Shannon, 2016-03-09 A glance over the back pages of mid nineteenth century newspapers and periodicals published in London reveals that Wellington Street stands out among imprint addresses Between 1843 and 1853 Household Words Reynolds's Weekly Newspaper the Examiner Punch the Athenaeum the Spectator the Morning Post and the serial edition of London Labour and the London Poor to name a few were all published from this short street off the Strand Mary L Shannon identifies for the first time the close proximity of the offices of Charles Dickens G W M Reynolds and Henry Mayhew examining the ramifications for the individual authors and for nineteenth century publishing What are the implications of Charles Dickens his arch competitor the radical publisher G W M Reynolds and Henry Mayhew being such close neighbours Given that London was capital of more than Britain alone what connections does Wellington Street reveal between London

print networks and the print culture and networks of the wider empire How might the editors experiences make us rethink the ways in which they and others addressed their anonymous readers as friends as if they were part of their immediate social network As Shannon shows readers in the London of the 1840s and 50s despite advances in literacy print technology and communications were not simply an imagined community of individuals who read in silent privacy but active members of an imagined network that punctured the anonymity of the teeming city and even the empire **The Victorian City** Judith Flanders, 2014-07-15 From the New York Times bestselling and critically acclaimed author of *The Invention of Murder* an extraordinary revelatory portrait of everyday life on the streets of Dickens London The nineteenth century was a time of unprecedented change and nowhere was this more apparent than London In only a few decades the capital grew from a compact Regency town into a sprawling metropolis of 6.5 million inhabitants the largest city the world had ever seen Technology railways street lighting and sewers transformed both the city and the experience of city living as London expanded in every direction Now Judith Flanders one of Britain's foremost social historians explores the world portrayed so vividly in Dickens novels showing life on the streets of London in colorful fascinating detail From the moment Charles Dickens the century's best loved English novelist and London's greatest observer arrived in the city in 1822 he obsessively walked its streets recording its pleasures curiosities and cruelties Now with him Judith Flanders leads us through the markets transport systems sewers rivers slums alleys cemeteries gin palaces chop houses and entertainment emporia of Dickens London to reveal the Victorian capital in all its variety vibrancy and squalor From the colorful cries of street sellers to the uncomfortable reality of travel by omnibus to the many uses for the body parts of dead horses and the unimaginably grueling working days of hawker children no detail is too small or too strange No one who reads Judith Flanders's meticulously researched captivatingly written *The Victorian City* will ever view London in the same light again

City Of Cities Stephen Inwood,2011-07-06 By 1880 London capital of the largest empire ever known was the richest most populous city in the world And yet it remained an overcrowded undergoverned city with huge slums gripped by poverty and disease Over the next three decades London began its transformation into a new kind of city one of unprecedented size dynamism and technological advance In this highly evocative account Stephen Inwood defines an era of unique character and importance by delving into the lives and textures of the booming city He takes us by hansom cab bicycle electric tram or motor bus from the glittering new department stores of Oxford Street to the synagogues and sweat shops of the East End from bohemian bars and gaudy music halls to the well kept gardens of Edwardian suburbia Essential reading for the scholar the historian and the lover of London He is equally at home with the grand sweep and the human detail always supported by immaculate research Inwood can throw off with elegant ease a concise explanation of technicalities that the reader was vaguely aware of not understanding and perhaps meant to look up sometime Liza Picard Financial Times Magazine

Nights Out Judith Walkowitz,2012-05-15 London s Soho district underwent a spectacular transformation between the late Victorian era and the end of the Second World War its old buildings and dark streets infamous for sex crime political disloyalty and ethnic diversity became a center of culinary and cultural tourism servicing patrons of nearby shops and theaters Indulgences for the privileged and the upwardly mobile edged a dangerous transgressive space imagined to be outside the nation Treating Soho as exceptional but also representative of London s urban transformation Judith Walkowitz shows how the area s foreignness and porousness were key to the explosion of culture and development of modernity in the first half of the twentieth century She draws on a vast and unusual range of sources to stitch together a rich patchwork quilt of vivid stories and unforgettable characters revealing how Soho became a showcase for a new cosmopolitan identity

