American Artists Engage the Built Environment, 1960-1979 Susanneh Bieber, 2023-07-31 This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanneh Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book's contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism

Rembrandt Ernst van de Wetering, 2009-04-06 Ernst van de Wetering's wonderful book has taken us further than almost any study over the past twenty years towards an understanding of the machinery of Rembrandt's genius No one attempting to write about Rembrandt in the future will be able to do so without taking this fine work into account Simon Schama Who would not have wanted to look over Rembrandt's shoulder while he painted Among the countless books on Rembrandt that by Ernst van de Wetering comes closest to conveying something of this experience because the author combines the qualifications of a trained connoisseur and of a practising painter Ernst Gombrich The Poetry of Nature John T. Carpenter, Midori Oka, 2018-02-26 With a shared reverence for the arts of Japan T. Richard Fishbein and his wife Estelle P.
