria as well as other archaeological surveys in the region in order to provide a regional historical and archaeological context for the development of the city A synthesis of the history of Carchemish is presented and a regional overview of the Land of Carchemish as it is defined by archaeological features and key historical references through to the early Iron Age Insightful snapshots of the dynamics of an ancient state are revealed which can now be seen to have fluctuated dramatically in size throughout 700 800 years in part depending upon the power of the king of Carchemish or the aggressions of external powers The results from the Project provide an overview of the main trends of settlement in the region over 8000 years using a combination of survey databases to both north and south of the Syrian Turkish border and with a focus on the earlier phases of settlement from the Neolithic until the end of the Bronze Age when Carchemish became an outpost of the Hittite empire The Iron Age is a period blessed by numerous historical records some of which can be traced in the modern landscape Further chapters explore site specific aspects of the regional archaeology including a series of important sites on the Sajur river some of which were positioned along the main campaign routes of the Assyrian kings The close relationship between the nearby Early Bronze Age site of Tell Jerablus Tahtani and Carchemish are examined and the results from the 40 ha Carchemish Outer Town survey described providing important new data sources regarding the layout defenses and dates of occupation of this significant part of the city The Classical Roman Byzantine and Early Islamic occupations are also discussed