Cityscapes in History Heléna Tóth,2016-05-23 *Cityscapes in History Creating the Urban Experience* explores the ways in which scholars from a variety of disciplines history history of art geography and architecture think about and study the urban environment The concept cityscapes refers to three different dynamics that shape the development of the urban environment the interplay between conscious planning and organic development the tension between social control and its unintended consequences and the relationship between projection and self presentation as articulated through civic ceremony and ritual The book is structured around three sections each covering a particular aspect of the urban experience The City Planned looks at issues related to agency self perception the transfer of knowledge and the construction of space The City Lived explores the experience of urbanity and the construction of space as a means of social control And finally The City as a Stage examines the ways in which cultural practices and power relations shape and are in turn shaped by the construction of space Each section combines the work of scholars from different fields who examine these dynamics through both theoretical essays and empirical research and provides a coherent framework in which to assess a wide range of

chronological and geographical subjects Taken together the essays in this volume provide a truly interdisciplinary investigation of the urban phenomenon By making fascinating connections between such seemingly diverse topics as 15th century France and modern America the collection raises valuable questions about scholarly approaches to urban studies

Transatlantic Literature and Transitivity, 1780-1850 Annika Bautz, Kathryn Gray, 2017-04-28 This book makes an important contribution to transatlantic literary studies and an emerging body of work on identity formation and print culture in the Atlantic world The collection identifies the ways in which historically situated but malleable subjectivities engage with popular and pressing debates about class slavery natural knowledge democracy and religion In addition the book also considers the ways in which material texts and genres including for example the essay the guidebook the travel narrative the periodical the novel and the poem can be scrutinized in relation to historically situated transatlantic transitions transformations and border crossings The volume is underpinned by a thorough examination of historical and conceptual frameworks and prioritizes notions of circulation and exchange as opposed to transfer and continuance in its analysis of authors texts and ideas The collection is concerned with the movement of people texts and ideas in the currents of transatlantic markets and politics taking a fresh look at a range of canonical and popular writers of the period including Austen Poe Crèvecoeur Brockden Brown Sedgwick Hemans Bulwer Lytton Dickens and Melville In different ways the essays gathered together here are concerned with the potentially empowering realities of the transitive circulatory and contingent experiences of transatlantic literary and cultural production as they are manifest in the long nineteenth century

Disease and Crime Robert Peckham, 2013-12-04 Disease and crime are increasingly conflated in the contemporary world News reports proclaim epidemics of crime while politicians denounce terrorism as a lethal pathological threat Recent years have even witnessed the development of a new subfield epidemiological criminology which merges public health with criminal justice to provide analytical tools for criminal justice practitioners and health care professionals Little attention however has been paid to the historical contexts of these disease and crime equations or to the historical continuities and discontinuities between contemporary invocations of crime as disease and the emergence of criminology epidemiology and public health in the second half of the nineteenth century When how and why did this pathologization of crime and criminalization of disease come about This volume addresses these critical questions exploring the discursive construction of crime and disease across a range of geographical and historical settings

The History of the London

Underground Map Caroline Roope, 2022-09-21 Few transportation maps can boast the pedigree that London's iconic Tube map can. Sported on t-shirts, keyrings, duvet covers and most recently downloaded an astonishing twenty million times in app form, the map remains a long-standing icon of British design and ingenuity. Hailed by the art and design community as a cultural artifact, it has also inspired other culturally important pieces of artwork and in 2006 was voted second in BBC 2's Great British Design Test. But it almost didn't make it out of the notepad it was designed in. The story of how the Underground map evolved is almost as troubled and fraught with complexities as the transport network it represents. Mapping the Underground was not for the faint-hearted; it rapidly became a source of frustration and in some cases obsession, often driving its custodians to the point of distraction. The solution, when eventually found, would not only revolutionise the movement of people around the city but change the way we visualise London forever. Caroline Roope's wonderfully researched book casts the Underground in a new light, placing the world's most famous transit network and its even more famous map in its wider historical and cultural context, revealing the people not just behind the iconic map but behind the Underground's artistic and architectural heritage. From pioneers to visionaries, disruptors to dissenters, the Underground has had them all, as well as a constant stream of often disgruntled passengers. It is thanks to the legacy of a host of reformers that the Tube and the diagram that finally provided the key to understanding it have endured as masterpieces of both engineering and design.

