Moving Heaven And Earth Sexuality Spirituality And Social Change:

Moving Heaven and Earth Lucy Goodison,1992 Goodison challenges the dualistic mind body and spirit matter splits that determine and limit the Western worldview pointing the way to political responsibility based on spiritual awareness She offers practical exercises for use by individuals and groups to deconstruct and reconstruct their symbol systems which link individual to social life **The Transpersonal** John Rowan,2013-12-19 In this new edition of The Transpersonal John Rowan takes account of the growing interest in spirituality assessing the many new developments in the field and providing an essential overview of the multitude of guides now available on the subject By providing a clear and highly readable introduction to the realm of the transpersonal this book eliminates many of the misunderstandings that plague this area It relates the transpersonal to everyday life as well as to professional concerns and the various schools of therapy Divided into three parts Being Doing and Knowing it encourages the reader to explore the levels of consciousness the techniques involved in transpersonal work and the underlying theory The unique relationship between the therapist and client is examined in detail as are the imagined and imaginal world personal mythology and transcultural work An entirely new section is included on the ways in which the transpersonal therapist can use the concept of subpersonalities This fully updated and revised version of John Rowan s original pioneering text provides a highly practical guide which will be useful to anyone working with the growing number of people with spiritual concerns Intimacy and Solitude Stephanie Dowrick,1996-02-06 A co founder of the Women s Press in England and a trained psychotherapist explores the paradox of needing to enjoy solitude before one can be truly intimate with another In this critically acclaimed work Dowrick moves readers through the realms of solitude intimacy and desire offering spiritual as well as psychological guidance *Facing the Wild* Chilla Bulbeck,2012 What do wild animals mean to humans Will they survive both rampant habitat loss and extinction caused by human encroachment and as ecotourists our enthusiasm for them With ecotourism now the fastest growing segment of tourism and encounters with wild animals be it swimming with dolphins going on safari or bird watching ever more popular these are critical questions Yet until now little has been known about why people crave encounters with wild animals and the meaning for the ecotourism industry conservation efforts and society at large Facing the Wild is the first serious empirical examination of why people seek out animals in their natural environment what the desire for this experience tells us about the meanings of animals nature authenticity and wilderness in contemporary industrialized societies and whether visitors change their environmental perspectives and behaviour as the custodians of wildlife parks would like them to The book explores the contradictions and ambivalence that so many people experience in the presence of wild nature in loving it we may diminish it and in the act of wanting to see it we may destroy it Ultimately the book makes a case for respectful stewardship of a hybrid nature and provides insight for both practitioners and ecotourists alike *Following the Water* Kylie Carman-Brown,2019-10-18 Water reflects culture This book is a detailed analysis of hydrological change in Australia s largest

