these days would question Mozart's rating as the most popular of all classical composers. Yet there exists no substantial up to date English language study of the man and his works. In this new study of Mozart's early years Stanley Sadie aims to fill this gap in the form of a traditional biography on a straightforward chronological basis. The volume covers the period up to 1781 the year of Idomeneo and Mozart's settling in Vienna. Individual works are discussed in sequence and related to the events of his life. Stanley Sadie draws substantially on the family correspondence quoting the letters and discussing what they tell us about Mozart and his world and his relationships with his family and his professional colleagues. Also included is a discussion of all aspects of Mozart's life and his music relating them to the environment in which he worked social economic and cultural as well as musical. Much new material connected with Mozart has come to light in recent years. There have been discoveries of musical sources and new ways of studying known ones. Such finds and methods have changed our view of the chronology of many works and they often have significant biographical ramifications. Understanding of the context for Mozart's music and indeed his life has broadened immensely. Stanley Sadie's biography digests and interprets this corpus of new information.

**Opera and the Morbidity of Music** Joseph Kerman, 2008-04-08 The death of classical music the distinguished critic and musicologist Joseph Kerman declares is a tired vacuous concept that will not die. In this wide ranging collection of essays and reviews Kerman examines the ongoing vitality of the classical music tradition from the days of Guillaume Dufay John Taverner and William Byrd to contemporary operas by Philip Glass and John Adams. Here are enlightening investigations of the lives and works of the greatest composers. Bach and his Well Tempered Clavier Mozart's and Beethoven's piano concertos Schubert's songs Wagner's and Verdi's operas Kerman discusses The Magic Flute as well as productions of the Monteverdi operas in Brooklyn and the Ring in San Francisco and Bayreuth. He also includes remembrances of Maria Callas and Carlos Kleiber that make clear why they were such extraordinary musicians. Kerman argues that predictions let alone assumptions of the death of classical music are not a new development but part of a cultural transformation that has long been with us. Always alert to the significance of historical changes from the invention of music notation to the advent of recording he proposes that the place to look for renewal of the classical music tradition in America today is in opera in a flood of new works the rediscovery of long forgotten ones and innovative productions by companies large and small. Written for a general audience rather than for experts Kerman's essays invite readers to listen afresh and to engage with his insights into how music works. His gift is so uncommon as to make one sad. Alex Ross has said.

Recognition in Mozart's Operas Jessica Waldoff, 2006-04-13 Since its beginnings opera has depended on recognition as a central aspect of both plot and theme. Though a standard feature of opera recognition a moment of new awareness that brings about a crucial reversal in the action has been largely neglected in opera studies. In Recognition in Mozart's Operas musicologist Jessica Waldoff draws on a broad base of critical thought on recognition from Aristotle to Terence Cave to explore the essential role it plays in Mozart's operas. The result is a fresh approach to the familiar question of opera as drama.
