Spanish in Four Continents Carmen Silva-Corvalán, 1997-04-01 This collection is the first to examine the effects of bilingualism and multilingualism on the development of dialectal varieties of Spanish in Africa America Asia and Europe Nineteen essays investigate a variety of complex situations of contact between Spanish and typologically different languages including Basque Bantu languages English and Quechua The overall picture that evolves clearly indicates that although influence from the contact languages may lead to different dialects the core grammar of Spanish remains intact Silva Corvalán s volume makes an important contribution both to sociolinguistics in general and to Spanish linguistics in particular The contributors address theoretical and empirical issues that advance our knowledge of what is a possible linguistic change how languages change and how changes spread in society in situations of intensive bilingualism and language contact a situation that appears to be the norm rather than the exception in the world

Making Ecuadorian

Histories O. Hugo Benavides, 2010-01-01 In Ecuador as in all countries archaeology and history play fundamental roles in defining national identity Connecting with the prehistoric and historic pasts gives the modern state legitimacy and power But the state is not the only actor that lays claim to the country's archaeological patrimony nor is its official history the only version of the story Indigenous peoples are increasingly drawing on the past to claim their rights and standing in the modern Ecuadorian state while the press tries to present a neutral version of history that will satisfy its various publics This pathfinding book investigates how archaeological knowledge is used for both maintaining and contesting nation building and state hegemony in Ecuador Specifically Hugo Benavides analyzes how the pre Hispanic site of Cochasqui has become a source of competing narratives of Native American Spanish and Ecuadorian occupations which serve the differing needs of the nation state and different national populations at large He also analyzes the Indian movement itself and the recent controversy over the final resting place for the traditional monolith of San Birtute Offering a more nuanced view of the production of history than previous studies Benavides demonstrates how both official and resistance narratives are constantly reproduced and embodied within the nation state's dominant discourses