inland waterway in Australia the Gippsland Lakes in Victoria in the first 70 years of white settlement Following air water is our primal need Unlike many histories this book looks at the entire hydrological cycle in one place rather than focusing on one bit Deftly weaving threads from history hydrology and psychology into one Following the Water explores not just what settlers did to the waterscape but probes their motivation for doing so By combining unlikely elements together such as swamp drainage water proofing techniques and temperance lobbying the book reveals a web of perceptions about how water should be With this laid clear we can ask how different we are from our colonial forebears *Women and Planning* Clara H. Greed,2003-09-02 The first comprehensive history and analysis of women and the planning movement covering the philosophical practical and policy dimensions A central theme is how men have rewritten planning in their own image in creating modern urban space **The Intimacy & Solitude Workbook** Stephanie Dowrick,1996-02 **Awakening to Spirit** Lee Irwin,1999-07-16 Explores the concept of Spirit in the postmodern age **Body Psychotherapy** Tree Staunton,2014-06-03 In the past the practice of body psychotherapy has been taken less seriously in professional circles than more traditional psychotherapeutic approaches Body Psychotherapy redresses the balance offering insights into a spectrum of approaches within body oriented psychotherapy A range of experienced contributors introduce new areas of development and emerging theory and clinical material covering the history of body psychotherapy theoretical perspectives on body psychotherapy including post Reichian and development of integrative methodologies body psychotherapy in practice including applications for trauma and regression the future for body psychotherapy This book shows how body psychotherapy can be healing reparative and rewarding It will make essential reading for postgraduates and professionals whether they are already involved in this field or wish to learn more about incorporating it into their own practice *The Future of Training in Psychotherapy and Counselling* John Rowan,2014-02-25 The Future of Training in Psychotherapy and Counselling presents a revealing and stimulating account of the current state of training that demonstrates how training will have to adapt if it is to successfully meet the needs and challenges of the future In an attempt to look afresh at the whole question of training John Rowan proposes that there are three ways of doing therapy and any examination of training has to consider each of these the instrumental where the main emphasis is on the treating the client or patient the authentic way where the main emphasis is on meeting the client or patient the transpersonal way where main emphasis is on linking with the client in a more personal way Each approach makes different assumptions about the self about the relationship and about the level of consciousness involved in doing therapy By challenging the basic precepts of traditional training John Rowan encourages the reader to reconsider subjects including the difference between counselling and psychotherapy culture and ethics the origins of disturbance in clients and child development The Future of Training in Psychotherapy and Counselling provides a much needed new perspective that will compel all psychotherapists and counsellors to take a closer look at training in the field **Dancing after the Whirlwind** Linda J. Tessier,1998-11-01 Dancing after the Whirlwind explores how the denial of a

sexual self affects a woman's spiritual identity and her understanding of her place in the world L J Tessier traces the deep roots of this denial and separation of sexuality and spirituality in both Western and Eastern religions She examines the experiences of three groups of women whose sexual desires memories and experiences are routinely denied by society lesbians survivors of childhood sexual abuse and HIV positive women Drawing on their powerful examples Tessier offers us strategies for reclaiming the whirlwind of erotic power and seeing it for what it is the sacred force through which we most deeply touch one another as human beings

Science and the Construction of Women Mary Maynard,2012-10-11 Science and the Construction of Women is a multi disciplinary exploration of the major questions currently challenging feminist scholars of science The authors ask key questions What constitutes science How have feminists investigated it How does science construct women How can we create a feminist discourse of science Are the current developments to women's advantage or disadvantage Their answers draw on material from a wide range of natural scientific humanities and social science sources critically examining theoretical approaches from the postmodern to the materialist to the cyborgian A key argument of the book is that there are strong intellectual and pragmatic reasons the rapid development of information technology advances in fertility treatment and genetic engineering feminist concern for environmental issues why feminism must rigorously engage with issues of a scientific and technological nature Science and the Construction of Women provides an important contribution to the opening up and broadening of debate in the field This book will be an important text for students of gender and women's studies and science studies It is also designed to be read by feminists both inside and outside the academy and to appeal to all those with interests in the sociology of knowledge and the history of ideas

Embracing the Witch and the Goddess Kathryn Rountree,2004-03 Embracing the Witch and the Goddess is a detailed survey of present day feminist witches in New Zealand It examines the attraction of witchcraft for its practitioners and explores witches rituals views and beliefs about how magic works The book provides a detailed portrait of an undocumented section of the growing neo pagan movement and compares the special character of New Zealand witchcraft with its counterparts in the United States Great Britain and Australia Kathryn Rountree traces the emergence and history of feminist witchcraft and links witchcraft with the contemporary Goddess movement She reviews scholarly approaches on the study of witchcraft and deals with the key debates which have engaged the movement's adherents and their critics and ultimately presents what Mary Daly declared was missing from most historical and anthropological research on witchcraft a Hag identified vision Based on fieldwork amongst witch practitioners Embracing the Witch and the Goddess is an important contribution to the emerging profile of present day witchcraft and paganism

