Losing Our Language:

Losing Our Language Sandra Stotsky, 2002 This book argues that it is the incorporation of a multicultural agenda into basal readers the primary tool for teaching reading in elementary schools that has stunted American children's ability to read The book shows how basal readers have been systematically dumbed down in an effort to raise minority students' self-esteem It contends that while elementary readers of the past featured excerpts from classic stories such as Arabian Nights and Robinson Crusoe with a complex vocabulary and sentence structure able to challenge the imagination and build reading skills today's basal readers present students with politically and ethnically correct stories whose language is virtually foreign and unable to engage students According to the book drawing words from Swahili Spanglish and other trendy dialects to teach students with a shrinking English vocabulary is a symptom of this intellectual and cultural disorder The book showcases interviews with teachers gives an in-depth analysis of reading texts over the past 30 years and talks about how pressure groups have affected educational publishers It points out that literacy cultural and verbal gives all students but particularly those from poor or minority backgrounds personal independence and achievement and the ability to participate fully in civic life Each of the 11 chapters includes notes NKA

Relations Rauna Kuokkanen,2019-03-01 Adopted in 2007 the UN Declaration on the Rights of Indigenous Peoples establishes self determination including free prior and informed consent as a foundational right and principle Self determination both individual and collective is among the most important and pressing issues for Indigenous women worldwide Yet Indigenous women s interests have been overlooked in the formulation of Indigenous self government and existing studies of Indigenous self government largely ignore issues of gender As such the current literature on Indigenous governance conceals patriarchal structures and power that create barriers for women to resources and participation in Indigenous societies Drawing on Indigenous and feminist political and legal theory as well as extensive participant interviews in Canada Greenland and Scandinavia this book argues that the current rights discourse and focus on Indigenous state relations is too limited in scope to convey the full meaning of self determination for Indigenous peoples The book conceptualizes self determination as a foundational value informed by the norm of integrity and suggests that Indigenous self determination cannot be achieved without restructuring all relations of domination nor can it be secured in the absence of gender justice As a foundational value self determination seeks to restructure all relations of domination not only hegemonic relations with the state Importantly it challenges the opposition between self determination and gender created and maintained by international law Indigenous political discourse and Indigenous institutions Restructuring relations of domination further entails examining the gender regimes present in existing Indigenous self government institutions interrogating the relationship between Indigenous self determination and gender violence and considering future visions of Indigenous self determination such as repatriation of Indigenous governance and an independent statehood

Restructuring Relations Rauna Johanna Kuokkanen,2019 Self determination foundational value Indigenous self government structures in Canada Greenland and S pmi Implementing indigenous self determination self administration repatriation or independence Gendering indigenous self government Self determination and violence against indigenous women Indigenous gender justice as restructuring relations Wales ,1913 **Blood Politics** Circe Dawn Sturm,2002-03-20 Circe Sturm takes a bold and original approach to one of the most highly charged and important issues in the United States today race and national identity Focusing on the Oklahoma Cherokee she examines how Cherokee identity

is socially and politically constructed and how that process is embedded in ideas of blood color and race Not quite a century ago blood degree varied among Cherokee citizens from full blood to 1/256 but today the range is far greater from full blood to 1/2048 This trend raises questions about the symbolic significance of blood and the degree to which blood connections can stretch and still carry a sense of legitimacy It also raises questions about how much racial blending can occur before Cherokees cease to be identified as a distinct people and what danger is posed to Cherokee sovereignty if the federal government continues to identify Cherokees and other Native Americans on a racial basis Combining contemporary ethnography and ethnohistory Sturm's sophisticated and insightful analysis probes the intersection of race and national identity the process of nation formation and the dangers in linking racial and national identities *Recovery and Preservation of Native American Languages* United States.
