Modern Dowsing R. C. Willey, 1975 Knowing the Facts about Dowsing and Water Dowsing John Ankerberg, John Weldon, 2012-08-17 Dowsing is a practice employing divinatory implements and methods in order to search out information such as a site of water or the nature or location of disease and its proper treatment Dowsing claims to work through a practitioner's natural sensitivity to nature's geomagnetic phenomena The influence of dowsing is greater than most people realize and it is even used in the church People may think that dowsing is harmless but the real dangers in this practice are exposed and a biblical evaluation is shown by the authors *Handbook New Dowsing* Brigitta Schmidt, 2016-12-09 The Handbook New Dowsing includes the knowledge mediated by Brigitta Schmidt at her seminars now available in English It describes the basics of dowsing the pendulums from the Baj manufactory and their mode of action and application and methods of energetic healing work with these tools of angels The text is supplemented by a series of holograms which are indispensable to the work with Baj pendulums **Psychotronics and a Biodynamic Garden** George Kuepper, 2021-04-06 Dowsing and radionics are two practices and procedures for interpreting and interacting with the natural world They nurture the processes of gardening farming and landscaping through communication with subtle levels of reality Nature spirits and other forms of intelligence in nature play major roles They can be readily contacted and nourished when we combine psychotronic methods with the traditional practices of a biodynamic approach George Kuepper describes and discusses numerous procedures that have evolved from decades of working with agricultural radionics and recent research in his biodynamic garden This guidebook to growing better food is well referenced with numerous illustrations photos tables and examples Gardeners and farmers who want to improve their plants and harvests using sustainable methods will find practical help and much food for thought here Psychotronics covers a range of modalities including dowsing and radionics that can be used to access and study the hidden reality behind our physical world It provides us with practical means for investigating navigating and even changing this reality Without a doubt psychotronics is controversial and the amount of misinformation and disinformation surrounding it is dizzying So understand that what I'm presenting here is a working paradigm It will explain how I have come to understand psychotronics and how I am using it George Kuepper from the book Includes 55 illustrations diagrams and charts *Encyclopedia of New Age Beliefs* John Ankerberg, John Weldon, 1996 This comprehensive indexed volume includes short one page listings of pertinent facts about a particular movement its founder how it claims to work scientific evaluations done and its potential dangers Some topics covered are angels visualization shamanism hypnosis new age medicine and martial arts **The Detection of Human Remains** Edward W.
