Latinidades, Understanding Identities within Space Kathryn Quinn-Sánchez, 2015-02-05 Preconceived ideas attached to space limit the ways in which the concept can be envisioned This edited collection explores many different types of space including exile which prohibits one's ability to return home transnationalism which encourages movement between national borders typically due to dual citizenship the borderlands which implies legal and illegal crossings and finally the open road as metaphor for normative heterosexual masculinity At issue in all of these representations is the role of freedom to self define and travel freely across barriers that exist to deter entry NEO - The Witch's Cauldron and Dragon's Fire - Book Three

The World Is Always Coming to an End Carlo Rotella, 2019-04-26 An urban neighborhood remakes itself every day and unmakes itself too Houses and stores and streets define it in one way But it's also people the people who make it their home some eagerly others grudgingly A neighborhood can thrive or it can decline and neighbors move in and move out Sometimes they stay but withdraw behind fences and burglar alarms If a neighborhood becomes no longer a place of sociability and street life but of privacy indoors and fearful distrust outdoors is it still a neighborhood In the late 1960s and 1970s Carlo Rotella grew up in Chicago's South Shore neighborhood a place of neat bungalow blocks and desolate commercial strips and sharp sometimes painful social contrasts In the decades since the hollowing out of the middle class has left residents confronting or avoiding each other across an expanding gap that makes it ever harder for them to recognize each other as neighbors Rotella tells the

stories that reveal how that happened stories of deindustrialization and street life stories of gorgeous apartments with vistas onto Lake Michigan and of Section 8 housing vouchers held by the poor At every turn South Shore is a study in contrasts shaped and reshaped over the past half century by individual stories and larger waves of change that make it an exemplar of many American urban neighborhoods Talking with current and former residents and looking carefully at the interactions of race and class persistence and change Rotella explores the tension between residents deep investment of feeling and resources in the physical landscape of South Shore and their hesitation to make a similar commitment to the community of neighbors living there Blending journalism memoir and archival research *The World Is Always Coming to an End* uses the story of one American neighborhood to challenge our assumptions about what neighborhoods are and to think anew about what they might be if we can bridge gaps and commit anew to the people who share them with us Tomorrow is another ending

Tragic Pleasures Elizabeth S. Belfiore,2014-07-14 Elizabeth Belfiore offers a striking new interpretation of Aristotle's Poetics by situating the work within the Aristotelian corpus and in the context of Greek culture in general In Aristotle's Rhetoric the Politics and the ethical psychological logical physical and biological works Belfiore finds extremely important but largely neglected sources for understanding the elliptical statements in the Poetics The author argues that these Aristotelian texts and those of other ancient writers call into question the traditional view that katharsis in the Poetics is a homeopathic process one in which pity and fear affect emotions like themselves She maintains instead that Aristotle considered katharsis to be an allopathic process in which pity and fear purge the soul of shameless antisocial and aggressive emotions While exploring katharsis Tragic Pleasures analyzes the closely related question of how the Poetics treats the issue of plot structure In fact Belfiore's wide ranging work eventually discusses every central concept in the Poetics including imitation pity and fear necessity and probability character and kinship relations Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Earth Is Evil** Steven Swarbrick,2025-10 The Earth Is Evil examines the connection between subjectivity and lack arguing for a destituent ecology that sees lack as the universalist core of social political and environmental struggles Steven Swarbrick maintains that psychoanalysis does not simply help us integrate our desires into a

constituency of multispecies actors Instead psychoanalysis destitutes our fantasies of ecological and psychic wholeness That destitution he argues is the unconscious source of our enjoyment Exploring films by Lars von Trier Kelly Reichardt Daniel Kwan and Daniel Scheinert among others and intervening in trenchant debates about negativity and desire Swarbrick urges a return to the existentialist subject of lack against the flattening of subjectivity by ecocriticism The Earth Is Evil is a vigorous attempt to construct a leftist environmental movement in dialogue with the most radical currents of critical theory
