education researchers will feel more supported in their own journeys Being a scholar and teacher that sees science education as a space for justice and thinking being different entry into this disciplinary field often comes with tense moments and personal difficulties The chapter authors of this book break into many painful awkward and seemingly nebulous topics including the intersectional nuances of what it means to be a researcher in the contexts of epistemic rigidity white supremacy and neoliberal restructuring Of course these contexts become different depending on how teachers students and researchers are constituted within them as racialized sexed gendered disposable valued subjects We hope that within these narratives readers will identify with similar struggles in terms of what it means to desire to do good in the world while facing subtle and not so subtle institutional personal cultural and political challenges *Go Books* Gordon Winch,1999 **If You Go** Alice Robinson,2024-06-25 When Esther wakes with a breathing tube down her throat she has no idea where she is or how she got there In terrible physical condition Esther is tended to by Grace the only other person in the building In the half consciousness of her recovery Esther is desperate to get back to her young kids and grapples with the events of her life as they come flooding back a childhood spent between warring parents the demise of her marriage the struggles she faced when her children were born Suspicious of Grace Esther takes drastic action to escape But there are certain facts about the reality of her situation her place in time her history and her life that she will need to uncover first *If You Go* is a moving captivating and unforgettable novel about hope and grief and family exploring what we inherit and what we pass down
