English part of the Helsinki Corpus Thus a comprehensive overview of the characteristic features of Early Modern English is complemented by conclusions about the descriptive adequacy of Early Modern English grammars It becomes evident that comments by contemporary authors occasionally reflect the corpus data more adequately than the statements found in modern secondary literature This book is useful for advanced university students as well as for scholars of English and grammarians in general Introduction to Early Modern English Manfred Görlach, 1991-07-26 A comprehensive account of Early Modern English considers writing and orthography phonetics and phonology syntax and the lexicon and includes a valuable anthology of culturally oriented texts from a wide range of sources
