The Irish Way James R. Barrett, 2012-03-01
 A lively street level history of turn of the century urban life explores the Americanizing influence of the Irish on successive waves of migrants to the American city In the newest volume in the award winning Penguin History of American Life series James R Barrett chronicles how a new urban American identity was forged in the streets saloons churches and workplaces of the American city This process of Americanization from the bottom up was deeply shaped by the Irish From Lower Manhattan to the South Side of Chicago to Boston s North End newer waves of immigrants and African Americans found it nearly impossible to avoid the Irish While historians have emphasized the role of settlement houses and other mainstream institutions in Americanizing immigrants Barrett makes the original case that the culture absorbed by newcomers upon reaching American shores had a distinctly Hibernian cast By 1900 there were more people of Irish descent in New York City than in Dublin more in the United States than in all of Ireland But in the late nineteenth century the sources of immigration began to shift to southern and eastern Europe and beyond Whether these newcomers wanted to save their souls get a drink find a job or just take a stroll in the neighborhood they had to deal with entrenched Irish Americans Barrett reveals how the Irish vacillated between a progressive and idealistic impulse toward their fellow immigrants and a parochial defensiveness stemming from the hostility earlier generations had faced upon their own arrival in America They imparted racist attitudes toward African Americans they established ethnic deadlines across city neighborhoods they drove other immigrants from docks factories and labor unions Yet the social teachings of the Catholic Church a sense of solidarity with the oppressed and dark memories of poverty and violence in both Ireland and America ushered in a wave of progressive political activism that eventually embraced other immigrants Drawing on contemporary sociological studies and diaries newspaper accounts and Irish American literature *The Irish Way* illustrates how the interactions between the Irish and later immigrants on the streets on the vaudeville stage in Catholic churches and in workplaces helped forge a multiethnic American identity that has a profound legacy in our cities today

Chicago's Great World's Fairs John E. Findling, 1994 **Gambling in America**
 United States. Commission on the Review of the National Policy Toward Gambling, 1976 *The Pekin* Thomas Bauman, 2014-05-30
 In 1904 political operator and gambling boss Robert T Motts opened the Pekin Theater in Chicago Dubbed the Temple of Music the Pekin became one of the country s most prestigious African American cultural institutions renowned for its all black stock company and school for actors an orchestra able to play ragtime and opera with equal

brilliance and a repertoire of original musical comedies A missing chapter in African American theatrical history Bauman's saga presents how Motts used his entrepreneurial acumen to create a successful black owned enterprise Concentrating on institutional history Bauman explores the Pekin's philosophy of hiring only African American staff its embrace of multi racial upper class audiences and its ready assumption of roles as diverse as community center social club and fundraising instrument The Pekin's prestige and profitability faltered after Motts death in 1911 as his heirs lacked his savvy and African American elites turned away from pure entertainment in favor of spiritual uplift But as Bauman shows the theater had already opened the door to a new dynamic of both intra and inter racial theater going and showed the ways a success like the Pekin had a positive economic and social impact on the surrounding community **The Correspondence of H.G. The Unheralded Triumph Jon C. Teafor, 2019-12-01 Originally published in 1984 In 1888 the British observer James Bryce declared the government of cities to be the one conspicuous failure of the United States During the following two decades urban reformers would repeat Bryce's words with ritualistic regularity nearly a century later his comment continues to set the tone for most assessments of nineteenth century city government Yet by the end of the century as Jon Teafor argues in this important reappraisal American cities boasted the most abundant water supplies brightest street lights grandest parks largest public libraries and most efficient systems of transportation in the world Far from being a conspicuous failure municipal governments of the late nineteenth century had successfully met challenges of an unprecedented magnitude and complexity The Unheralded Triumph draws together the histories of the most important cities of the Gilded Age especially New York Chicago Boston Philadelphia St Louis and Baltimore to chart the expansion of services and the improvement of urban environments between 1870 and 1900 It examines the ways in which cities were transformed in a period of rapid population growth and increased social unrest into places suitable for living Teafor demonstrates how during the last decades of the nineteenth century municipal governments adapted to societal change with the aid of generally compliant state legislatures These were the years that saw the professionalization of city government and the political accommodation of the diverse ethnic economic and social elements that compose America's heterogeneous urban society Teafor acknowledges that the expansion of urban services dangerously strained city budgets and that graft embezzlement overcharging and payroll padding presented serious problems throughout the period The dissatisfaction with city governments arose however not so much from any failure to achieve concrete results as from the conflicts between those hostile groups accommodated within the newly created system For persons of principle and gentlemen who prized honor it seemed a failure yet American municipal government left as a legacy such achievements as Central Park the new Croton Aqueduct and the Brooklyn Bridge monuments of public enterprise that offered new pleasures and conveniences for millions

of urban citizens Ethnicity Nathan Glazer, Daniel Patrick Moynihan, Corinne Saposs Schelling, 1975 Deals with ethnicity in modern Society **The Correspondence of H.G. Wells: Volumes 1-4** David C.
