Moving Art:

Moving Modernism Nell Andrew, 2020-03-11 The emergence of modern dance and the early history of cinema ran concurrent with the European avant garde's development of pictorial abstraction in the first decades of the 20th century. However many assume that modernist abstraction resulted from a century of natural autonomous evolution to painting styles and tastes. In *Moving Modernism* author Nell Andrew challenges this assumption. By examining dance and film created during this period she argues that performative modes of art created the link between bodily movement and movement depicted in modernist paintings. In a seeming paradox dance and film durational arts involving real bodies in space participated in the development of abstract art. With archival material collected in North America and Europe *Moving Modernism* resurfaces lost performances, identifies working methods and establishes the circles of aesthetic influence and reception for avant garde dance pioneers and experimental film makers from the turn of the century to the interwar period. Reexamining the motivation that fueled the emergence of abstraction Andrew claims that painters sought meaning not only in the material and formal picture but also in temporal and sensorial experience. Andrew looks at major figures and intellectual movements including Loie Fuller and Symbolism, Valentine de Saint Point and the Cubo Futurist and neo Symbolist movements and early cinematic abstraction from Edison and the Lumière to Hans Richter and Marcel Duchamp. Close examinations of each figure show that theatrical display embodied self projection and kinesthetic desire are not necessarily in opposition to pictorial abstraction; in fact they expand our understanding of the urges that created modern art.

Getting Off Lee Breuer, 2019-07-16 Since he first arrived on the New York art theatre performance scene in 1970 Lee Breuer has been at the forefront of the American theatrical avant garde creating challenging works both independently and with Mabou Mines, the company he co founded with JoAnne Akalaitis, Philip Glass, Ruth Maleczech and David Warrilow. By blending disciplines and techniques from widely different cultures he has created a unique performance genre fusing sound and musical components, visual arts and arresting movement, dance, puppetry into a groundbreaking form. Breuer's work as a director includes radical adaptations of major works such as his celebrated stagings of *The Lost Ones* by Samuel Beckett, *The Gospel at Colonus* inspired by Sophocles, a gender reversed *King Lear* and a revolutionary reinterpretation of Ibsen with Mabou Mines. *DollHouse* Breuer has also been a prolific writer who redefines the concept of character and the use of biography in such works as *The Shaggy Dog Animation*, *A Prelude to Death in Venice*, *Hajj Ecco Porco* and *La Divina Caricatura* in a distinctive American voice. In this volume theatre historian and journalist Stephen Nunns has assembled a unique look into one of contemporary theatre's most singular creative minds. Using interviews and excerpts from Breuer's writings with added historical commentary the thrilling result is equal parts autobiography, artistic manifesto and critical exploration. Extensively illustrated with photographs of his work from around the world this is a one of a kind portrait of the artist and theatrical activist at work.

Moving Innovation Tom Sito, 2015-08-21 A behind the scenes history of computer graphics featuring a cast of math nerds, avant garde artists, cold

warriors hippies video game players and studio executives Computer graphics or CG has changed the way we experience the art of moving images Computer graphics is the difference between Steamboat Willie and Buzz Lightyear between ping pong and PONG It began in 1963 when an MIT graduate student named Ivan Sutherland created Sketchpad the first true computer animation program Sutherland noted Since motion can be put into Sketchpad drawings it might be exciting to try making cartoons This book the first full length history of CG shows us how Sutherland s seemingly offhand idea grew into a multibillion dollar industry In Moving Innovation Tom Sito himself an animator and industry insider for more than thirty years describes the evolution of CG His story features a memorable cast of characters math nerds avant garde artists cold warriors hippies video game enthusiasts and studio executives disparate types united by a common vision Sito shows us how fifty years of work by this motley crew made movies like Toy Story and Avatar possible

Play and Creativity in Art Teaching George Szekely,2015-03-02 In Play and Creativity in Art Teaching esteemed art educator George Szekely draws on his two classic volumes Encouraging Creativity in Art Lessons and From Play to Art to create a new book for new times The central premise is that art teachers are not only a source of knowledge about art but also a catalyst for creating conditions that encourage students to use their own ideas for making art By observing children at play and using props and situations familiar to them teachers can build on children s energy and self initiated discoveries to inspire school art that comes from the child s imagination The foundation of this teaching approach is the belief that the essential goal of art teaching is to inspire children to behave like artists that art comes from within themselves and not from the art teacher Play and Creativity in Art Teaching offers plans for the study of children s play and for discovering creative art teaching as a way to bring play into the art room While it does not offer a teaching formula or a single set of techniques to be followed it demystifies art and shows how teachers can help children find art in familiar and ordinary places accessible to everyone This book also speaks to parents and the important roles they can play in supporting school art programs and nourishing the creativity of their children