Breaking Boundaries Val Walsh,Louise Morley,2005-08-04 This text presents evidence of the work and action of feminists in academia and shows that there is still much to be done before academia is a safe and welcoming environment for women Women integrate their experience with theory to document and challenge the obstacles to equality and difference

Gender and Dialogue in the Rabbinic

Prism Admiel Kosman,2012-10-30 The author applies the fields of gender studies psychoanalysis and literature to Talmudic texts In opposition to the perception of Judaism as a legal system he argues that the Talmud demands inner spiritual effort to which the trait of humility and the refinement of the ego are central This leads to the question of the attitude to the Other in general and especially to women The author shows that the Talmud places the woman who represents humility and good heartedness in the Talmudic narratives above the character of the male depicted in these narratives as a scholar with an inflated sense of self importance In the last chapter that in terms of its scope and content could be a freestanding monograph the author employs the insights that emerged from the preceding chapters to present a new reading of the Creation narrative in the Bible and the Rabbinic commentaries The divine act of creation is presented as a primal sexual act a sort of dialogic model of the consummate sanctity that takes its place in man s spiritual life when the option of opening one s heart to the other in a male female dialogue is realized **Exploring the Body** S. Cunningham-Burley,K. Backett-Milburn,2001-09-24

This volume explores diverse ways of researching and theorizing the body It draws together a range of empirical work on different themes each taking the body and its study as its central problematic It creatively combines contributions on disability illness scars sleep complementary medicine running as well as the lifecourse themes of childhood youth and death The different approaches to researching the body examined through these contributions include autobiography case studies interviews and participant observation *Handbook of Religion and the Authority of Science* James R. Lewis,Olav

Hammer,2010-11-19 The present collection examines the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to the challenges of the contemporary world *A Woman's Book of Shadows* ,2019-04-23 The irresistible definitive guide to the magical

practices of contemporary women Beginning with a brief history of witchcraft it explores the huge range of beliefs festivals skills and lore including goddesses priestesses witches reincarnation karma magic power the aura the chakras psychic awareness astral travelling pathworking dreamwork healing covens initiations collectives lone witches the circle the altar wands robes chalices incenses oils candles the moon the planets sabbats esbats solstices equinoxes Samhain Candlemas Beltane Lammas tarot scrying starcraft herbal lore Gathering together all the disciplines of European witchcraft and giving rituals and spells for use in our lives *A Woman s Book of Shadows* first published in 1993 is a remarkable compendium of magical lore psychic skills and women s mysteries **The Virago Story** Catherine Riley,2018-04-23 The 1970s witnessed a

renaissance in women s print culture as feminist presses and bookshops sprang up in the wake of the second wave women s movement At four decades remove from that heady era however the landscape looks dramatically different with only one press from the period still active in contemporary publishing Virago This engaging history explains how from modest beginnings Virago managed to weather epochal transformations in gender politics literary culture and the book publishing business Drawing on original interviews with many of the press s principal figures it gives a compelling account of Virago s

place in recent women's history while also reflecting on the fraught relationship between activism and commerce

Storytelling and Ecology Anthony Nanson, 2021-06-17 Finalist in the PROSE Award 2022 for Language Linguistics
Awarded Honors at the Storytelling World Awards 2022 Linking the ongoing ecological crisis with contemporary conditions of alienation and disenchantment in modern society this book investigates the capacity of oral storytelling to reconnect people to the natural world and enchant and renew their experience of nature place and their own existence in the world Anthony Nanson offers an in depth examination of how a diverse ecosystem of oral stories and the dynamics of storytelling as an activity can catalyse different kinds of conversation and motivation helping us resist the discourse of powerful vested interests Detailed analysis of traditional true life and fictional stories shows how spoken narrative language can imbue landscapes creatures and experiences with enchantment and mediate between the inner world of consciousness and outer world of ecology and community A pioneering ecolinguistic and ecocritical study of oral storytelling in the modern world *Storytelling and Ecology* offers insight into the ways that sharing stories in each other's embodied presence can open up spaces for transformation in our relationships with the ecological world around us