Sound and Modernity in the Literature of London, 1880-1918 Patricia Pye, 2017-10-13 This book explores the literary representation of late Victorian and early Edwardian London from an auditory perspective, arguing that readers should listen to impressions of the city as described by writers such as Conrad, Doyle, Ford and Gissing. It was in this period that London began to sound modern and through a closer hearing of its literature, writers' wider responses to modernity are revealed. The book is structured into familiar modernist themes: revisiting time and space, social progress and popular culture through an exploration of the sound impressions of some key works. Each chapter is contextualized by these themes, revealing how the sound of the news, social protest, music hall and suburbanization impacted on writers' literary imaginations. Suitable for students of modernist literature and specialists in sound studies, this book will also appeal to readers with a wider interest in London's history and popular culture between 1880-1918.

Down and Out in

Eighteenth-Century London Tim Hitchcock, 2004-11-01 London in the 18th century was the greatest city in the world. It was a magnet that drew men and women from the rest of England in huge numbers. For a few, the streets were paved with gold, but for the majority, it was a harsh world with little guarantee of money or food. For the poor and destitute, London's streets offered little more than the barest living. Yet men, women and children found a great variety of ways to eke out their existence: sweeping roads, selling matches, singing ballads and performing all sorts of menial labor. Many of these activities, apart from the direct begging of the disabled, depended on an appeal to charity, but one often mixed with threats and promises. *Down and*

Out in Eighteenth Century London provides a remarkable insight into the lives of Londoners for all of whom the demands of charity and begging were part of their everyday world

The Familiar Essay, Romantic Affect and Metropolitan Culture Simon Peter Hull, 2018-06-11 Through close readings of diverse examples by Lamb De Quincey Hazlitt Irving and Poe this book argues that the familiar essay in the Romantic period embodies a quintessentially metropolitan mode of affect The generic traits of the essay astuteness of observation an ambulatory or paratactic movement of thought and an urbane tone of wry or ironic humour all predispose it to the expression of a detached non pathological state of mind This is a mind conditioned by the quickened pace assorted humanity and plenitude of spectacle which characterise urban and urbanised life In making a valuable genre based contribution to scholarship on the importance to Romantic studies of the city and metropolitan culture the traditional concept of Romantic affect is reassessed The book proposes a more complex and varied model than the simple binary one of a feeling reaction to Enlightenment reason Partly enacted within its own formal parameters and partly through its disruptive and genre transcending progeny the essayistic figure the familiar essay articulates a blithe and at times shocking and provocative discourse of an affect or a strategically and often satirical callousness Therefore the overall concept of affect in this period needs to be understood not as a unified entity opposed to Enlightenment reason but a dialogue between concurrent opposing modes played out against a dichotomized geo cultural landscape of the country and the city Essayistic un affect emerges in the end as an apolitical phenomenon a primary vehicle for the essayist's inherent scepticism sometimes enabling outright ridicule and at other times a tentative questioning or probing of both orthodox thought and emerging ideas from the rarefied liberalist sensibility of the Lake poets to the hubristic vanity of the colonial adventurer and from the allure of hedonistic Old World decadence to the proscriptive strictures of moralistic art

The Streets of Europe Brian Ladd, 2020-09-01 This is a sensory history and a sensual story told from street level a clear and powerful account of the transformation of street life in Europe Leora Auslander author of Taste and Power Merchants shouts jostling strangers aromas of fresh fish and flowers plodding horses and friendly chatter long filled the narrow crowded streets of the European city As they developed over many centuries these spaces of commerce communion and commuting framed daily life At its heyday in the 1800s the European street was the place where social worlds connected and collided Brian Ladd recounts a rich social and cultural history of the European city street tracing its transformation from a lively scene of trade and crowds into a thoroughfare for high speed transportation Looking closely at four major cities London Paris Berlin and Vienna Ladd uncovers both the joys and the struggles of a past world The story takes us up to the twentieth century when the life of the street was transformed as wealthier citizens withdrew from the crowds to seek refuge in suburbs and automobiles As demographics and technologies changed so did the structure of cities and the design of streets significantly shifting our relationships to them In today's world of high speed transportation and impersonal marketplaces Ladd leads us to consider how we might draw on our history to once again build streets that encourage us to
