**Life** Catherine Michael Chin, 2024-03-26 Life immerses the reader in the cosmic sea of alivenesses that made up the late ancient Mediterranean world It weaves together the philosophical religious sensory and scientific worlds of the later Roman Empire to tell the story of how human lives were lived under different natural laws than those we now know Loosely structured around events in the biography of one early Christian writer and traveller Life gives us a vivid and intimate glimpse of how ancient lifetimes unfolded under the sway of cosmic and spiritual forces that the modern world has forgotten

Danny Birt, 2006-02-01 Air burrowed insidiously into lungs that had collapsed subjective centuries ago only to rush back out through tightened vocal chords in a scream of agony Blood sluggishly drooled through heart chambers made fragile by time's merciless abrasion Involuntarily muscle groups twitched about as the soul returned to the body flailing appendages hither and thither testing their renewed animation To complete the Waking into his brain rushed memories of having no memories Existence is not supposed to be optional in this flat polytheistic world it is the dictate of Etre one of the world's three founding gods But Sanct a man lacking memories skills and purpose possesses or is possessed by an object that seemingly ignores the gods rules with impunity To make matters even more confusing Sanct is purportedly one of the gods servants But when the deities are forced to play by their own convoluted rules even they can make mistakes

Chance in the World Carl Hoefer, 2019-08-13 Probability has fascinated philosophers scientists and mathematicians for hundreds of years Although the mathematics of probability is for most applications clear and uncontroversial the interpretation of probability statements continues to be fraught with controversy and confusion What does it mean to say that the probability of some event X occurring is 31% In the 20th century a consensus emerged that there are at least two legitimate kinds of probability and correspondingly at least two kinds of possible answers to this question of meaning Subjective probability also called credence or degree of belief is a numerical measure of the confidence of some person or some ideal rational agent Objective probability or chance is a fact about how things are in the world It is this second type of probability with which Carl Hoefer is concerned in this volume specifically how we can understand the meaning of statements about objective probability He aims to settle the question of what objective chances are once and for all with an account that can meet the demands of philosophers and scientists alike For Hoefer chances are constituted by patterns that can be discerned in the events that happen in our world These patterns are ideally appropriate guides to what credences limited rational agents such as ourselves should have in situations of imperfect knowledge By showing this Hoefer bridges the gap between subjective probability and chance In a field where few scholars have given adequate treatment to interpreting statements of chance Hoefer develops a philosophically rich theory which draws on the disciplines of

metaphysics ontology and philosophy of science      **The Worldmakers** Ayesha Ramachandran,2015-10-13 In this beautifully conceived book Ayesha Ramachandran reconstructs the imaginative struggles of early modern artists philosophers and writers to make sense of something that we take for granted the world imagined as a whole Once a new exciting and frightening concept the world was transformed in the sixteenth and seventeenth centuries But how could one envision something that no one had ever seen in its totality The Worldmakers moves beyond histories of globalization to explore how the world itself variously understood as an object of inquiry a comprehensive category and a system of order was self consciously shaped by human agents Gathering an international cast of characters from Dutch cartographers and French philosophers to Portuguese and English poets Ramachandran describes a history of firsts the first world atlas the first global epic the first modern attempt to develop a systematic natural philosophy all part of an effort by early modern thinkers to capture the world on the page      **Mobility and Migration in Film and Moving Image Art** Nilgun Bayraktar,2015-12-07

Mobility and Migration in Film and Moving Image Art explores cinematic and artistic representations of migration and mobility in Europe from the 1990s to today Drawing on theories of migrant and diasporic cinema moving image art and mobility studies Bayraktar provides historically situated close readings of films videos and cinematic installations that concern migratory networks and infrastructures across Europe the Middle East and Africa Probing the notion of Europe as a coherent entity and a borderless space this interdisciplinary study investigates the ways in which European ideals of mobility and fluidity are deeply enmeshed with forced migration illegalization and xenophobia With a specific focus on distinct forms of mobility such as labor migration postcolonial migration tourism and refugee mobilities Bayraktar studies the new counter hegemonic imaginations invoked by the work of filmmakers such as Ay e Polat Fatih Akin Michael Haneke and Tony Gatlif as well as video essays and installations of artists such as Kutlu Ataman Ursula Biemann Ergin avu o lu Maria Iorio and Rapha l Cuomo Challenging aesthetic as well as national cultural and political boundaries the works central to this book envision Europe as a diverse inclusive and unfixed continent that is reimagined from many elsewheres well beyond its borders      The

Menace from Farside Ian McDonald,2025-08-22 In The Menace from Farside Ian McDonald returns to his elegantly wound solar system of the twenty second century full of political intrigue and complicated families Remember Lady Luna knows a thousand ways to kill you but family is what you know Family is what works Cariad Corcoran has a new sister who is everything she is not tall beautiful confident They re unlikely allies and even unlikelier sisters but they re determined to find the moon s first footprint even if the lunar frontier is doing its best to kill them before they get there Praise for Ian McDonald s Luna series McDonald s never written a bad novel but Luna New Moon is a great one Cory Doctorow With an action narrative driving this political commentary Luna is actually a fantastically fun read as well as an important one Los Angeles Review of Books At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
